COMPLAINT

Plaintiffs Bethany Murranko, Mark Murranko, Michael McKitish, Joanne McKitish, Jeremy Whaley, David Matticoli, John Muka, Lisa Werdel, Grace Asagra Stanley, and Patricia Johnson (collectively "Plaintiffs"), by and through their counsel, complain against Defendants Mercer County Board of Elections ("the BOE"), Commissioner Mary Corrigan, Commissioner Martin J. Jennings, Commissioner Jill Moyer, Commissioner Charles Farina, former Superintendent of Elections Nathaniel Walker, current Superintendent of Elections Walker Worthy, and County Clerk Paula Sollami Covello (collectively "Defendants" or "the County") as follows:

PARTIES

- Defendant Mercer County Board of Elections is responsible for administering the elections, canvassing the votes, adjudicating and certifying provisional ballots, and the appointment and training of District Board members (poll workers).
- Defendant Nathaniel Walker was the Superintendent of Elections in Mercer County and occupied said position during the 2022 general election.
- Defendant Walker Worthy is the current Superintendent of Elections and was the Superintendent of Elections in Mercer County for the 2023 General Election.
- 4. Defendant Mary Corrigan is a Commissioner on the Mercer County Board of Elections and Board of Canvassers and occupied said positions during the 2022 and 2023 general elections. Mary Corrigan is sued in her official and personal capacity.

- 5. Defendant Martin J. Jennings is a Commissioner on the Mercer County Board of Elections and Board of Canvassers and occupied said positions during the 2022 and 2023 general elections. Martin J. Jennings is sued in his official and personal capacity.
- 6. Defendant Jill Moyer is a Commissioner on the Mercer County Board of Elections and Board of Canvassers and occupied said positions during the 2022 and 2023 general elections. Jill Moyer is sued in her official and personal capacity.
- 7. Defendant Charles Farina is a Commissioner on the Mercer County Board of Elections and Board of Canvassers and occupied said positions during the 2022 and 2023 general elections. Charles Farina is sued in his official and personal capacity.
- 8. Defendant Paula Sallami Covello is the Mercer County Clerk and occupied said position during the 2022 and 2023 general elections. The County Clerk is the clerk of the Board of Canvassers and responsible for receiving statements from the District Boards concerning election results and transmitting them to the Board of Canvassers. The clerk is responsible for the printing of ballots and issuance of vote-by-mail ballots.
- 9. Plaintiff Bethany Murranko is a Mercer County resident and voter. She was indisputably qualified to vote in the November 2022 election. When

she reported to vote, she was told that she had already voted even though she had not. She was told that she must vote provisionally, which she did. Mercer County sent Ms. Murranko a letter in December 2022 stating that her vote was not counted because "missing ballot."

- 10. Plaintiff Mark Murranko is a Mercer County resident and voter. Mr. Murranko was indisputably qualified to vote in the November 2022 election. When he went to check into the polls, he was told that he had already voted. He had not, but was required to vote provisionally anyway. Mr. Murranko is not reflected as having checked into the electronic poll book to vote in the November 2022 election, however the NJ voter information portal states that he voted in the November 2022 election by provisional ballot. He does not know if his vote was counted, but he did not receive a letter stating that it was rejected.
- 11. Plaintiff Michael McKitish is a Mercer County resident and voter. He was checked in to vote in the November 2022 election without issue and was indisputably qualified to vote. The District Board required him to fill out a provisional ballot. In December 2022, Mr. McKitish received a letter from the County stating that his vote was not counted because he "voted by machine."

- 12. Plaintiff Joanne McKitish is a Mercer County resident and voter. She was indisputably qualified to vote in the November 2022 election. Ms. McKitish checked into the electronic poll book without issue for the November 2022 election, but the County made her vote provisionally, despite being eligible to vote. Her ballot was rejected by the county with the given reason being "voted by machine."
- 13. Plaintiff Jeremy Whaley is a Mercer County resident and voter. He was checked in to vote in the November 2022 election without issue and was indisputably qualified to vote. The District Board required him to vote by provisional ballot anyway. In December 2022, Mr. Whaley received a letter from the County stating that his vote was not counted because he "voted by machine."
- 14. Plaintiff David Matticoli is a Mercer County resident and voter. He was checked in to vote in the November 2022 election without issue and was indisputably qualified to vote. The District Board required him to fill out a provisional ballot anyway. In December 2022, Mr. Matticolli received a letter from the County stating that his vote was rejected because he had "voted by machine".
- 15. Plaintiff John Muka is a Mercer County resident and voter. During the 2022 election he was an official challenger with authority to be in the

5

polling place to observe the election and the tallying of votes. He was hindered in his ability to observe the election.

- 16. Plaintiff Grace-Assagra Stanley is a Mercer County resident and voter.
- 17. Plaintiff Pat Johnson is a Mercer County resident and voter who tried to observe the counting of the votes during the 2022 election, but whose ability to observe was thwarted by the County and its agents.
- 18. Plaintiff Lisa Werdel is a Mercer County resident and voter who was told to vote provisionally in the 2023 General Election because the electronic poll book had her incorrectly marked as having voted by mail even though she had not requested or received a mail in ballot.

INTRODUCTION

- 19. In 2022, Mercer County voters were supposed to vote by paper ballot and the ballots were supposed to be scanned into tabulating machines at the polling location. However, the tabulating machines throughout the entire county failed to work on Election Day, November 8, 2022.
- 20. The tabulating machines are manufactured by Dominion Voting Machines ("Dominion"). Upon information and belief, the reason the tabulating machines did not work is because Dominion failed to update the numbering of ballots after a change was requested by the Mercer County Clerk, so the tabulators did not recognize the ballots as legitimate.

- 21. The failure of the tabulating machines only affected the manner in which the paper ballots would be collected and tabulated. It should not have affected any qualified voters' ability to cast a regular ballot.
- 22. The District Boards are responsible for tallying, certifying, and reporting election results to the public unless the County has designated a counting center for votes to be tabulated. *See N.J.S.A. 19:16-10, N.J.S.A. 19:17-1, N.J.S.A. 19:17-2.*
- 23. The BOE and Superintendent of Elections apparently did not have protocols in place in the event a polling place tabulator did not work, had failed to train District Board members on what to do in the event of machine malfunction, and had failed to train county workers and District Board members on how to handle paper ballots in a manner consistent with maintaining chain of custody, performing their statutory duties, and ensuring a secure election.
- 24. From the time the polls opened at 6am to approximately 8am, voters throughout Mercer County were instructed by the District Board workers, to vote provisionally when they should have been voting by regular ballot.
- 25. Upon information and belief, the instruction to have qualified voters cast votes by provisional ballot was relayed to District Board workers by Nathaniel Walker, the Superintendent of Elections at the time and other

Mercer County election authorities.

- 26. As a result, voters in this time period had their ballots wrongly subjected to the additional scrutiny of adjudication by the County Board of Elections and at least 759 voters were disenfranchised and their votes were not counted due to "voting by machine" when the Defendant BOE and each of its Defendant Commissioners knew that it was impossible for these voters to have voted by machine.
- 27. Because there were no protocols for the proper handling of the paper ballots and because District Board workers were not trained on how to handle paper ballots, chain of custody was not preserved on many, perhaps most, ballots in Mercer County for the 2022 election cycle.
- 28. Entire bags of votes were misplaced, bags and machines containing ballots were not properly sealed, and at least 1500 ballots were found left behind in tabulators six days after the election.
- 29. The final numbers for the election are unknown and unknowable. The numbers Mercer County certified differ from those it reported to the state voter history files by thousands of votes and this discrepancy remains unresolved.

THE FAILURE OF THE TABULATORS ON ELECTION DAY

30. New Jersey ballots are labeled with a precinct-number so the County can

record and report precinct-by-precinct totals. Every vote-by-mail ballot, provisional ballot, early voting ballot, and regular Election Day ballot is labeled with a number distinct to its precinct.

- 31. In Mercer County in 2022, all of these ballots were printed in advance of the election except early-voting ballots, which were produced on-demand by ballot-marking devices.
- 32. Mercer County contracts with Royal Printing Services for ballot printing.
- 33. Mercer County contracts with Dominion Voting Systems for ballot marking devices and tabulators.
- 34. For each election a "ballot definition file" is prepared by Dominion that tells the vote-counting program what candidates are on the ballot in each ballot style (Early, Election Day, Mail in, Provisional and Federal).
- 35. In September 2022, the County Clerk sent Royal Printing Services the list of candidates on the ballot in each town for the November election. Royal created all the ballot layouts and then sent the ballot styles for approval by the County Clerk, as follows:
 - a. Ballot styles 1-243: vote-by-mail ballot definitions for each precinct
 - b. Ballot styles 244-245: federal ballot definitions
 - c. Ballot styles 246-488: provisional ballot definitions for each

precinct

- d. Ballot styles 489-731: election day ballot definitions for each precinct
- e. Ballot styles 732-974: early voting ballot definitions for each precinct.
- 36. Upon information and belief, Royal Printing sent this file to Dominion, the County Clerk, and the Superintendent of Elections on or around October 4, 2022. On each ballot, the "ballot ID" (a number between 1 and 974) is printed at the bottom of the page, in plain text and as a barcode that the voting machines can read.
- 37. The County Clerk had not yet approved this set of ballot styles but asked to have a phone call with Royal and Dominion on October 5, 2022. In the call, someone pointed out that it was not necessary to print 243 different forms of provisional ballot; it would suffice to have one style of provisional ballot for each of the 18 different layouts (4 Trenton wards + 11 towns + Spanish-language ballots in 3 of those towns). Doing it this way would save money for the county. Exhibit D at pg. 12.
- 38. Upon information and belief, in an e-mail on the afternoon of October 5th, 2022, Dominion was formally notified of this change, yet Dominion failed to re-code the Election Day and Early Voting ballot IDs.

- 39. Royal Printing did account for the change and created a new ballots accordingly. Royal Printing's new file of ballot styles looked like this:
 - a. Ballot styles 1-243: vote-by-mail ballot definitions for each precinct;
 - b. Ballot styles 244-245: federal ballot definitions;
 - c. Ballot styles 246-263: provisional ballot definitions for each town;
 - d. Ballot styles 264-506: Election Day ballot definitions for each precinct; and
 - e. Ballot styles 507-749: early voting polling-place ballot definitions for each precinct.
- 40. Upon information and belief, the Dominion employee who was tasked with updating the Ballot Definition Files recoded the provisional ballots, but failed to re-code the election-day and early voting ballots.
- 41. Before and after each election, the County is required by statute to perform accuracy testing to ensure the tabulators are correctly counting the votes. Upon information and belief, Mercer County or its agents performed testing on October 13th, by feeding a "deck" of about 5,000 optical-scan paper ballots through the Image Cast Central tabulators numbered 1009, 1018, 1019, 1020 and 1021. This test deck was created by Dominion based on their own list of ballot styles, which had not been

updated. Thus, Dominion's test ballots matched what the tabulators expected, and the test "passed."

- 42. Upon information and belief, the Mercer County Board of Elections did not test every tabulator that was expected to be used on Election Day, but instead only five tabulators located in Trenton that were not expected to be used to tabulate Election Day ballots because it was expected that the results would be tabulated at the District Level by the tabulators located at each polling location.
- 43. Royal Printing Services delivered to Mercer County, 243 styles of preprinted vote-by-mail ballots (ballot IDs 1-243), as well as 18 styles of pre-printed provisional ballots (ballot IDs 246-263), and 243 styles of pre-printed election-day ballots (ballot IDs 264-506). These ballots were updated pursuant to the October 5th phone call. These ballots were then delivered in November 2022 to the polling places along with the Image Cast Precinct tabulating voting machines.
- 44. On Election Day, in every precinct, the preprinted ballots had a different ballot ID number than the precinct tabulators expected so the tabulators rejected the ballots.
- 45. The vote tabulating machines rejected the Election Day ballots everywhere in Mercer County immediately upon the polls opening.

12

<u>THE COUNTY REQUIRED VOTERS TO VOTE</u> <u>PROVISIONALLY AND VOTERS WERE TREATED</u> <u>DIFFERENTLY BASED ON WHEN AND WHERE THEY</u> <u>REPORTED TO VOTE</u>

- 46. When District Board workers called the Mercer Board of Elections and Superintendent for instructions on what to do given the failure of the tabulating machines, they were instructed to provide voters with provisional ballots.
- 47. Consequently, Mercer County voters who arrived in the first few hours of Election Day were required to vote provisionally rather than with emergency or regular paper ballots.
- 48. Provisional ballots are used when a voter's eligibility is in question. The NJ District Board Members Training Manual explains: "A provisional ballot is a paper ballot that is given to a person in the polling place if there is any question regarding his or her right to vote which the district board cannot resolve." Exhibit A at pg. 29.
- 49. Provisional ballots are not automatically counted and instead are sent for adjudication by the Board of Elections. During the adjudication process the Board decides whether to count the provisional ballot.
- 50. The purpose of the tabulators is simply to count the paper ballots.
- 51. The failure of the tabulating machines should not have affected anyone's ability to vote if they were qualified.

- 52. Ballots can be manually inserted into the tabulator through an emergency box and/or by removing the top part of the machine, which allows voters to directly deposit their paper ballots into the machine. Therefore, the failure of the tabulators to scan did not change where cast ballots were deposited.
- 53. Around 8am, the County changed course and instructed District Board workers to use the regular pre-printed Election Day paper ballots and have voters put the completed ballots into the open slot in the ballot box of the tabulator.
- 54. *N.J.S.A.* 19:48-7 provides a statutory procedure that is to be followed if a voting machine malfunctions. Specifically, it provides that "[d]uring any period when a voting machine is inoperative, emergency ballots made as nearly as possible in the form of the official ballot shall be used." The statute provides that votes cast by emergency ballot "shall be counted with the votes registered on the voting machines. The result shall be declared the same as though there had been no accident to the voting machine."
- 55. The District Board training manual, prepared by the State, says the same: Exhibit A at pg. 31 ("emergency ballots are paper ballots which are used if a voting machine becomes inoperable"); *Id.* at pg. 33 ("Emergency ballot

voters are processed in the same manner as any voter entitled to vote on the voting machine").

56. The training manual further explains that for emergency ballots "[t]he requirements for counting a paper ballot apply." *Id.* at pg. 36. The manual sets forth an orderly and transparent process in which a judge and inspector, who are two members of the District Board, publicly tally the votes:

First, a board member is to remove the white seal from the emergency ballot box and opens the ballot box in full view of the public. Second, the judge will remove the ballots one at a time and read the votes cast. The judge will do this in front of the inspector who will look at the ballot to make sure that it was read correctly and record the vote(s) on the Emergency Ballot Tally Sheet...the district board clerk will tally the results of the emergency ballots as they are read by the judge...Before removing the next ballot from the ballot box, the judge shall replace the ballot previously read back into its plain white envelope and hand it to the inspector. Each envelope shall be numbered consecutively (i.e., 1, 2, 3, etc.) and strung together in numerical order."

- 57. Here, Mercer County should have used either an emergency ballot procedure or simply allowed voters to use the regular paper ballots to be tabulated later, which is what it eventually did.
- 58. In 2022, the ballots should have been tallied manually by the District Board in the manner described in the Training Manual and Title 19 because

the county did not have a designated counting center with tabulators that had undergone the statutorily required logic and accuracy testing for the Election Day ballots. *See N.J.S.A.* 19:16-7, *N.J.S.A.* 19:17-1.

- 59. There is no circumstance under which voters should have been instructed to vote provisionally because a machine was not working.
- 60. Because voters who arrived in the early morning were told to vote provisionally, their ballots were adjudicated by the Board of Elections when they should have simply been counted.
- 61. As detailed herein, the improper move to provisional ballots and recording errors concerning these ballots resulted in at least 759 voters, including Plaintiffs Bethany Murranko, Michael McKitish, Joanne McKitish, Jeremy Whaley, and David Matticoli, having their votes rejected when they should have been accepted and should not have been subject to adjudication at all. These voters were disenfranchised.
- 62. Other voters, like Plaintiff Mark Murranko do not know if their vote was counted as the electronic poll books do not show them as having checked in.
- 63. The New Jersey District Board Training manual states that the "County Board of Election should have an emergency voting plan." Exhibit A at pg. 13.

- 64. However, it is apparent that the Mercer County Board of Elections had no plan in place in the event Election Day machines did not work. Indeed, in response to an Open Public Records Act ("OPRA") request seeking, "All documents setting forth election-day procedures in the event of machine breakdowns or outages," the County responded, that it "has no records responsive to this request." Exhibit B, OPRA request R005871-080823.
- 65. Moreover, the County apparently had no protocol for counting paper ballots at the district or municipal level, failed to train District Board workers on how to handle paper ballots so as to maintain proper chain of custody and a secure election, and failed to provide District Board workers with necessary resources to carry out their statutory duties.
- 66. Without the benefit of a plan and proper training, there was confusion at the precincts throughout the day on the part of both poll workers and voters.
- 67. Voters were variously told to come back later, vote provisionally, vote by emergency ballot, or vote by regular ballot depending on their polling location and the time of day they arrived.
- 68. Christine Ruhl, who served as a challenger in Hopewell Township on Election Day 2022 relayed her observations:

I also witnessed the poll workers using different processes for issuing the paper tickets [authority to vote slips] that accompany the ballots. One of the poll workers handed out tickets to every voter and I witnessed another poll worker handing out tickets only to people who were issued paper ballots, not to those voters who were issued a provisional ballot. This worried me because there was no way to track how many ballots were supposed to be in the bins on election day.

(Ruhl Declaration Exhibit C).

69. At a public meeting concerning this election, Mark Cubberly relayed what

he witnessed when he went to vote:

At 6:01 I was told I have to come back because the machines were down. The poll workers did not realize that voters shouldn't leave the polls. That there was an alternative method with emergency ballots and/or provisional ballots...I watched four of them walk right out the door. I knew immediately there was a problem. I had to vote provisionally myself...What I observed [at St. Bartholomew's School] was an utter disaster. People had ballots outside of the building because they were given ballots and they were told they could come back and vote.

Exhibit D (Transcript from November 22, 2022 public

meeting of the Mercer County Board of Commissioners at

pages, 92-94).

70. Poll Worker Jennifer Strano relays that "many voters refused to vote provisionally and left without voting. Several people returned multiple

times throughout the day to see if the tabulator was working. Some voted provisionally. Some decided to leave." Strano Declaration Exhibit E.

- 71. Upon information and belief, hundreds of ballots were spoiled because the poll workers failed and/or refused to accept the properly completed ballots simply because the tabulator was not working. *See id.* at ¶¶ 8-9.
- 72. Upon information and belief, the improper use of provisional ballots caused a shortage of provisional ballots in some polling locations causing voters to become disenfranchised because they were told they must vote by provisional ballot (which was improper) and there were no provisional ballots. Exhibit D at Pg. 82:13-20 (public statement by Barbara Holstein).
- 73. Unfortunately, the confusion and chaos only grew worse after the polls closed at which point Mercer County suffered a complete breakdown in ballot chain of custody and security.

THE COUNTY FAILED TO PRESERVE CHAIN OF CUSTODY FOR BALLOTS THROUGHOUT THE COUNTY AFTER THE POLLS CLOSED

74. Preserving chain of custody of ballots is fundamental to election integrity. Indeed, the NJ State Training Manual states "It is of the **UTMOST** importance that a secure chain of custody is maintained- all items pertaining to election results should be inventoried and signed for at each exchange." Exhibit A at pg. 37-38 (emphasis in original). 75. Title 19 sets for specific procedures to maintain election integrity and ensure proper chain of custody of ballots. Specifically, *N.J.S.A.* 19:18-2 provides that after the polls close:

The ballot box, after being locked and bound with tape and sealed, shall in all municipalities be immediately taken in charge by 2 members of the district board. It shall then be delivered to the office of the clerk of the municipality in which the election may be held, by said members or by said members with the assistance of an officer or officers to be designated by the governing body thereof, by the most direct route and without delay, and such members or officers shall not stop at any place between the polls and the municipal clerk's office.

(emphasis added).

76. N.J.S.A. 19:18-3 requires the municipal clerk's office to remain open until

all ballot boxes are accounted for and sets forth the manner in which the

clerk must maintain chain of custody, stating that the clerk:

shall enter in a book to be kept for that purpose the exact time when each ballot box may be delivered at such office, the district whence it was brought, names of the members of the district board delivering it, and the name of the police officer or other witness who may accompany them, and any other particulars he may deem important; such book shall be filed in the office of the municipal clerk and be preserved by him for two years.

77. *N.J.S.A.* 19:53A-7(g) ("Conduct of Election") provides:

The district board election officers shall prepare a report of the number of voters who have voted, as indicated by the poll list, the number of write-in

votes and any other votes counted by the district board and the number of spoiled ballots, and shall place the original copy of this report in the ballot card container for delivery to the counting center, which thereupon shall be sealed so that no additional ballot cards may be deposited or removed...Two district election board officers who are not members of the same political party shall forthwith deliver the ballot card container to the counting center or other place designated by the county board. The county board may, in its discretion, direct that ballots be delivered to one or more collection points from which points the ballots shall be transported collectively to the counting center by two duly appointed deputies who are not members of the same political party. The district board shall receive a receipt before releasing the ballots to said deputies.

- 78. Here, Mercer County disregarded several of these statutory requirements.
- 79. At the November 22, 2022 public meeting of the Mercer County Board of

Commissioners, several members of the public spoke to relay to the county

the chain-of-custody problems they witnessed on Election Day.

- 80. The ballots were not removed from the machines in a manner that preserved chain of custody. Indeed, news outlets ran articles with photos showing ballots scattered in disorganized piles on the floor. (Exhibit F, New Jersey Globe, "Mercer finds mi[s]sing ballots, but questions regarding Election Day disaster continue").
- 81. Darius Mayfield stated "we witnessed people working the elections taking ballots out of machines and putting them back in." Exhibit D at pg. 57.

- 82. Mark Byrne, a challenger in the 2022 General Election, witnessed and took video of an election worker removing ballots from the tabulator many at a time and putting them on the floor. Exhibit G (Declaration of Mark and Stacy Byrne).
- 83. Several members of the public relayed that they saw ballot bags being brought to the County, unsealed and by one person only.
- 84. Andrew Curcio stated: "I have two people here they will confess under oath that the bags were open. They actually took the bags themselves to the Commissioner at the drop offs." *Id.* at pg. 78.
- 85. Stephanie Reichardt stated "I just want you guys to hear from yet another person who was there the night when the bags were brought in. And, again, we observed no tags, no seals on all the bags, which obviously was already said tonight. I personally made a list of all those bags...While I was keeping that list of bags, I was told at one point that seals don't matter. That the poll workers weren't told that they needed to seal the bags." *Id.* at pg. 95.
- 86. Upon information and belief, ballot bags throughout the county were not secured properly, the departure and arrival of ballots from the polling locations to the County was not logged or recorded, and the removal of the

ballots from the tabulators to the ballot bags was done haphazardly without any regard for maintaining chain of custody.

- 87. Multiple witnesses saw that the ballots were not transported to the counting center by two district board members in many cases. *See* Exhibit G Declaration of Mark and Stacy Byrne (stating "We were told they were being transported to Mercer County Board of Elections office in Trenton NJ by one individual and we were not allowed to follow"); Exhibit H Declaration of John Muka (stating "[o]ne person, alone, transported the red bags of ballots to the Mercer Central Counting Location"); Exhibit D at pg. 45 (Plaintiff Patricia Johnson stating "I was at the site when they brought bags in and there were 17 bags in total that were untagged. Some of them were brought in by one person").
- 88. Mike Cipriano, the Robbinsville council president, made a statement on behalf of the Robbinsville mayor and entire council. He stated: "The reports we've received from poll workers have not been encouraging, and serious questions about the chain of custody of ballots have been raised by those in the field that evening." Mr. Cipriano stated that the Mercer County Clerk called the Robbinsville clerk around 4:30 pm on November 9th (the day after the election) to inform her that "our District 5 ballots had gone missing." *Id.* at pg. 64.

- 89. Election observer and Plaintiff Patricia Johnson relayed that at the Spruce Street location in Trenton at least one bag from Princeton was missing on Election night. *Id.* a t pg. 45.
- 90. Indeed, many ballots were missing, and not just from Princeton. At least 1,500 ballots were still sitting in voting machines and would not be found until a court ordered that the machines be searched. Exhibit I, Elizabeth A. Meyers, Tapinto, "*After Bungled Ballots, Machines Malfunctioning, Officials Calling for Overhaul of Mercer County Elections System*").
- 91. Pursuant to the Court Order, the county inspected all the voting machines for uncounted ballots.
- 92. This inspection took place over two days. The County's own records show that many of the machines were unsealed, contrary to law, including machines in which ballots were found. Exhibit J (Mercer County log of ballots found in machines).
- 93. The machines, including unsealed machines in which ballots were found, were transported to the warehouse by a private moving company.
- 94. The chain of custody was broken on all these ballots. It cannot be known whether ballots were added to or taken out of these machines in the six days between the election and when they were inspected.

- 95. To maintain election integrity and preserve chain of custody, the District Board workers are required to create and keep multiple tallies including how many voters have voted and how many provisional and emergency ballots were cast throughout the day. *See e.g.*, Exhibit A at pg. 11.
- 96. These tallies are supposed to be publicly posted every two hours pursuant

to N.J.S.A. 19:52-3.1, which provides that

The district boards of election at each polling place shall create and publicly display a notice containing an official count of the cumulative number of voters who have voted at each precinct, indicating the number of voters who have voted using a voting machine and the number of voters who have voted using a provisional ballot. The first notice shall be produced two hours from the opening of the polls and updated every two hours thereafter until the time the polls close.

- 97. The purpose of this law "is to promote greater transparency in the electoral process by requiring that district boards report how many voters have voted and by allowing challengers to have access to current turnout information during Election Day." (Committee statement in support of bill).
- 98. However, upon information and belief many, perhaps most, Mercer County polling locations did not post public tallies throughout the day.

- 99. District Boards are also responsible for creating tally sheets that reflect the "votes given for each person for any office to be filled." *N.J.S.A.* 19:16-9 and *N.J.S.A.* 19:16-9.
- 100. However, according to Mercer County there are no tally sheets for the November 2022 election. Upon information and belief, the District Boards did not create tally sheets. The County responded to an Open Public Records Act request for "copies of tally sheets for each election in Mercer County 2022" with the response "The County has no record responsive to this request." Exhibit K.
- 101. District Boards are responsible for counting the ballots and certifying the results. *N.J.S.A.* 19:17-1, 19:17-2.
- 102. Upon information and belief, no District Boards counted ballots or certified elections results in 2022.
- 103. In fact, the District Boards did not even count how many ballots were in the ballot box at the end of the night. Exhibit E Declaration of Jennifer Strano (stating that "[a]t the end of the night there were no tally numbers or print outs to show the number of ballots cast into the machine...The ballots from the tabulator were not counted").
- 104. Thus, there is no record of how many ballots were taken out of the tabulators versus what was delivered to Trenton before being counted.

- 105. *N.J.S.A.* 19:52-2.1 requires that when voting machines are used, voters shall sign a two part perforated voting authority slip. The voter is given one part to give the District Board members who is in charge of operating the voting machines. The slip is then supposed to be strung.
- 106. The number of ballots should match the voting authority slips, but those also were not handled in the manner required by Title 19. Upon information and belief, they were not strung in 2022 or 2023, anywhere in the County.
- 107. The County did not create or maintain the necessary chain of custody documentation for Election Day.
- 108. On August 11, 2023, Mercer County received an OPRA request seeking "evidence of the chain of custody records for all ballots from Districts #32 and #58." Mercer County closed the request without producing any records and indicating that it had no responsive records. Exhibit L.
- 109. On January 31, 2024, Mercer county received an OPRA request, number R006350-013124 seeking "any and all logs of the chain of custody of ballots, ballot bags, and ballot boxes that were signed between any Mercer County district poll workers, municipal clerks, and Board of Elections officials, in the November 8, 2022 general election, between election day, and through at least November 15, when such materials were

still being received at the County warehouse." As of the time of filing, the County still has not produced evidence for any chain of custody anywhere in the county in 2022.

- 110. On March 16, 2023 an OPRA request was submitted to Mercer County requesting "any and all logs of the chain of custody of ballots, ballot bags, and ballot boxes that were signed between any Mercer County district poll workers, municipal clerks, and Board of Elections officials, in the November 8, 2022 general election, between election day, and through at least November 15, when such materials were still being received at the County warehouse." Exhibit M.
- 111. The County denied the request and set forth its belief that *N.J.S.A.* 19:18-3 (which requires municipal clerks to take custody of the ballot boxes, <u>which contain the ballots</u>, and to document the chain of custody of the ballots to the municipal clerk's office by recording the name of the district board members who delivered it and the exact time it arrived) "no longer applies." Exhibit M.
- 112. Upon information and belief, Mercer County thinks *N.J.S.A.* 19:18-3 no longer applies because ballot bags are used instead of ballot boxes to contain the ballots.

- 113. *N.J.S.A.* 19:47-2 states that "[a]ll provisions of law relating to elections shall apply to all elections where voting machines are used so far as the same may be applicable thereto and so far as such provisions are not inconsistent with the provisions of this subtitle."
- 114. *N.J.S.A.* 19:53A-13 states that "[t]he provisions of Title 19 of the Revised Statutes except as herein modified shall be applicable to the use of electronic voting systems in elections as herein provided for."
- 115. Title 19's requirement that the ballots be returned to the municipal clerks, with proper and documented chain of custody, has not been superseded by any subsequent statutes concerning elections or voting.
- 116. Pursuant to *N.J.S.A.* 19:18-4, ballots should be in the care of municipal clerks in the ballot bags for three months after which point they may be removed from the ballot bags and be preserved elsewhere for a further period of two years.
- 117. Upon information and belief, the County has usurped this duty from the municipal clerks.
- 118. Mercer County failed to follow Title 19's requirements that preserve the chain of custody for ballots throughout Election Day and after the polls closed.

119. Unfortunately, the chaos and chain of custody issues worsened as the counting commenced and proceeded.

THE MANNER IN WHICH THE VOTES WERE COUNTED AND THE ELECTION CERTIFIED DEPRIVED MERCER COUNTY RESIDENTS OF A FAIR ELECTION

- 120. *N.J.S.A.* 19:16-2 requires that the counting of votes proceed continuously and publicly. That did not happen in Mercer County in 2022.
- 121. The counting of the votes in Mercer County was not continuous and it is not clear that it was always public.
- 122. Tabulation of the votes was supposed to take place at the district board level. That was the purpose of the tabulators.
- 123. *N.J.S.A.* 19:53A-8(d) provides that "[i]f for any reason it becomes impracticable to count all or part of the ballot cards with tabulating equipment, the county board of elections may direct that they be counted manually, following as far as practicable the provisions governing counting of paper ballots contained in Title 19 of the Revised Statutes."
- 124. *N.J.S.A.* 19:53A-8(a) requires that "[p]rior to the start of the count of the ballots, each county board of elections shall have the automatic tabulating equipment tested to ascertain that it will accurately count the votes cast for all offices and on all measures." The statute requires that the time and place of the test be given at least 48 hours prior by publication in

at least three daily or weekly newspapers. The same test is to be conducted after the count and must be passed before the votes can be certified as official.

- 125. Two types of tabulators were used in Mercer County in 2022, Image Cast Central tabulators, which were located at Spruce Street in Trenton and which were intended to tabulate only vote-by-mail ballots, and Image Cast Precinct tabulators, which were located in the polling locations and which were intended to tabulate early voting and Election Day ballots.
- 126. System logs provided pursuant to Open Public Records Act requests evidence no testing on any Image Cast Precinct tabulators (the ones in the polling locations) prior to Election Day. Exhibit Q, Certification of Mark Demo ("Demo Cert.") at ¶7.
- 127. This means that even if the Image Cast Precinct tabulators had worked correctly on Election Day, the County would still have been in violation of *N.J.S.A.* 19:53A-8(a) because those tabulators did not undergo the statutorily required testing.
- 128. System logs show that Image Cast Center Tabulators numbered 1009, 1018, 1019, 1020 and 1021 did undergo testing on October 13, 2022, however this was with the faulty Dominion deck that had not been updated

pursuant to the changes requested by the Mercer County Clerk. Exhibit Q, Demo Cert. at ¶8.

- 129. Thus, upon information and belief, in November 2022, it was impossible for the votes to have been counted on <u>any</u> tabulators in Mercer County. None of them had been tested in accordance with *N.J.S.A.* 19:53A-8(a).
- 130. The tabulation therefore should have been done manually and by the District Boards to comply with Title 19 and the Constitutions of New Jersey and the United States. *N.J.S.A.* 19:53-8(d).
- 131. In November 2022, Mercer County disregarded the safeguards of Title19 and instead had ballots transported to a central location in Trenton without maintaining chain of custody.
- Unsecured, uncounted ballots were still being found seven days after Election Day.
- 133. In Trenton, witnesses reported chaos and a lack of transparency as the votes were tallied.
- 134. For example, live ballots were spit into the air from the tabulators, which would cause ballots to go flying around until the workers collected them, restacked them, and scanned the pile again.

- 135. John Muka witnessed that ballots were being adjudicated more than 30 feet away from where witnesses were seated in another room which meant that observers "were unable to determine anything about the process." Exhibit H (Decl. of John Muka). Mr. Muka questioned Commissioner Chuck Farina as to what was going on behind the glass windows and the Commissioner responded, "I'm not sure what I'm allowed to tell you. I'll get someone else to answer your questions." *Id.*
- 136. Jill Moyer, another BOE commissioner, was walking around with boxes of ballots and told Mr. Muka that it was for the "temps" to work on. *Id.*
- 137. Pursuant to N.J.S.A. 19:53A-8(b), "[a]ll persons who are engaged in processing and counting of the ballots shall be deputized and take an oath that they will faithfully perform their assigned duties." However, an OPRA request for a "list of all persons deputized Election Day 2022 and any documents evidencing they were deputized" was responded to with the statement that "The County has no records responsive to this request." Exhibit N.
- 138. Upon information and belief Mercer County had non-deputized temporary workers and third-party vendor employees handling and counting ballots on Election Day.

33

- 139. Even when the vote counting was public, members of the public were kept at too great a distance to observe (see and hear) properly and were often treated rudely by County employees when they tried to better observe what was happening. This is contrary to *N.J.S.A.* 19:53A-8 which provides that "all proceedings shall be conducted under the observations of the public."
- 140. Moreover, on November 8, 2022 at the Spruce Street location, Plaintiff Pat Johnson along with two other Mercer County residents were advised that the building was closing and that no more tabulation would take place that evening. Plaintiff Pat Johnson and her two companions both recall leaving the building between 11:30pm and 12:00am, that the lights were turned off, and doors were closed and locked. All three were led to believe that the tabulation was ending for the night.
- 141. However, the ballot images show that the tabulators were running until past 12:00am.
- 142. At the warehouse, when the machines were being searched for empty ballots, Plaintiff Patricia Johnson and other witnesses report that the county always opened the machines with the bins facing away from observers so they could not observe whether there were ballots in the machine.

THE NUMBER OF VOTES CAST AND COUNTED IN THE NOVEMBER 2022 GENERAL ELECTION IS UNKNOWN AND UNKNOWABLE

- 143. The disorder of Election Day and the subsequent counting of the votes is reflected in reported numbers for the election, which are inconsistent between what was reported to the public, to the state voter history file, and to the federal government. The true outcome of the elections held in Mercer County in November 2022 are not, and cannot be known.
- 144. The Election Day ballots, provisional ballots, and mail-in ballots were tabulated separately and there are discrepancies in the numbers reported for each of these types of ballots.

Issues with Counting Election-Day ballots

- 145. As outlined above, the Election Day ballots should have been counted in the manner of paper ballots by the District Boards as provided under Title 19, which would have preserved chain of custody.
- 146. Instead, after being haphazardly transported from the polling locations to Trenton, Election Day ballots were counted over a period of 13 days. System logs and ballot images show that 26,660 Election Day ballots were counted on November 8th and 30,314 were counted on November 9th. The rest were counted on Thursday, November 11th (280), Friday, November 12th (1,460), Monday, November 14th (1,702), Wednesday, November

16th (5), Saturday, November 19th (56) and Sunday November 20th (250). Demo Cert. at ¶9.

- 147. The counting of Election Day ballots was not continuous, and it is not clear that it was all done in public with public observation. When the public was allowed to observe, it was far away and/or from a different room where observers could not hear what was happening.
- 148. In addition, the County reported, in response to an Open Public Records Act request, that the Election Day ballots were tabulated on one set of tabulators, which had undergone testing in October with the incorrectly labeled Dominion ballots. However, the ballot images, which record which tabulator each ballot was counted on, show that the ballots were actually tabulated on different machines, which had not undergone public testing. Demo Cert. at ¶10.
- 149. This hid the fact that the Election Day ballots were counted on tabulators that had not undergone the statutorily required testing before and after tabulating the ballots.
- 150. Upon information and belief, the ballot images show hastily done testing on tabulators 10000, 10001, 10002, <u>10003</u>, 10004 on November 8th around 5pm-6pm. Demo Cert. at ¶11.

- 151. This testing did not comply with *N.J.S.A.* 19:53-8(a) because it was not public and was not advertised to the public.
- 152. Moreover, upon information and belief, the County did not perform the required testing after the counting and before certification of the election results.
- 153. The County has refused to provide the system logs for Tabulator 10003.Demo Cert. at ¶12.
- 154. Mercer County's 2022 ballot tabulator system logs and ballot images show that the County scanned 60,727 Election Day ballots using 243 unique ballot styles (264 through 506) on Image Cast Central tabulators 10000, 10001, 10002, 10003, and 10004. Ballots scanned on each tabulator were 11,022, 13,189, 14,487, 12,505 and 9,524 respectively. Demo Cert. at ¶13.
- 155. However, the Official Tabulator Summary report prepared by the County, which purports to detail Election Day ballots scanned by tabulator ID, represents that Election Day ballots were counted on tabulators 1009, 1018, 1019, 1020 and 1021. The Tabulator summary represents that Ballots scanned on each tabulator were 27,316, 14,993, 9,044, 9,374 and 0 respectively. *See* Exhibit O (Mercer County Tabulator Status 2022 General

Election Official Report dated December 5, 2022) and Exhibit Q, Demo Cert. at ¶15.

- 156. Moreover, while the total number of Election Day ballots reported on the Mercer County Tabulator Status 2022 General Election Official Report (60,727) equals the total number of Election Day ballots scanned from ballot image and system log records (60,727), the number of ballots reportedly scanned on the reported tabulators does not correspond to any of tabulators actually used. Exhibit Q, Demo Cert. at ¶16.
- 157. The County publicly reported that Election Day ballots were scanned through a completely different set of tabulators than the ballots actually were scanned.
- 158. Upon information and belief, this misrepresentation was deliberate to obscure the fact that the 2022 Election Day ballots were counted on tabulators that had not been tested in accordance with *N.J.S.A.* 53:A-8(a).
- 159. Consequently, upon information and belief, every Election-Day ballot from the November 2022 election was tabulated on a machine that had not been tested to tabulate those ballots.
- 160. Moreover, while the County reported to the public that it counted 60,727 Election Day ballots, as of December 2, 2022, the County only reported 55,878 Election Day ballots to the NJ State Voter History File.

There is a 4,849-vote discrepancy between the number of votes the County reported to the public and the number of Election Day votes the County reported to the State and has not been resolved. Exhibit Q, Demo Cert. at ¶17.

- 161. Roughly, 9,700 early votes are recorded correctly in the State Voter History File. The discrepancy is only related to Election Day ballots.
- 162. The County Clerk and BOE certified the election results without resolving this discrepancy.

Issues with counting provisional ballots

- 163. The Mercer County electronic poll book logs indicate that 1,420 individuals checked in to vote during the first hour that the polls were open (6:00am to 7:00am). Exhibit Q, Demo Cert. at ¶18.
- 164. 1,091 of these 1,420 individuals were checked into the electronic poll books in the first hour without issue, meaning these individuals were unquestionably qualified to vote with a regular ballot. Exhibit Q, Demo Cert. at ¶19.
- 165. However, 518 of the 1,091 individuals who successfully checked in to vote during the first hour of voting had their Provisional ballot rejected because they had "voted by machine." *See* Exhibit P (provisional reject report) and Exhibit Q, Demo Cert. at ¶20.

- 166. In total, 759 individuals throughout the County had their Provisional ballot rejected because they had "voted by machine" despite the fact that the voting machines were not working and these voters could not have voted by machine. Exhibit P, Provisional Reject Report.
- 167. These 759 votes were wrongfully sent for adjudication by the BOE and then wrongfully rejected. These voters were disenfranchised because of the Defendants' actions.
- 168. In addition, 2,416 people were told they had to vote provisionally because they had requested a vote-by-mail ballot. However, according to data provided by Mercer County in response to an OPRA request, at least 83 of those people were not even sent a mail-in ballot. Exhibit Q, Demo Cert. at ¶21.
- 169. An additional 639 voters were told they must vote provisionally because they had already voted by mail. However, data provided by Mercer County shows that 533 of those voters had not voted by mail. Exhibit Q, Demo Cert. at ¶22.
- 170. 19 voters from the group of 106 who had voted by mail and who also voted provisionally do not appear on the provisional reject list. Exhibit Q, Demo Cert. at ¶22.
- 171. These voters may have had their votes counted twice.

- 172. Upon information and belief, errors in the electronic poll book caused voters who had not requested or been sent vote-by-mail ballots to be incorrectly marked as having requested a vote-by-mail ballot. These voters should not have had to vote provisionally, and their ballots should not have been subject to adjudication.
- 173. Upon information and belief, errors in the electronic poll book caused at least 533 voters who had not voted by mail to have been improperly recorded as having voted by mail. These voters should not have had to vote provisionally, and their ballots should not have been subject to adjudication.
- 174. In addition, comparison of the November 29, 2022 Provisional Reject Report to the November 29, 2022 all provisional report and the 2022 Election Certification shows that 378 provisional votes were recorded by the county as received, but not reported to the state as accepted or rejected. *See* Exhibit P (Provisional Reject Report) and Exhibit Q, Demo Cert. at ¶24.
- 175. Specifically, the County certified that 3,862 provisional votes were counted and reported that 1,288 provisional votes were rejected. These numbers equal 5,150 total provisional ballots received. However, the County provided an "all provisional" report pursuant to an OPRA request that shows

5,528 provisional votes received. *Id.* These 378 provisional ballots are not accounted for as received.

- 176. The County Board of Elections and its members are responsible for adjudicating provisional ballots and the County Clerk is responsible for certifying the results and reporting them to the State. Neither corrected nor resolved these discrepancies.
- 177. Provisional ballots were supposed to be inventoried publicly by the District Board, but upon information and belief, this did not happen at many, most, or potentially all, polling locations in Mercer County in November 2022. *See* Exhibit A at pg. 35 (explaining process for inventorying provisional ballots).
- 178. Upon information and belief, the provisional ballots were not inventoried by the District Board's in the 2023 General Election either.
- 179. Upon information and belief, Mercer County has adopted a policy for inventorying (or not inventorying) provisional ballots that is contrary to Title 19.

Issues with counting the Mail-in Ballots

180. According to the system logs from the tabulators and the ballot image data, the County scanned 25,512 Mail-In ballots using 243 unique ballot

styles (1 through 243) on tabulators 1000, 1001, 1002, 1003 and 1012. Exhibit Q, Demo Cert. at ¶25.

- 181. The County certified to the public that 2,528 fewer Mail-In ballots were received (25,512) versus what they reported as received and accepted to the December 2nd, 2022 NJ State Voter History file (28,040). Exhibit R (Election Certification) and Exhibit Q, Demo Cert. at ¶26.
- 182. The County clerk and the individual Board of Election commissioners are responsible for receiving, counting and certifying Mail-In ballots and the County Clerk is responsible for reporting results to the State. Neither the Board of Elections nor the County Clerk resolved this discrepancy involving thousands of votes.
- 183. Moreover, the NJ State Board of Elections reported to the Federal Election Administration Commission that Mercer County received and accepted 27,890 Mail-In ballots, which does not match the certified total of mail in ballots or the mail-in ballots reported as received to the state. Exhibit R (Election Certification) and Exhibit Q, Demo Cert. at ¶27.
- 184. There is a more than a 2,000 vote discrepancy between the number of Mail-In ballots Mercer County scanned versus the number reported to the state voter history as received and accepted. The NJ State Board of

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 44 of 69 Trans ID: LCV2024407856

Elections reported a third, entirely different number, to the federal government.

- 185. Upon information and belief, Mercer County counted 51% of the Mail-In ballots prior to Election Day and then waited another 8 days to resume counting mail in ballots. Thus, the counting of Mail-in ballots was not continuous and it is not clear that it was public.
- 186. Unfortunately, efforts to better understand what happened with the counting of the votes through the submission of requests for information under the Open Public Records Act have not shed light on the cause of these discrepancies.
- 187. On the contrary, Mercer County denies having records that should not only exist, but should be readily accessible to the public, such as tally sheets, chain of custody logs, and a list of all District Board members and where they were stationed on Election Day.
- 188. The true results of the November 8th, 2022, General Election cannot be known because:
 - a. Mercer County certified and counted 60,727 Election Day ballots
 but only reported 55,858 to the state voter history file as of
 December 2, 2022. This is a discrepancy of 4,869 votes;

44

- b. The County apparently falsified the Official Tabulator Summary Report to obscure which tabulators were used to count Election Day ballots;
- c. Mercer County rejected 1,288 Provisional ballots, many or most of which should have been cast and accepted as regular or emergency ballots instead of provisional ballots;
- d. Mercer County apparently failed to count 2,528 Mail-In ballots because it reported to the State of New Jersey that it received and accepted 28,040 Mail-in ballots, but the County certified that it received only 25,512 Mail-in ballots;
- e. Chain of custody was not kept on many, most, or all ballots;
- f. Qualified voters, whose eligibility was not in question, were required to vote provisionally and the Board of Elections improperly rejected their ballots.

THE 2023 ELECTION WAS PLAGUED BY MANY OF THE SAME PROBLEMS AS THE 2022 ELECTION

- 189. The 2023 general election was plagued by many of the same problems as the 2022 election.
- 190. Technical issues were present in many districts and affected all types of machines including electronic poll books, tabulators, and ballot marking machines.

- 191. Just as in 2022, Mercer County District Board workers did not know how to conduct an election when the machines did not work.
- 192. David S. Lee was a challenger at a polling place in Pennington Borough, called Project Freedom, for the general election on November 7, 2023.
- 193. Mr. Lee observed one district with only 3 poll workers. Exhibit S at ¶5,Declaration of David S. Lee.
- 194. The polls opened at 6am and there was an immediate issue with the electronic poll books, which were not connected to the internet. *Id.* at ¶6.
- 195. The first voter Mr. Lee observed was able to cast a vote without issue, however the next voters were unable to scan their ballots into the tabulator. Exhibit *Id.* at ¶¶7-8.
- 196. Just as in 2022, the district board workers told the voters that they had to vote by provisional ballot because the machine was not working. *See id.* at ¶¶8-9.
- 197. Issues with the voting process caused delays prompting several wouldbe voters to leave, some after checking in, but without voting. These voters left the smartcards that enabled them to vote on an unmanned table. *Id.* at *Id.* at ¶11.

- 198. Mr. Lee observed a district board worker telling voters to come back another time. *Id.* at ¶12.
- 199. Mr. Lee observed voters leaving the polling place with their ballots. *Id.* at ¶13.
- 200. Mr. Lee observed that around 8am one of the ballot marking machines became inoperable. *Id.* at ¶15.
- 201. Mr. Lee observed two unidentified women enter the polling place, act with authority, and instruct the district board workers to shut down the inoperable ballot marking device and to pull the memory card out of the broken tabulator and to put it in a plastic bag the women provided. The district board workers were not able to do these tasks because they could not figure out how. A master poll worker was not present at this time, but when the master poll worker returned, she also did not know who the women were. *Id.* at ¶21.
- 202. Mr. Lee observed that around 1pm, the district board member who had been updating the public vote counter was told to go to another district. Mr. Lee observed that from that point forward, the public counter was not updated properly because the remaining district board workers did not know how. *Id.* at ¶22.

- 203. Mr. Lee observed that the provisional vote tally was also not kept. Id. at ¶22.
- 204. From 1pm to 5pm, Mr. Lee observed that one of the tabulators was working only intermittently. Mr. Lee observed many voters being forced to "re-do" voting because the first attempt at using the tabulator failed. Mr. Lee observed voters having to complete their ballots 3 times because the tabulator was not working. *Id.* at ¶25.
- 205. Significant delays in voting resulted from these issues.
- 206. Mr. Lee observed that at 5pm, one of the electronic poll books became inoperable. *Id.* at ¶26.
- 207. Mr. Lee observed that at 5pm all four District 10 ballot marking machines were inoperable. *Id.* at ¶27.
- 208. Mr. Lee observed a voter who had attempted to vote in the morning return at night to vote only to be told that she was marked as having already voted in the electronic poll book. Mr. Lee observed that this voter was required to vote provisionally. *Id.* at ¶31.
- 209. Mr. Lee observed that in District 10 every machine except for one electronic poll book became inoperable at some point during the day. *Id.* at ¶32.

- 210. Mr. Lee observed that the district board worker in District 10 did not know how to close the polls and had to wait for a master poll worker to arrive more than one hour after the polls had officially closed. *Id.* at ¶24.
- 211. The master poll worker questioned Mr. Lee about why he was still there. He replied that he was waiting for the bags to be sealed. *Id.* at ¶36.
- 212. Mr. Lee observed that two provisional bags were in use for District 10 through the day and that they were not sealed until 10pm. *Id.* at ¶39.
- 213. Beth Scheurerlein was also a challenger in the November 2023 general election. She observed five different polling locations throughout the day, all of which experienced significant problems.
- 214. When Ms. Scheuerlein arrived at the Pennington Town Hall polling location, she observed that one of two ballot marking devices for one district was not working, and one of the two smartcard encoders for another district was not working. Exhibit T, Declaration of Beth Scheurerlein at ¶¶6, 8.
- 215. Ms. Scheuerlein also observed poll workers having to unplug and plug back in devices to get them to work at this location. *Id.* at ¶8.
- 216. At the Union Fire House, Ms. Scheuerlein arrived around 6:30 pm and found that the only working tabulator had stopped working due to a paper jam. *Id.* at ¶17. Ms. Scheuerlein witnessed two men from the warehouse

(presumably the Superintendent of Elections' office) come to fix the tabulator but being unable to do so. She then witnessed a Dominion employee come to the location and try to fix the tabulator, but also being unable to do so. *Id.* at \P 20-21.

- 217. Ms. Scheuerlein witnessed voters leaving because of the long wait time, exceeding one and a half hours. *Id.* at ¶¶22-23.
- 218. Ms. Scheuerlein witnessed that at 7:40pm the master poll worker told people who had already completed paper ballots and were waiting due to the tabulator being inoperable being told that they could spoil their ballots and vote provisionally, which a few voters did. *Id.* at ¶23.
- 219. 10 minutes before the polls closed, the district board workers opened the emergency slot in the tabulator to collect the completed paper ballots.*Id.* at ¶¶24.
- 220. Mr. Scheuerlein observed various issues with the electronic poll books in multiple locations, including:
 - a. At the Pennington Town Hall, at 10am a reminder to do the public vote tally popped up on the electronic poll book, which disrupted the check in process for two voters who were in the process of signing in. This caused their status to change to ineligible. Ms. Scheuerlein observed that the district board worker tried to encode

the smartcards again, but the electronic poll book now said those voters had already voted. Ms. Scheuerlin observed that one voter was then required to vote provisionally with a new smartcard. Ms. Scheuerlin observed that the district board worker who was checking in with the other voter was not able to load a new smartcard because her screen was black. Ms. Scheuerlin observed that this voter was told <u>he could not vote at all</u> and was turned away from the polls. *Id.* at ¶9.

- b. Also at the Pennington Town Hall, at 12pm, Ms. Scheuerlin witnessed the same thing happen with another voter; the pop-up message caused the check-in to be interrupted. Ms. Scheuerline witnessed that the district board worker spoiled the ballot and accidentally pressed the button that said, "don't reissue." The voter was then told to vote provisionally. *Id.* at ¶10.
- c. Also at the Pennington Town Hall, Ms. Scheuerlin witnessed a smart code encoder stop working and begin working again only when the district board worker rebooted the electronic poll book.
- d. At the Pennington Senior Center, Ms. Scheuerlin witnessed district board workers with 2% charges on their electronic poll books because the chargers were not working properly. Ms. Scheuerlin

witnessed district board workers removing the encoder and plugging in their personal cell phone chargers to charge the electronic poll book while checking in voters, and then replacing the phone charger with the encoder to load the smart card and finish checking the voter in, and then switching back to the phone charger when the check-in process was complete. This was necessary to prevent the electronic poll books from running out of charge while checking voters in. *Id.* at ¶15.

- e. Ms. Scheuerlin saw two voters who lived at the same address (a father and son) registered in and required to vote in different districts. *Id.* at ¶13.
- 221. Ms. Scheuerlin witnessed polling locations running out of resources, including the Union Fire House location running out of smart cards and one of the districts at the Union Fire House running out of paper for the authority to vote slip printer. *Id.* at ¶18-19.
- 222. Ms. Scheuerline witnessed district board workers at the Pennington Town Hall confused about how to record provisional ballots, unable to find the form for tracking provisional ballots, and admitting that they had forgotten to keep count of provisional ballots. *Id.* at ¶7.

CAUSES OF ACTION

COUNT ONE

Civil Rights Act-*N.J.S.A.* 10:6-2 (against all Defendants)

- 223. "The right to vote is only meaningful...if all qualified voters have the full opportunity to participate in fair and lawful elections. Our voters are, dependent, therefore upon those person charged with election responsibilities." Exhibit A, NJ District Board Worker Training Manual.
- 224. The right to vote is a fundamental right recognized by both the New Jersey and United States Constitutions.
- 225. The New Jersey Constitution provides: "Every citizen of the United States, of the age of 18 years, who shall have been a resident of this State and of the county in which he claims his vote 30 days, next before the election, shall be entitled to vote for all officers that now are or hereafter may be elective by the people, and upon all questions which may be submitted to a vote of the people." N.J. Const. art. II, § 1, ¶ 3
- 226. The right to equal protection is recognized by the both the New Jersey and United States Constitutions.
- 227. The New Jersey Constitution states: "Government is instituted for the protection, security, and benefit of the people, and they have the right at all times to alter or reform the same." N.J. Const. art. I, ¶ 2.
- 228. Defendants' have a constitutional duty is to administer elections in a

fair and transparent manner in accordance with the statutes developed by the NJ legislature and required by the Constitutions of the United States and New Jersey so that the votes of qualified voters are not diluted through misconduct and fraud and the right of the people to alter or reform the government is not thwarted or subject to interference by government actors or those acting under the color of law.

- 229. The failure to administer the elections in such a way that maintains chain of custody of ballots and ascertains the will of the people violates these rights.
- 230. Defendants' have a duty to maintain poll books in such a manner that errors are not common so that the constitutional right to vote is not interfered with arbitrarily.
- 231. Plaintiffs have a constitutional right to vote without the interference of being forced to vote provisionally and having their votes subject to the process of adjudication despite being unquestionably qualified to vote.
- 232. Defendants failed to administer the 2022 and 2023 general elections in accordance with Title 19 and the NJ and United States Constitutions, which deprived Plaintiffs of constitutional and statutory rights and interfered with Plaintiffs' constitutional and statutory rights.
- 233. Specifically, Defendants:

- a. failed to provide functioning equipment on Election Day;
- b. failed to train District Board Members on what to do in the event of an Election Day machine failure;
- c. failed to have a plan in place to deal with tabulator failure;
- d. failed to maintain chain-of-custody of ballots throughout the county;
- e. failed to count the votes continuously in public;
- f. failed to update the public counters;
- g. required voters to vote by provisional ballot even though there was no question concerning the fact that they were qualified voters;
- h. failed to train District Board Workers about the proper use of provisional ballots so that they could properly assist voters;
- i. improperly rejected provisional ballots for reasons the Commissioners knew could not be correct;
- j. tabulated votes on machines that had not been tested for accuracy;
- k. Certified vote numbers that could not possibly be correct (e.g., certifying election results with fewer accepted mail-in ballots than were reported to the State voter history file);
- 1. Failed to preserve the chain of custody of the voting authority papers by stringing them on a wire or string pursuant to *N.J.S.A.* 19:52-2.1;
- m. Failed to train District Board Workers on the proper sealing of the

machines;

- n. Failed to have the ballots tabulated by the District Boards;
- Failed to train District Board workers about procedures for counting paper ballots;
- p. Failed to adequately staff District Board in accordance with Title 19;
- q. Did not allow adequate public observation of the counting;
- r. Left ballots in tabulating machines that were not secured and were in unsecured locations for at least six days following the election;
- s. Failed to provide District Boards with necessary supplies to secure ballots;
- t. Improperly removed duties that are statutorily assigned to municipal clerks to be conducted at the County level instead;
- u. Failed to provide properly functioning electronic poll books to the District Boards;
- v. Maintained an electronic poll book riddled with errors that led to voter disenfranchisement;
- w. Failed to train District Board members on the need to elect a judge and inspector and the roles that judges and inspectors play in election administration pursuant to *N.J.S.A.* 19:6-10;

- x. Upon information and belief, had people handling the ballots who had not been properly deputized.
- 234. Plaintiff Bethany Murranko was told she already voted when she had not.
- 235. Plaintiff Bethany Murranko was required to vote provisionally because of an electronic poll book or District Board member error.
- 236. Plaintiff Bethany Murranko's vote was rejected due to "missing ballot" even though she placed her ballot in the provisional envelope.
- 237. Plaintiff Bethany Murranko was disenfranchised and her fundamental right to vote in the 2022 General Election was violated due to Defendants' actions and inactions.
- 238. Plaintiff Bethany Murranko's right to equal protection under the 14th Amendment was violated because she was arbitrarily classified as having already voted and treated differently than similarly situated voters while exercising this fundamental right.
- 239. Plaintiff Mark Murranko, a qualified voter, was told he already voted when he had not.
- 240. Plaintiff Mark Murranko was required to vote provisionally because of an electronic poll book or District Board member error.
- 241. Plaintiff Mark Murranko's ballot was subject to a different procedure

and adjudication because of Defendants' actions and inactions.

- 242. Plaintiff Mark Murranko's right to equal protection under the 14th Amendment was violated because he was arbitrarily classified as having already voted and treated differently than similarly situated voters while exercising a fundamental right.
- 243. Plaintiff Michael McKitish was not allowed to cast a regular paper ballot even though he was indisputably a qualified voter.
- 244. Plaintiff Michael McKitish's vote was improperly rejected for "voted by machine" even though he could not have possibly voted by machine.
- 245. Plaintiff Michael McKitish was disenfranchised and his fundamental right to vote in the 2022 General Election was violated due to Defendants' actions and inactions.
- 246. Plaintiff Jeremey Whaley was not allowed to cast a regular paper ballot even though he was indisputably a qualified voter.
- 247. Plaintiff Jeremey Whaley's vote was improperly rejected for "voted by machine" even though he could not have possibly voted by machine.
- 248. Plaintiff Jeremey Whaley was disenfranchised and his fundamental right to vote in the 2022 General Election was violated due to Defendants' actions and inactions.
- 249. Plaintiff David Matticoli was not allowed to cast a regular paper ballot

even though he was indisputably a qualified voter.

- 250. Plaintiff David Matticoli's vote was improperly rejected for "voted by machine" even though he could not have possibly voted by machine.
- 251. Plaintiff David Matticoli was disenfranchised and his fundamental right to vote in the 2022 General Election was violated due to Defendants' actions and inactions.
- 252. Plaintiffs Michael McKitish, Jeremy Whaley, David Matticoli, and the other 749 voters who are improperly recorded in the poll book as having voted by machine and then trying to vote again by provisional ballot are officially recorded as having attempted to vote two times, even though they did not. This creates an implication of attempted criminal activity, which is damaging to them.
- 253. Plaintiff John Muka was a challenger for the 2022 election.
- 254. Plaintiff John Muka as a challenger, member of the public, and voter and resident of Mercer County had the statutory and constitutional right to observe the election tallying.
- 255. Plaintiff John Muka's statutory and constitutional rights were violated because Mercer County failed to conduct continuous and public counting of the votes and made it difficult for observers to observe the handling of the ballots and tallying of the votes.

- 256. Plaintiff Lisa Werdel was made to vote by provisional ballot because she was incorrectly marked as having already voted by mail.
- 257. Voters in the 2022 and 2023 elections were required to vote by provisional ballot when a voting machine is not working because Defendants have arbitrarily adopted an official or unofficial policy of requiring voters to vote by provisional ballot when a machine is not functional.
- 258. This policy, which has endured through at least two elections, violates the Constitutional and statutory rights of qualified voters to vote by regular ballot without interference.
- 259. This policy is arbitrary, capricious, and contrary to the law.
- 260. Plaintiff Patricia Johnson was a challenger for the 2022 election.
- 261. Plaintiff Patricia Johnson as a challenger, member of the public, and voter and resident of Mercer County had the statutory and constitutional right to observe the election tallying.
- 262. Plaintiff Patricia Johnson's statutory and constitutional rights were violated because Mercer County failed to conduct continuous and public counting of the votes, interfered with the ability of observers to observe the handling of the ballots and tallying of the votes.
- 263. It has been long recognized that "[t]he moment an individual's vote

becomes subject to an error in the vote tabulation process, the easier it is for one's vote to be diluted" and that "voters' exercise of the Franchise must not be diluted by another's fraudulent or illegal vote." *In re General Election of 1991 for the Office of Township Committee for the Twp. Of Maywood*, 255 *N.J. Super*. 690, 696 (Law Div. 1992).

- 264. All Plaintiffs had their votes improperly diluted because Mercer County has failed to properly administer the elections for at least two years making the actual election outcomes and will of the voters impossible to know and the entire election process susceptible to the fraud Title 19 is designed to prevent.
- 265. All Plaintiffs were deprived of their rights under N.J. Const. art. I, $\P 2$ because the failure to administer the elections in a manner that ascertained and expressed the will of the people violates the right of the people to alter and/or reform the government.
- 266. All Plaintiffs have sustained damages due to Defendants' actions and inactions, which deprived them of the right to vote, interfered with their exercise of the right to vote, and deprived them of the right to fair elections.

COUNT TWO

1983 of the Civil Rights Act (against all Defendants)

267. Plaintiffs repeat and reallege each of the preceding allegations as if set

forth fully herein.

- 268. Defendants' actions and inactions and failure to administer elections held within Mercer County in accordance with the laws of the State deprived Plaintiffs of their Constitutional rights and unconstitutionally diluted their votes because qualified voters were prevented from voting and the failure to maintain chain of custody on most, perhaps all, Election Day ballots is malconduct that prevented and/or thwarted the ability of the people to alter or reform the government through the election process.
- 269. Plaintiffs who were required to vote provisionally due to the County's failure to maintain an accurate electronic poll book were subject to unequal treatment in the exercise of a Constitutional right in violation of the right to equal protection under the law.
- 270. Plaintiffs whose votes were not counted despite being qualified voters were disenfranchised in violation of their rights under the NJ and United States Constitutions.

COUNT THREE

DECLARATORY JUDGMENT (against all Defendants)

- 271. Plaintiffs repeat and reallege each of the preceding allegations as if set forth fully herein.
- 272. Mercer County has, through Open Public Records Act requests, set

forth its position that certain portions of Title 19 no longer apply.

- 273. Title 19 applies so long as it does not conflict with Chapter 53.
- 274. Provisional ballots should not be used for voters whose qualification is not in question.
- 275. Tabulation of votes is to take place at the District Board level unless the County designates a counting center and the tabulators at said counting center have undergone the statutorily required testing.
- 276. Ballots are to be returned to and preserved by the municipal clerks.
- 277. As detailed herein, Mercer County has adopted numerous policies and/or practices contrary to Title 19.
- 278. Plaintiffs are damaged by these policies.
- 279. Plaintiffs' request declaratory judgment on each and every violation of Title 19 described herein.

PRAYER FOR RELIEF

Wherefore, Plaintiff requests the following relief:

- a. Declare that Defendants violated the Constitutional and statutory rights of Plaintiffs Bethany Murranko, Michael McKitish, Joanne McKitish, Jeremy Whaley, and David Matticoli by improperly rejecting their votes in the 2022 election;
- b. Declare the Defendants violated the statutory rights of Plaintiffs

John Muka and Patricia Johnson by thwarting their ability to observe vote tabulation in the 2022 general election;

- c. Declare that Defendants violated the Constitutional and statutory rights of Plaintiffs Bethany Murranko, Mark Murranko, Michael McKitish, Joanne McKitish, Jeremy Whaley, Lisa Werdel, and David Matticoli by requiring them to vote provisionally due to machine failure;
- d. Declare that Defendants violated the Constitutional and statutory rights of all Plaintiffs by failing to maintain chain of custody on ballots throughout Mercer County for the general election held in November 2022;
- e. Declare that Defendants' formal and/or informal policy of requiring qualified voters to vote provisionally in the event of tabulator failure violates Title 19 and Plaintiffs' Constitutional rights;
- f. Declare that Defendants' formal and/or informal policy of removing the responsibility of vote tabulation from the District Boards to the County without designating a counting center violates Title 19;
- g. Declare that Defendants' failure to provide functioning poll books and failure to accurately maintain the poll books violates Title 19 and Plaintiffs' Constitutional rights;

- h. Declare that Defendants' failure to ensure that tabulators will properly tabulate votes violates Title 19 and Plaintiffs' Constitutional rights;
- Declare that Defendants' failure to provide functional equipment in the 2022 and 2023 general elections, including tabulators and electronic poll books violates Title 19 and Plaintiffs' Constitutional rights;
- j. Declare that Defendants' failure to have an emergency plan in the event of machine failure violates Title 19 and Plaintiffs' Constitutional rights;
- k. Declare that Defendants' failure to update the public counters on Election Day and adequately train District Board workers as to this Title 19 obligation violates Title 19;
- Declare that Defendants' failure to train District Board workers on how to maintain chain of custody of ballots and Defendants' violates Title 19 and the New Jersey and United States Constitutions;
- m. Declare that Defendants' failure to train District Board workers on how to administer elections and use the machines provided by the County violates Title 19 and the New Jersey and United States' Constitutions;

- n. Declare that Defendants' failure to string voting authority slips and train District Board members to do so in accordance with Title 19 violates Title 19;
- Declare that Defendants' failure to adequately staff polling places with sufficient District Board members violates Title 19 and the New Jersey and United States Constitutions;
- p. Order that Defendants undergo training concerning Title 19 and how to properly administer an election pursuant to New Jersey laws;
- q. Order that Defendants train District Board workers on how to count paper ballots in accordance with Title 19;
- r. Order that Defendants train District Board workers to properly perform all of their other duties under Title 19;
- s. Order that Defendants reconcile the ballots from the 2022 by ballot type;
- t. Order the Defendants correct the improper designation of "voted by machine" for voters who did not, and could not have, voted by machine in the 2022 general election;
- u. Order that Defendants shall publish a public reconciliation of all ballots types for the 2023, 2024, and 2025 primary and general elections;

- v. Order that Defendants identify the cause of errors in the electronic polling books and adopt measures to prevent such errors in the future;
- w. Order that Defendants identify all machines and electronic polling books that failed to work properly in the 2022 and 2023 elections, identify the cause of errors and failures of any and all tabulators, electronic poll books, and ballot marking devices, and take all steps necessary to prevent such errors in the future;
- x. Order that Defendants develop a plan in the event of machine failure and train all District Board workers accordingly;
- y. Award Plaintiffs' compensatory damages of \$50 for each day the County has conducted business without counting their vote;
- z. Award Plaintiffs' consequential damages;
- aa. Award Plaintiffs' pre-judgment and post-judgment interest;
- bb.Award Plaintiffs' attorneys fees pursuant to the New Jersey Civil Rights Act and/or section 1988 of the U.S. Civil Rights Act;
- cc. Appointment an independent monitor to observe the 2024 primary and general elections to ensure compliance with Title 19 and the Constitutions of the United States and New Jersey;

dd.Grant any and all other such relief as this Court deems just and

equitable.

Respectfully submitted,

I. Introduction

Voting is one of the most important rights we have as Americans. It is through elections that our elected leaders are chosen. These elected officials make decisions that affect our everyday lives. The right to vote is only meaningful, however, if all qualified voters have the full opportunity to participate in fair and lawful elections. Our voters are dependent, therefore, upon those persons charged with election responsibilities. There is no question that district board members are on the front-line in promoting democracy on election day.

The purpose of this manual is to assist all district board members in the State of New Jersey with the knowledge and information they must have in order to do their job properly and confidently. While many voters vote by mail-in ballot, for most citizens, their only contact in exercising the right to franchise is with their district board members.

Accordingly, correct and consistent Statewide application and implementation of election laws at the polling place are fundamental to protecting our freedom. Thank you for becoming a board worker! We appreciate that the hours are long and the work can be challenging, but the services you provide on an election day are invaluable.

I. Introduction

II. Preparing for the Election

District Board Members

Each district board of election is to be comprised of two Republican and two Democratic district board members appointed by the County Board of Election. In certain election districts, additional district board members, who are bilingual in English and Spanish, are assigned to the district board.

Training Requirements

Within 30 days before an election, all new members of a district board must attend training administered by the County Board of Election. All district board members must attend training sessions for each election at least once every two years. However, when new laws are introduced, mandatory training may be required of district board members at the discretion of the County Board of Election.

Salary

General and Primary Elections

For any general election, primary election, or special election, the compensation is \$200.00 for each district board member. In addition, the district board member who is responsible for obtaining and signing for the poll books shall receive an additional \$12.50 per election. If that responsibility is shared between two board members, each member shall receive \$6.25 per election. The district board member who is responsible for returning the poll books at the closing of the polls receives an additional \$12.50 per election. If that responsibility is shared between two board members, each member shall receive \$6.25 per election. The district board member who is responsible for returning the poll books at the closing of the polls receives an additional \$12.50 per election. If that responsibility is shared between two board members, each member shall receive \$6.25 per election. Any district board member working a general, primary or special election who fails to attend a required training session in the year in which such training is required, shall be compensated only \$50.00 for that election.

II. Preparing for the lection

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 7 of 42 Trans ID: LCV2024407856

School Elections

For any school election, district board members are paid on an hourly basis, in an amount to be determined by the local school board. For a school election, the district board member who is responsible for obtaining and signing for the poll books shall receive an additional \$12.50 per election. If that responsibility is shared between two board members, each member shall receive \$6.25 per election. The district board member who is responsible for returning the poll books at the closing of the polls shall receive an additional \$12.50 per election. If that responsibility is shared between two board members, each member shall receive \$6.25 per election. The district board member who is responsible for returning the poll books at the closing of the polls shall receive an additional \$12.50 per election. If that responsibility is shared between two board members, each member shall receive \$6.25 per election. *Any district board member working a school election who fails to attend a required training session in the year in which such training is required, shall be compensated at an hourly rate of \$3.85 for that election.*

For any general, primary, special or school election, district board members will receive payment for their services within 30 days after each election.

Board Worker Etiquette

Every voter should leave the polling place feeling positive about his or her experience in, and contribution to, the democratic process. This is also an important lesson for any children, (our "future voters"), who accompany their parents to the polls. The success of this effort depends largely upon the attitude and conduct of the board members. District board members are expected to conduct themselves in a professional and courteous manner to each and every voter throughout the course of the election. To facilitate the voting, it is also important that all voters' questions be fully answered. Board members should be particularly sensitive to voters who may not speak English or have limited English skills or who have disabilities.

District board members must also extend these same courtesies to their fellow board members. Any disagreements should be resolved in a calm manner. If board members cannot resolve an issue among themselves, they should call the County Board office. Under no circumstances should any disagreement escalate into a loud and heated argument.

II. Preparing

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 8 of 42 Trans ID: LCV2024407856

While we all know election day is long, maintaining one's patience will go a long way toward ensuring a smooth election. A sense of humor also helps. *Remember:* Be polite, patient and helpful to the voters and your fellow board members.

Certificate of Appointment

District board members must have their Certificates of Appointment with them at all times while performing their duties. Emergency Certificates of Appointment may be used if a substitute district board member is appointed to fill a vacancy. If a vacancy occurs, district board members must immediately contact the County Board of Election, which will provide instructions on how to proceed.

Each district board member must take and sign the Oath of Office before undertaking any election duties. The Certificate must be completed and returned with the election supplies at the conclusion of the election.

Polling Place Set-Up

Board Worker Arrival Time

District board members must arrive at their assigned polling place *no later than 45 minutes before the polls officially open*. Except for those school elections that have a later start time, district board members must arrive by 5:15 a.m. to have the voting machine ready for voting *promptly at 6:00 a.m.* The County Board of Election will advise the district board members of the hours for school elections, which are set by the local school board. District board members must arrive at their assigned polling place no later than 45 minutes before the polls officially open for school elections.

A district board member who is unable to report to his or her assignment must notify the County Board of Election as soon as possible, so that a substitute can be found. The district board must immediately notify the County Board of Election if any board member, including any bilingual district board member, fails to report for duty. *However, the district board may not delay the opening of the polls because of the absence of any member.*

Selecting A Judge and Inspector

The district board members must elect a judge, who shall be responsible for the completion of all paper work, and an inspector. The judge and inspector must be from different political parties. If the district board fails to elect either officer on three ballots, the senior member in length of service on the district board becomes the judge and the next most senior member of the opposite political party becomes the inspector. The remaining members are designated as clerks. While the judge may be responsible for ensuring the completion of all paperwork, all district board members have equal authority while performing their duties on election day. Further, all district board members must remain at their assigned polling place until all election related responsibilities are completed.

Materials and Supplies Checklist

Election day materials are primarily assembled in the offices of the County Board of Election, and are packed into bags or other containers for delivery. Counties use various ways to provide the materials to the district boards. The district board members should check the lists of materials and supplies to ensure that the district board has been provided with the following materials that it will need. These materials include:

- Poll Books: typically the poll book for the election district is broken down into at least two volumes alphabetically;
- Voting Authority Books;
- Voting Machine Keys;
- Provisional Ballot Bag with provisional ballots and envelopes;
- Three Sample Ballots: These must be posted so that voters will be able to read both the front and back of the sample ballot. The information on the sample ballots states:
 - election and the list of the candidates and any public questions;
 - the date and time of the election;
 - voting instructions;
- Voter Bill of Rights poster.

II. Preparing for the Election

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 10 of 42 Trans ID: LCV2024407856

- Signs:
 - Handicapped-Accessibility sign, which is to be posted at the handicapped accessible entrance to the polling place;
 - Signs directing voters to the location(s) of voting machines;

"Vote Here" signs which should be posted at the outside entrance to the polling place;

- "No Loitering or Electioneering" sign which is to be posted at the polling place entrance;
- Sign indicating voting district(s) number(s) which is to be posted at the entrance and on the appropriate table for an election district if there are multiple election districts in the polling place;
- "No Smoking" sign which is to be posted at the polling place entrance;
- "A-K" and "L-Z" signs which are to be placed on the table in front of the poll books.
- Number of "Voters Voted" signs.
- Street name and election district list of the municipality which should be placed by the poll books;
- Polling Place List: a print-out of all the polling places in the county listed by municipality and election district;
- Challenger Affidavit Forms;
- Disability Certificates;
- Voter Complaint Forms;
- Incident Log to record any problems that occur on election day;
- ADA Checklist;
- Number of Voters that Voted Sheets;
- Affirmation of Residency Forms;
- Information for Provisional Ballot Voter;
- Badges for board members
 - must be worn at all times;
- Board Worker Manual;

П. Preparing for the Election

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 11 of 42 Trans ID: LCV2024407856

- Information for Challenged Voters
- Voting Machine Instruction Poster and Easel;
- Emergency Ballot Procedures;
- Payroll Sheet for District Board;
- Telephone Numbers for the County Board of Election, County Superintendent of Elections (if there is one in the county), County Clerk, sheriff's department, local municipal clerk and local police department;
- Tape for affixing signs;
- Supplemental Mail-In BallotVoter List:
 - If a voter applies for a mail-in ballot after the poll books are printed, that voter's name will appear on a supplemental list which will be delivered to the polling place by the municipal clerk on election day morning. This supplemental list should be kept near the poll books and used by the board members to update the poll books on election day morning.

NOTE: It is most important that the district board prominently post ALL signs included in its supplies, both English and Spanish, in the polling place. These signs should be immediately visible to and easily read by the voter when he or she enters the polling place.

In addition, the American flag must be displayed at the entrance to the polling place during the hours of the election. Immediately contact the municipal clerk if there is no flag at the polling place.

Identify the Official Clock

The district board members must select an official clock and coordinate all watches with that clock so that there is no confusion about the times that the polls are opened or closed. Use a wall clock in the room as the official clock, if one is available, because it is likely that voters and challengers will use this as a reference. It is important that the district board members coordinate the time on the voting machine zero-printout report with the official clock. In the event that the times on the zero-printout and the official clock are not identical, the judge must determine the official time.

П. Preparing for the

Placement of Voting Machines

The voting machine(s) should be placed at least three feet from a wall or partition, and at least four feet from any table where the district board members are seated. The machine(s) should be situated so that the ballots on the face of the machine(s) can be plainly seen by the district board members and challengers at all times when not in use by a voter. District board members assigned to work the voting machines must check the face of the voting machine after each voter finishes voting and leaves the machine.

Placement of Board Member and Challenger Tables

District board members' tables must be situated to ensure a full view of the polling place and the voting machines. *Challengers cannot sit with the district board at the poll book tables.* The challenger's table should be located close enough to the district board members' table so that the challenger can hear the voter's name when the district board member reads it aloud.

NOTE: NO INDIVIDUAL, INCLUDING A DISTRICT BOARD MEMBER, IS PERMITTED TO BE IN A POSITION FROM WHICH HE OR SHE MAY OBSERVE HOW A VOTER HAS VOTED.

Preparation of a Privacy Area for Voters Who Vote by Paper Ballot

Set aside an area where voters who are voting by emergency or provisional ballot may vote privately. Prepare the designated area with a table or clip board, pencils, and a privacy screen.

Measure the "No Electioneering" Zone

Board members should measure 100 feet from the outside entrance of the polling place. This marks a protected area within which no electioneering, fund raising activities or other social events are permitted.

II. Preparing for the Election

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 13 of 42 Trans ID: LCV2024407856

Conducting a Voter Accessibility Walk-through

The board members should perform a walk-through of the polling place for barriers to accessibility by utilizing the ADA checklist. This procedure should begin at the parking lot and include access to entrances, parking and pathway signs, internal and external doorways and possible obstructions which might hinder disabled or elderly voters. The district board should select an "accessibility point-person" from among themselves. The appointed district board member is responsible for ensuring that the polling place remains accessible to disabled or elderly voters throughout election day.

Board members should conduct a walk-through periodically at least 2 more times during election day. Any barriers or obstacles which might impede a disabled or elderly voter must be removed or adjusted.

NOTE: Accessibility signs must be posted at the handicapped accessible entrance to the polling place. Signs directing voters to the location(s) of voting machines must be posted in interior passageways. If the district board determines that additional accessibility signs are needed, the judge should telephone the County Board of Election immediately.

Display of Voting Machine Instructions

Instructions for using the voting machine, including instructions for casting a write-in vote, must be placed where they are immediately visible to and can be easily read by a voter *before the voter enters the voting machine*. Separate instructions for use of the audio kit for the visually-impaired voters must also be readily available.

Opening/Closing the Voting Machine

The procedures for opening and closing the voting machines and the audio set-up procedures are provided by the County Board of Election under separate cover.

Opening the Polls

As determined by the official clock, at precisely 6:00 a.m. (or at the time set by a

II. Preparing for the Election

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 14 of 42 Trans ID: LCV2024407856

school district for a school election), the judge of the district board should publicly announce that the polls are officially open.

Breaks During Election Day

A majority of three of the district board members must be present **AT ALL TIMES** when the polls are open. Therefore, only one board member is permitted to be absent from the polling room at a time. A board member is permitted to be absent for a one hour lunch break between the hours of 1:00 p.m. and 5:00 p.m. No board member, however, should be absent from the polling place after 5:00 p.m.

III. Maintaining Order at the Polls Persons Allowed In the Polling Place

The district board must be aware at all times of who is in the polling place. State election law provides that only certain people are authorized to be in the polling place. They are as follows:

- District Board Members
- Voters and their dependent children
- Credentialed Challengers
- Candidates
- Election officials
- Police officers, if assigned
- Federal or state observers

NOTE: Board members should not permit unauthorized persons to remain in the polling place and should ask them to leave.

Posting Number of Voters that Voted

Each polling location must publicly display a notice containing the number of voters who voted in each election district, indicating the number of voters who voted

II.	_	×
Preparing		
for the Election		
ERTY AND THE STORE STORE		

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 15 of 42 Trans ID: LCV2024407856

using a voting machine and the number of voters who have voted using a provisional ballot. The first notice to be posted at 8 a.m. on the day of an election and thereafter updated every two hours until the polls close. Therefore, notices of the total number of voters are to be posted at 8 a.m., 10 a.m., noon, 2 p.m., 4 p.m. and 6 p.m.

The district board workers should obtain the number of voters voting by voting machine every two hours by reading the number of votes cast per machine from the public counter on each voting machine. That number is to be posted on the public notice, noting the count for each machine.

In order to report the number of provisional ballots cast, the district board should maintain a separate tally sheet for marking down the number of provisional ballots cast during the course of the day. Every time a voter submits a provisional ballot to the district board, the district board should first mark the provisional ballot tally sheet to indicate the voted provisional ballot has been received. Then the voted provisional ballot is to be placed in the provisional ballot bag. *UNDER NO CIRCUMSTANCES* shall anyone take a voted provisional ballot out of the provisional ballot bag once that ballot is placed in the bag, until after the close of the polls.

Electioneering

Electioneering is not permitted within 100 feet of the entrance of the polling place. Electioneering is defined as the distribution or display of any circular or printed matter or offering of any suggestion or the solicitation of support for any candidate, party or public question. This includes, but is not limited to, wearing of partisan tee-shirts, buttons, hats and/or the display or distribution of partisan campaign material including pamphlets, newsletters, brochures, bumper stickers, signs or placards. The district members should ask that the electioneering stop and contact the County Board of Election, if there are any problems. As a last resort, the district board could request police assistance.

If partisan political signs are located on private property that is located within the 100 foot "no electioneering" zone, the district board should request the property owner

III. Maintaining Order at he Polls

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 16 of 42 Trans ID: LCV2024407856

to remove the sign or move it to an area outside the 100 foot "no electioneering" zone. If the property owner or tenant refuses, however, the district board should take no further action.

In order to avoid the appearance of partisanship, district board members should not accept food or other gifts offered by candidates or parties during the conduct of the election.

Exit Polling

Exit polling within the 100-foot "no electioneering" zone is permitted only by Edison Research Group which is permitted to do exit polling within this area on behalf of ABC, AP CBS, CNN, Fox News and NBC. Representatives of these Media outlets must have credentials from the County Board of Election. The exit pollster may question voters who are leaving the polling place. *Voter participation in exit polling is strictly voluntary*.

A pollster must stand outside the polling place but can stand anywhere within the 100 foot "no electioneering" zone. The pollster cannot interfere with the orderly conduct of the election or obstruct the path of voters as they enter or exit from the polls.

Approaching voters **before** they enter the polling place, however, is prohibited. These voters should not be subject to any questioning, or the offering of assistance or any materials as they are entering the polling place.

Media Reporters and Photographers

Photographers, TV camera crews and reporters from the media are generally not permitted in the polling room. However, it has been a longstanding tradition in New Jersey to permit the filming or photographing of a candidate voting at the polls. The media must obtain prior permission from the County Board of Election to do this. If a member of the media enters the polling place to take photographs, the district board must refer the individual to the County Board of Election for its determination of the matter. The district board must not allow the photographer, camera crew or reporter to interfere with the conduct of the election, the privacy of voters, or distract the board

III. Maintaining Irder at

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 17 of 42 Trans ID: LCV2024407856

members from performing their duties.

Cell Phones

Generally, the district board should not permit the use of cell phones in the polling place. If a voter or a challenger is using a cell phone in the polling place, the district worker should request that the individual do so in another room. A voter cannot use a cell phone in the voting machine. A board member should use a cell phone, however, to contact the County Board of Election or superintendent of elections for official election business.

Laptop Computers

The use of a laptop computer by a challenger to track voters or to record polling place observations is generally acceptable. If for some reason, it causes a disturbance, the district board should ask the challenger to stop using it.

Miscellaneous Situations That May Arise

Fund-Raising

No social or fund-raising activity of any group or organization should be permitted within 100 feet of the entrance of a polling place, or in the polling room, on election day. This includes, but is not limited to, bake sales, dinners or other food sales, book sales, craft exhibits, art shows or other social or fundraising activities. The district board must ask individuals responsible for such events to leave the protected area.

Emergency

If a fire drill or an emergency occurs, everyone must safely evacuate the building. A board member should take custody of the provisional ballot bag and close the front of the voting machine, *if possible*. Call the County Board of Election after safely evacuating the building. The County Board of Election should have an emergency voting plan, including alternate voting sites and emergency procedures.

III. Maintaining

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 18 of 42 Trans ID: LCV2024407856

Low Paper Ballot Supply

If the district board finds that it is running low on emergency or provisional ballots, the district board must immediately notify the County Board of Election or the County Clerk, so they it can arrange for more ballots to be delivered to the polling place.

Incident Log

The district board should use an incident log to record voting irregularities, mistakes, or unusual events or incidents that occur at the polling place during election day. Some examples are:

- A voter who signs on the signature line of another voter in error;
- A board member who mistakenly permits a voter to vote across party lines in a primary election;
- Disturbances in the polling place. The log should include the time, a description of the incident and how it was handled, and the identity of the person(s) and board member(s) who were involved. The incident log should be returned with the supplies and materials at the close of polls.
- Use of emergency ballots
- "Fleeing Voters"

IV. Processing the Voter Routine Procedures

General Rule for Balloting

Most voters will vote in the voting machine. The district board shall not permit any person whose name and signature does not appear in the poll book to vote on the voting machine **unless** the voter presents a Court Order stating that the voter is to vote in the machine.

Time Allowed to Vote

The law states a voter is permitted no more than two minutes to cast a vote. However,

III. Maintaining Order at re Polls

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 19 of 42 Trans ID: LCV2024407856

more time may be needed if a voter is using the audio kit, or if the voter requires another form of assistance. The district board must be *reasonable* in this situation. Once the vote is cast, the voter must exit from the voting machine booth immediately and leave the polling place. If a voter refuses to leave the voting booth, the district board members are authorized to remove the voter. *Once the voter completes casting his or her vote upon the machine, he or she cannot go back into the machine for any reason whatsoever*.

Voting Authority Slips

Each election district will receive pads of voting authorities. Each voting authority slip is in two parts and is perforated; one portion is to be signed by the voter and remains in the pad with the district board. The other half of the perforated ticket is given to the voter who must hand it to the district board worker who is operating the voting machine. A voter must present a voting authority slip to the district board member who is operating the machine before the voter may enter the voting booth. The district board member will take the voting authority and place it, in the order in which it was received, on the string or wire provided for that purpose.

When a Voter Appears to Vote:

- The voter shall state his or her *full name and address* to the district board member in charge of the poll books. The board member must announce the name and address of the voter loudly enough so the challengers can hear it.
- The district board member shall locate the voter's name and address in the poll book. If the election is a PRIMARY, the district board member must also consider whether the voter has declared a party affiliation.
- The voter shall sign his or her name in the appropriate signature column.
- The district board shall compare the voter's signature to the signature in the poll book for verification.
- Upon being satisfied that the signatures are the same, the district board member shall sign with his or her initials in the proper space adjacent to the voter's signature.

IV.Processing the Voter

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 20 of 42 Trans ID: LCV2024407856

- The district board member issues the voter a voting authority slip stamped with a ballot number, and records the ballot number in the proper column in the poll book. If the election is a PRIMARY, the district board member issues the voting authority slip for the correct party.
- The voter must sign his or her name to a voting authority slip. The tear off portion is then detached and given to the voter. The voter is to present the slip to the district board member in charge of the voting machine before entering the voting machine booth to vote.
- The district board member accepts the voting authority slip from the voter and places it on the string, or wire. The district board member then sets the machine for voting.
- Only one voter at a time shall be permitted in the voting machine. However, the voter who qualifies for assistance may be accompanied by the assistor. The voter's dependent child also may accompany the voter into the voting booth. The district board member must instruct the voter to keep his or her child on his or her left side while occupying the voting booth.
- Each voter is allowed to vote only once, and once a voter completes casting his or her vote upon the voting machine, he or she is not permitted to re-enter the voting booth.
- A voter is permitted to take his or her own "Official Sample Ballot" into the voting booth or voting area, provided that the voter does not use the Sample Ballot to electioneer or cause any improper display of the ballot while waiting to vote.

The ballot is for the voter's reference only.

NOTE: Before the district board can process a voter, it may be necessary to provide the voter with special assistance. It is most important that all district board members familiarize themselves with the laws and procedures to be followed when a voter needs assistance in voting. All district board members must read and review the section, "Providing Accommodations or Assistance with Voting," on page 24.

III. Maintaining Order at the Polls

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 21 of 42 Trans ID: LCV2024407856

Voting in the Voting Machine

The County Board of Election will provide instructions on operating the voting machine used in your county.

Special Situations:

If the Voter's Name is Not in the Poll Book

If the voter's name cannot be located in the poll book, the district board member should:

- carefully check the book as the name may have been incorrectly typed, misspelled or is out of order in the book;
- Ask the voter to repeat his or her address, and refer to the street list which has been provided to determine if the voter is in the correct polling place.
- If the voter's address is within your election district, meaning the person is in the right polling place, but the name is not in the book, *the voter can only vote by provisional ballot*.
- If the voter's address is NOT within your election district, refer to the street list to determine the correct district in order to direct the voter to the correct polling location. If there is any doubt, advise the voter to contact the County Board of Election to confirm his or her correct polling location.

If the Voter Signs on Another Voter's Line

When a voter mistakenly signs his or her name on another voter's line in the poll book, draw a single line through the name. *Do not obliterate it or erase it*.

When the correct voter appears to vote, have such voter sign his or her name above the incorrect signature. Make a note of the error and the correction in the INCIDENT LOG.

If the Voter's Name is Marked as Having Voted

When a voter, upon appearing to vote, finds that the poll book indicates he or she has

IV. Processing

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 22 of 42 Trans ID: LCV2024407856

already voted, the district board cannot permit the voter to vote. Refer the voter to the County Commissioner of Registration (Board or Superintendent) for advice and resolution of the problem.

Voters Who Have Changed Their Names

A voter whose name is in the poll book, but who states that he or she has changed his or her name by way of marriage or court order may vote in the voting machine. The voter should be processed as follows:

- The voter must sign the former name and current name in the poll book.
- District board should request the voter complete a Change of Name Form in order to correct the voter's record.

Voters Who Exit the Voting Booth Before Casting Their Vote

The district board member must stay close to the machine to listen if the CAST VOTE button was pushed. If the voter leaves the machine before this button is pushed, the district board member must immediately attempt to get the voter to come back to the machine to push the button and finish voting.

Primary Election: Voters Qualified to Vote

Voter Affiliated with a Political Party Before Election Day

 A Primary Election is an election where political parties select candidates to run in the General Election in November. Currently, the only political parties in New Jersey are the Democrat and Republican parties. ONLY VOTERS WHO HAVE DECLARED AN AFFILIATION WITH THE REPUBLICAN OR DEMOCRATIC PARTY ARE PERMITTED TO VOTE INA PRIMARY ELECTION. A voter's party affiliation is indicated in the poll book in a box to the right of the voter's name.

The district board member must be careful to provide the voter with the voting authority slip that corresponds to the voter's declared political party.

IV.Processing

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 23 of 42 Trans ID: LCV2024407856

The district board member operating the voting machine will rely upon the voting authority to set the voting machine for a party's primary election ballot.

A DISTRICT BOARD MEMBER **CANNOT PERMIT** A VOTER TO **CHANGE** HIS OR HER PARTY AT THE POLLING PLACE AND VOTE IN THE NEW PARTY'S PRIMARY ELECTION. It is a criminal offense for the voter to vote across party lines and for the district board member to allow this to occur. If a voter indicates that he or she desires to change his or her party affiliation, the board member must explain to the voter that in order to change party and vote in the Primary Election, a voter must notify the commissioner of registration of the change at least 55 days before the Primary Election. The district member may offer the voter a registration application or party declaration form to change his or her party affiliation for future elections only.

If a voter's poll book indicates that a voter is affiliated with a political party, but the voter insists that the poll book is wrong, district board members should call the commissioner of registration.

Unaffiliated Voters

An UNAFFILIATED VOTER is one who has not declared his or her affiliation with a political party before election day.

AN UNAFFILIATED VOTER MAY DECLARE A PARTY AFFILIATION AT THE POLLING PLACE AND VOTE IN THE PRIMARY ELECTION. If a voter's poll book page is not marked with a party affiliation, the voter may declare affiliation with the Democratic or Republican Party and vote in that party's primary. When an unaffiliated voter presents himself or herself to vote, the district board member must explain that the voter must choose a party affiliation in order to vote in the Primary Election. The district board member must record the voter's declaration in the box provided to the right of the voter's name.

NOTE: All voters previously identified as "INDEPENDENT" are now identified as

IVProcessing

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 24 of 42 Trans ID: LCV2024407856

"UNAFFILIATED" and can vote at a Primary Election, if they declare a party at the polling place.

Voting in Machine at a Primary Election

- After the voter gives the board member the voting authority slip, the board member must:
- SELECT THE PROPER PARTY'S BALLOT. The machine operator must examine the voting authority slip to determine which party's ballot the voter will vote. The operator will press the button on the operator panel that matches the party designated on the voting authority slip.
- If the operator fails to set the machine for the correct party before pressing the GREEN activate button, the operator MUST press the button for the correct party and AGAIN press the GREEN activate button.
- If a voter has started to vote before the correct party was selected, the machine operator must deactivate any votes that the voter has selected, reset the party selection and re-activate the machine.

"Tagged" Voters

The district board member may find that a voter's poll book page is marked with one of the following "tags":

Mail-In Ballot Voter

A voter who has applied for a mail-in ballot will have the word "Mail-In" or the letter "M" in the signature space where the voter would sign the poll book. The district board member should also consult the supplemental Mail-In Ballot list for those voters who applied for a mail-in ballot after the poll books were printed. The district board member should update the poll book with this updated information on election day morning. *A mail-in voter cannot vote in the voting machine*.

IF THE VOTER STATES THAT HE OR SHE DID NOT APPLY FOR, RECEIVE OR RETURN A MAIL-IN BALLOT, THE VOTER IS TO BE GIVEN A PROVISIONAL BALLOT.

Processing

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 25 of 42 Trans ID: LCV2024407856

If a voter arrives at the polling place with his or her mail-in ballot, he or she has two options. One, the district board member can advise the voter that he or she can deliver the mail-in ballot to the Board of Election before the close of polls in order to have the ballot counted. *Do not, under any circumstances, accept the ballot.* Two, the voter can vote by provisional ballot at the polling place. If the voter chooses to vote by provisional ballot at the polling place, he or she must be told not to deliver the mail-in ballot to the Board of Election.

Signature Required

If the voter's sample scanned signature is missing from the poll book, "Signature Required" will be marked in the signature block. The voter whose signature is missing cannot vote in the voting machine. The voter can vote only by provisional ballot.

ID Required

If "ID Required" appears in the voter's signature block, the voter must present one form of current and valid identification. A suitable identifying document includes, but is not limited to:

- a valid NJ driver's license or MVC non-driver's ID card;
- *ANY* photo identification;
- a government document with the voter's name and address;
- a current utility bill;
- tax bill; or
- rent receipt.

Once the voter provides the required identification, the district board member will check the "Yes" box on the voter's page. This indicates that the board member has seen appropriate identification for the voter. *The voter is permitted to vote in the voting machine.*

If the voter cannot provide acceptable identification, the voter can only vote by provisional ballot. The district board member should check the "NO" box in the poll book, indicating that the voter did not provide appropriate identification. The district board member is to provide the voter with the provisional ballot materials. The

IV.Processing the Voter

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 26 of 42 Trans ID: LCV2024407856

district board member must be familiar with the procedures for Provisional Ballot Voting as described starting on page 29 of this Manual.

Affirm Address

If "Affirm Address" appears in the voter's signature box, the voter must complete the "Affirmation of Residency Affidavit." The district board member will review the Affirmation of Residency and determine the voter's residency status based solely on information provided by the voter. *The voter is not required to present any identification or proof of address.* The district board member may not ask the voter to present any identification or proof of address. This voter cannot be challenged solely because there is an "Affirm Address" in the signature book. If the voter affirms that he or she has not moved and resides within the election district, the *voter votes in the voting machine.*

Voters Who Have Changed Their Residence

The Voter Has Moved Within the Election District.

If the voter indicates that he or she has moved, *but still resides within the election district*, the district board member must ask the voter to complete the form provided with the election materials and used by the county to record the change of address. *The voter votes in the voting machine*.

The Voter Has Moved Outside the Election District But Resides within the County.

If the voter indicates that he or she has moved to another election district *within the county*, the district board member should direct the voter to his or her new polling place where the *voter will vote only by provisional ballot.*

The Voter Has Moved Outside the County After the Close of Registration.

If the voter indicates that he or she has moved outside of the county after the close of registration less than 21 days before the election, and therefore could not register in the

IVProcessing

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 27 of 42 Trans ID: LCV2024407856

new county in time to vote in this election, *the voter may vote on the machine.* Voter must complete the proper form.

The Voter Has Moved Outside the County In Time to Register In the New County.

If the voter indicates that he or she moved outside the county more than 30 days before the election, the voter may not vote in this county. Voter was required to register to vote in the new county.

Voters with Disabilities

The district board may encounter voters with disabilities on election day since about 20% of New Jerseyans currently have some type of disability or disabling condition. For instance, there may be voters with vision impairments, speech or language impairments, mobility concerns, physical or intellectual disabilities, mental illness, or certain health conditions. Therefore, it is important to understand what the law requires for voters with disabilities. The following guidelines should be helpful in understanding how to interact appropriately with voters with disabilities at your polling site.

The Right to Vote

By law, voters with disabilities have the same legal right to vote as everyone else regardless of their disability. No one can be denied the right to vote because of a disability. In fact, the law in New Jersey states that:

- A person <u>cannot</u> be denied the right to vote based on the fact that he or she:
- has a specific disability (intellectual, developmental, physical, or psychiatric), or
- has a legal guardian, or
- lives in an institution, group home, supported apartment, or other residential facility that serves individuals with disabilities; or
- requires the help of an assistance dog

Only a judge can decide that a person lacks the mental capacity to vote. Again, a person must be assumed to have the capacity to vote unless a judge rules otherwise. *This determina*-

IV. Processing the Voter

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 28 of 42 Trans ID: LCV2024407856

tion cannot be made by a district board member, a person's family member, a person's personal assistance worker, or other staff.

A voter with a disability cannot be required to answer questions or fill out a form to "prove" his or her mental capacity. A voter with a disability cannot be required to do anything to prove capacity.

Voters with disabilities have the same right as everyone else to cast their votes on the machine in the voting booth.

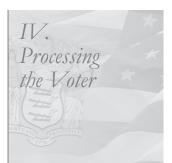

Providing Accommodations or Assistance with Voting

Under federal and state law, voters with disabilities have the right to receive "reasonable accommodations" at polling places. For example, some voters might require extra time, might need a voting machine to be adjusted, or might need assistance in the voting booth. District board members must know how to adjust the machines if necessary, must know where the accessible entrances are, must know what accommodations are available and must be helpful to any voters who need assistance.

- Voters should not be asked for "proof" of their disability in order to receive accommodations.
- Some examples of other accommodations that voters might require are:
 - Accessible entryways, voting booths, and voting machines
 - Allowing a voter extra time
 - Large-print ballot or a magnifying device to read the ballot
 - Providing a chair for a voter who might need to sit down while waiting
 - Showing a voter how to use the machines
 - Speaking more slowly
 - If a voter cannot speak or read English and there are not bilingual board members the voter can get the assistance of some one of their choosing.
 If there is no one the County Board of Election should be contacted.

Interacting with Voters with Disabilities

Above all else, voters with disabilities should be treated with the same respect and

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 29 of 42 Trans ID: LCV2024407856

courtesy as other voters at the polling place. In addition, here are some useful tips about disability etiquette to help you interact appropriately with voters with disabilities:

- Kindly speak to the voter directly, not to a companion, personal assistant or staff member.
- Do not assume that someone with a disability needs help. You should ask before helping.
- Please ask before pushing someone in a wheelchair.
- A person's wheelchair, scooter, or other assistive device is considered to be an extension of the person's personal space. Don't lean on or touch these devices without someone's express permission.
- If you are assisting someone who has a visual impairment by reading something aloud for them, you do not need to raise your voice.
- Speak slowly and directly to a person who is hard of hearing.
- Remember that animals that assist people with disabilities must be allowed to accompany the person into the building and into the booth. You should not pet or touch these animals.
- When greeting someone who has a visual impairment, let them know who and where you are. If you provide assistance to them in walking, allow the person to take your arm (do not grab the person's arm) and tell them when you are approaching stairs, when you are about to turn left or right, and warn them if there are any obstacles in the way.
 - Remember to afford voters with disabilities the same privacy as other voters.
 - If you believe someone is having trouble understanding you, speak slowly and clearly. Try simplifying what it is you are saying.
 - If you assist the voter in the voting machine, remember you cannot disclose how he or she voted to anyone.

Special Rules for Processing Voters Who Need Assistance

Federal and state laws provide that voters who are blind, disabled or who cannot read or write English are entitled to assistance in voting. When a voter requests

IV.Processing the Voter

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 30 of 42 Trans ID: LCV2024407856

assistance or indicates that he or she is unable to read or write English, the board member must provide the voter with a "Disability Certificate for Assistance" form, which is included among your election supplies. The voter must declare to the district board members under oath that because of an inability to read or write, blindness or other disability the voter is unable to cast his or her vote without assistance.

Once the voter has made this declaration under oath he or she is entitled to the assistance of a person of his or her own choosing, with the exception of the voter's employer, representative of the employer, or an officer or agent of the voter's union. The voter may choose the assistance of the district board. In that case, two board members of the opposite political party should offer assistance. Remember, however, that it is the voter's choice. He or she can choose to have only one board member assist.

The member of the district board acting as clerk must complete the "Disability Certificate for Assistance" form. The information included on the form must state briefly what facts concerning the voter's disability were sworn to and the name of the person (or persons) who provided assistance to the voter. The name and address of the assistor(s) must be recorded on the Disability Certificate for Assistance form. The person or persons providing assistance to the voter cannot reveal the name of any person for whom the voter voted, or anything which took place while the voter was being assisted.

District board members are expected to treat all voters with courtesy and respect but are particularly reminded that voters with disabilities, including those voters with a limited proficiency in English, may require additional time and a board worker's courteous attention in order to vote. The purpose of the federal and State voter assistance laws is to encourage all disabled voters to exercise their right to vote and to allow them to do so in a comfortable and secure manner. Therefore, board members should extend all possible help to such voters.

Challenges in the Polling Place

Any voter may be challenged regarding his or her right to vote by individuals known as "challengers." Challengers are appointed by either a candidate or group of candidates; municipal or county chairs of the Democratic or Republican Parties; or by the

IV.Processing

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 31 of 42 Trans ID: LCV2024407856

proponents or opponents of a public question. *In addition, a candidate in any election may act as his or her own challenger*. A challenger representing a candidate/ party or the proponents/opponents of a public question, must be a registered voter of the county.

Appointment papers for challengers must be filed with the County Board of Election by the second Tuesday before the election. The Board will issue the challenger credentials, which include a certificate of appointment and a challenger badge. The challenger's badge must display the person or party represented by the challenger. Challengers must wear the challenger badge at all times while in the polling place. Official challengers are authorized to remain in the polling place during the course of the election, to challenge a voter's eligibility to vote and to ask all necessary questions to determine this right.

When a challenger enters the polling place, the challenger is required to give the district board of election his or her certificate of appointment. The certificate of appointment indicates whether the challenger has been appointed to a particular election district or appointed as an at-large challenger. At-large challengers are authorized to move from one polling place to another within the county. Therefore, when an at-large challenger leaves your polling place, the district board must return the certificate of appointment to the challenger.

However, unless instructed to do so by the County Board of Election, the district board will not return the certificate of appointment to any challenger who is assigned specifically to its election district. In order to prevent confusion and crowding in the polling place, only one (1) challenger representing any of the parties described above should be permitted in the polling place at any given time.

District board members may also act as challengers by virtue of their appointment and statutory duty.

CHALLENGERS MAY CHALLENGE A VOTER ONLY IF THE CHALLENGER HAS REASON TO BELIEVE THAT:

■ the voter is under 18 years of age;

IV.Processing the Voter

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 32 of 42 Trans ID: LCV2024407856

- the voter is not a citizen of the United States;
- the voter is serving a sentence, on parole or probation after conviction of an indictable offense;
- the voter does not reside within the election district; or
- the voter has moved out of the county more than 30 days before election day. *Challenge Process*
 - A challenger may not ask any questions directly to the voter. All questions must be directed to the district board members.
 - The challenger must complete a Challenger Affidavit in which the challenger specifies his or her reason(s) for challenging the voter.
 - One copy of the Challenger's Affidavit is given to the challenged voter.
 - The district board will retain the original Challenger Affidavit and return it to the County Board of Election.
 - When the district board receives a Challenger Affidavit, a district board member will read aloud to the voter the "Information for Challenged Voter" sheet which explains the voter's rights. The challenged voter should fill out and sign the "Challenged Voter Affidavit" and provide a suitable identifying document for inspection. The acceptable identifying documents are listed on the Challenged Voter Affidavit. After the voter completes the Affidavit, the district board members must review the Affidavit and the identifying document and then vote on whether to permit the voter to vote.

At least three district board members must vote against the voter to uphold the challenge and prevent the voter from voting. *A tie vote of 2-2 (or 3-3 if there are six district board members) works in the voter's favor and the voter will be permitted to vote in the voting machine.* Each and every district board member must sign the Challenged Voter Affidavit and provide a copy to the challenger and the voter. The district board will retain the original Affidavit and return it to the County Board of Election. Once the voter has voted, the challenge ends.

Processing

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 33 of 42 Trans ID: LCV2024407856

Upholding the Challenge

If the district board upholds the challenge and determines that the voter may not vote, the district board must provide the voter with the Challenged Voter Information sheet and inform the voter of his or her right to appear before a Superior Court Judge for a review of the matter. If the voter goes to court and the Judge decides in the voter's favor, the Judge will issue an Order permitting the voter to vote in the voting machine. The voter should sign his or her name on the Order before leaving the court room. When a voter presents the Order to the district board, the district board member will instruct the voter to sign the Order again in the presence of the district board. The district board member must compare the signatures and, if he or she is satisfied that the signatures match, the board member will issue the voter a Voting Authority slip. *THE DISTRICT BOARD MUST RETAIN THE COURT ORDER, PLACE IT IN THE POLL BOOK AND RE-TURN IT WITH THE ELECTION SUPPLIES AT THE CLOSE OF POLLS.*

Challenger Do's and Don'ts

- Challengers may not speak directly to the voters.
- Challengers are not permitted to handle any election documents or to sit at the table with the district board of election.
- A challenger may not approach the voting machine to examine any counters.
- A challenger may, however, inspect the zero-proof report at the opening of the polls and the vote total printed out at the close of polls.
- A list of those things a challenger may and may not do, "Challengers `Do's and Don'ts," is provided in the Voter's Bill of Rights which must be prominently displayed in the polling place.

Paper Ballots in Polling Places

Voting by Provisional Ballot

A provisional ballot is a paper ballot that is given to a person in the polling place if there is any question regarding his or her right to vote which the district board cannot resolve.

IV.Processing the Voter

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 34 of 42 Trans ID: LCV2024407856

Voters Who Must Vote By Provisional Ballot

- A voter whose name does not appear in the poll book at his or her polling place.
- A voter whose voter information is deficient. An example is the voter whose sample signature is missing.
- A voter who has moved within the county and failed to notify the commissioner of registration before election day (that voter will not be in the poll book).
- A voter who failed to provide the required identification.
- A voter whose poll book page is marked "Mail-In" or "M" but who states that he or she did not apply for, receive, or return a mail-in ballot.

Provisional ballots are supplied to each district board of election in a sealed

Orange (or Blue) ballot bag. THE PROVISIONAL BALLOT BAG MUST RE-MAIN SEALED UNTIL THE BOARD WORKER IS REQUIRED TO ISSUE A PROVISIONAL BALLOT.

When a voter must vote by provisional ballot, a district board member should locate and unseal the orange (or blue) provisional ballot bag. The provisional ballot bag will usually contain 25 to 30 ballots and envelopes with detachable Affirmation Statements, pencils, an inventory sheet and a numbered plastic seal. In addition to these materials, the district board members should locate copies of the Notice to Provisional Ballot Voter, which are included among the election supplies. After removing all the supplies, the district board must count the provisional ballots and envelopes then record the number of ballots on the provisional ballot inventory sheet. The numbered seal should be placed in the Key Envelope.

Before handing the provisional ballot and envelope to the voter, the district board member should instruct the voter how to fill out the Affirmation Statement which is attached to the provisional ballot envelope. *The district board member must tell the voter that the Affirmation is to be completed in its entirety and that it is NOT to be removed or detached from the envelope.* The district board member is to instruct the voter to place the voted ballot inside the provisional ballot envelope and seal the envelope before returning it to the district board.

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 35 of 42 Trans ID: LCV2024407856

The voter must be told that if the voter spoils a ballot or envelope, he or she may return the spoiled ballot and receive a new ballot. If the voter returns a spoiled ballot, the board worker should fold the ballot in half, mark the ballot "Spoiled" and place it in the provisional ballot envelope, mark the envelope "Spoiled" and place it in the Provisional Ballot bag.

IV. Processing the Voter

After giving these instructions, the district board member is to give the voter a provisional ballot and envelope with the attached Affirmation and direct the voter to a security screen or private area to complete the ballot. For a Primary Election, the board member will provide the Republican voter one colored ballot and envelope, and provide the Democrat voter one differently colored ballot and one envelope.

When the voter returns the ballot, the district board member, who is in charge of the provisional ballot bag, must review the Affirmation for completeness. If it is not completed, the voter must be told to fill in the missing information.

Thereafter, the voter can place the ballot in the provisional ballot bag or hand the ballot to the board member for placement in the bag. *Finally, before the voter leaves the polling place, the district board member must provide the voter with the Provisional Ballot Information Sheet which explains how the voter can find out whether or not his or her ballot was counted.* This information is also found on the Voters Bill of Rights which is posted prominently in the polling place. This information place.

Voting by Emergency Ballot

Emergency ballots are paper ballots which are used if a voting machine becomes inoperable. In addition, if there is considerable delay in the polling place caused by the use of the voting machine audio kit, emergency ballots should be available for the other voters.

In election districts with two voting machines, emergency ballots should not be used unless both machines are inoperable. Before opening the emergency ballot box, if the

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 36 of 42 Trans ID: LCV2024407856

machine becomes inoperable, the district board should first examine the machine to determine the problem and see if it can be corrected by the district board.

Opening Emergency Ballot Box

If the district board cannot correct the problem, the board should immediately notify the custodian of voting machines, explain the problem, and receive advice from the custodian and request authorization to use emergency ballots until the machine problem is corrected. The Superintendent or the County Board of Election will dispatch a technician to the polling place to repair or replace the voting machine.

In the meantime, if the Superintendent or County Board, as the case may be, has authorized the use of emergency ballots, the district board should locate the emergency ballot box and attach it to the voting machine. *Note: The district board must compare the numbers on the green seal of the emergency ballot box with the numbers on the voting machine key envelope. If they do not match, the district board must tell the Superintendent or the County Board before opening the box.*

If there are no problems with the seals and/or permission has been granted to open the emergency ballot box, the judge of the district board must take these steps in the following order:

- break the green numbered seal,
- open the emergency ballot box,
- remove the contents containing the emergency ballots and the envelopes containing the numbered white and red seals,
- remove the white and red seals and compare the numbers on the seals with those on the face of the envelope, and note on the envelope any discrepancies,
- place the red seal back in the envelope and return the envelope to the ballot box,
- show the emergency ballot box so that those present may see that the box is now empty except for the envelope containing the numbered red seal,
- place the green numbered seal in the key envelope,
- close and re-seal the emergency ballot box with the numbered white seal removed from the envelope in the box, leaving open the slot in the lid.

IV. Processing

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 37 of 42 Trans ID: LCV2024407856

Contents of Emergency Ballot Box

The emergency ballot box should contain at least 30 emergency ballots, at least 30 plain white envelopes, and a Statement for Emergency Paper Ballots Voted. Also included in the emergency ballot box, or elsewhere in district board members' election supplies, are a privacy screen, a clipboard, and a fastener to hold the envelopes together.

Voting By Emergency Ballot

A district board member should keep the ballots in clear sight of the district board at all times. Emergency ballot voters are processed in the same manner as any voter entitled to vote on the voting machine. *Only voters who are entitled to vote on the voting machine are permitted to vote by emergency ballot.*

After processing the voter and issuing a voting authority slip, the district board member should instruct the voter to take the voting authority slip to the district board member who has custody of the emergency ballots. The voter will hand the voting authority slip to the district board member who will hand the voter the emergency ballot and a plain white envelope.

The board member must advise the voter that if the voter spoils the ballot the voter should fold and place the spoiled ballot in the plain white envelope and return it to the board member who will provide the voter with a second ballot and envelope. The board member should mark the original envelope "SPOILED BALLOT." The board member should instruct the voter that when the voter has finished making his or her selections, the voter is to fold the voted ballot and place it in the plain white envelope and return it to the board member. Finally, the board member should direct the voter to a designated private voting area or security screen.

NOTE: IT IS AGAINST THE LAW TO ALLOW THE BALLOT TO BE VOTED OUTSIDE THE POLLING BOOTH OR SCREEN AREA. DO NOT GIVE THE VOTER A BALLOT UNTIL THE POLLING BOOTH OR PRIVACY AREA IS READY FOR THE VOTER.

IV. Processing

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 38 of 42 Trans ID: LCV2024407856

When the voter returns the voted ballot to the board member, the voter may place the ballot into the ballot box or may hand the ballot to the board member to deposit the ballot in the emergency ballot box.

NOTE: ALL BALLOTS MUST BE INSERTED INTO THE PLAIN WHITE ENVELOPE BEFORE THEY ARE HANDED TO THE DISTRICT BOARD MEMBER.

Resume Voting on the Voting Machine

When the voting machine has been repaired or replaced, the district board must resume voting on the machine. In the meantime, the district board must secure all the unvoted emergency ballots and plain white envelopes with their election supplies. A district board member must record on the "Statement for Emergency Paper Ballots Voted" the voting authority number of the last voter to use an emergency ballot. If a voting machine fails to operate on multiple occasions during any single election, a "Statement for Emergency Paper Ballots Voted" must be completed on each occasion.

REMEMBER: THE EMERGENCY BALLOT BOX, SECURED WITH THE <u>WHITE</u> NUMBERED SEAL, MUST REMAIN IN FULL VIEW OF THE DISTRICT BOARD MEMBERS DURING THE HOURS OF THE ELECTION. WHEN EMER-GENCY BALLOTS ARE USED, AT THE CLOSE OF THE POLLS, THE WHITE SEAL WILL BE REPLACED BY THE RED SEAL. (SEE CLOSING THE POLLS).

V. Closing the Polls

Announcing the Close of Polls

Closing time

At 8:00 p.m., the judge publically announces the polls are officially closed. (In school board elections, the polls officially close at 9:00 p.m.) The same clock used to open the polls should be used to close the polls. The outside entrance to the polling place should be closed at this time. *Absent an Order from a Judge of the Superior Court, the polls MUST close at the appointed time.*

IV.Processing

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 39 of 42 Trans ID: LCV2024407856

Voters Who Are On Line to Vote at Closing Time

Any voters on line to vote at the close of polls must be allowed to vote. The district board members cannot take any steps to close the books or the voting machine until all voters present have been processed. A district board member should be positioned at the end of the line indicating which voters were in line at the time that the polls officially closed.

Post-voting Procedures in the Polling Place

Challengers, candidates, and members of the media as well as the general public may be present at this time, as long as they do not interfere with the closing procedures.

Closing the Voting Machines

The instructions for closing the voting machines will be provided by the County Board of Election.

Printing Reports

Election tapes for all districts must be printed. The opening election zero -proof tape and the closing election results tapes, cartridges and keys must be inventoried and returned in the proper supply bags.

Provisional Ballots

Inventory of Provisional Ballots. At the close of the polls, the district boards must inventory the provisional ballots. The number of "invalid" ballots (placed in envelopes marked "SPOILED"), used provisional ballots, unused provisional ballots, and missing provisional ballots must be recorded on the inventory form provided with the provisional ballot bag.

Signing of Provisional Ballot Inventory Forms. The district board members must sign the inventory form when it is completed. If a district board member dissents from the inventory, he or she shall state the reason and sign the form.

Sealing the Provisional Ballot Bag. After placing all the provisional ballots and

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 40 of 42 Trans ID: LCV2024407856

envelopes in the bag, the district board members must seal the bag with the numbered seal provided in the bag.

Canvassing and Tallying the Emergency Ballots

After the polls close, and the machine totals have been recorded, the district board must count emergency ballots, if they were used.

Counting Rules

The requirements for counting a paper ballot apply. Each vote must have the appropriate mark placed in the proper place on the ballot to be counted. An invalid vote in one place does not necessarily invalidate the entire ballot. However, any unauthorized ballot markings which the district board determines were intended to identify or distinguish the ballot will result in the rejection of the entire ballot (that is called a "marked" ballot).

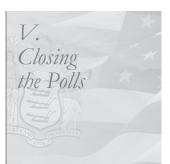

A misspelled write-in vote does not necessarily invalidate the vote. Any ballot that the district board determines to be void must be identified as such on the envelope in which it was enclosed.

Procedure

First, a board member is to remove the white seal from the emergency ballot box and opens the ballot box in full view of the public. Second, the judge will remove the ballots one at a time and read the votes cast. The judge will do this in view of the inspector who will look at the ballot to make sure that it was read correctly and record the vote(s) on the Emergency Ballot Tally Sheet. Envelopes marked "VOID" or "SPOILED" shall be set aside. The district board clerk will tally the results of the emergency ballots as they are read by the judge.

Before removing the next ballot from the ballot box, the judge shall replace the ballot previously read back into its plain white envelope and hand it to the inspector. Each envelope shall be numbered consecutively (i.e., 1, 2, 3, etc.) and strung together in numerical order.

The district board members shall total all the votes cast by emergency

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 41 of 42 Trans ID: LCV2024407856

ballots on the tally sheet. ALL board members must sign the completed tally sheet. After counting, one copy of the tally sheet is placed in the emergency ballot box. The second copy of the tally sheet is placed in the supply bag in conjunction with the other machine results and returned in the supply bag to the county election office or municipal clerk depending on your county's proceedure. The district board is to add the emergency ballot results to the voting machine totals in the proper place on the return sheet.

After all the voted emergency ballots are counted, tallied, and strung together in numerical order, the district board must string all the plain white envelopes marked "VOID" or "SPOILED" at the end of the same string. The district board members then place the tally sheet and ALL emergency paper ballots—voted, unvoted, void, and spoiled--into the emergency ballot box. Finally, the district board members shall immediately secure the ballot box with the red numbered seal.

Publish the Results of the Election

A district board member shall announce the final results of the election, post the results on the wall of the polling place, or provide copies of the results as directed by the County Board of Election.

Collecting of all Election Materials and Supplies

The district board members should lower the American flag; take down all signs; collect informational materials; poll books; voting authority slips; court orders; posters; and gather any other supplies. This material must be secured for return delivery.

Return of Materials

The counties use various procedures for the return of election materials. Your County Board of Election will provide the instructions for the return of your election materials. *District board members must not re-pack poll books in the machines at the end of the day even if that is how they were delivered because they will be subject to the 15 day period of impoundment after the election.* It is of the *UTMOST*

 V_{\cdot} Closing the Polls

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 42 of 42 Trans ID: LCV2024407856

importance that a secure chain of custody is maintained--all items pertaining to election results should be inventoried and signed for at each exchange.

Pay Voucher - Last But Not Least

All district board members must complete the payroll sheet and sign the pay voucher. The completed payroll sheet should be packed with the supplies to assure payment to the district board members. Each district board member must sign the pay voucher to assure prompt receipt of his or her check.

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 1 of 3 Trans ID: LCV2024407856 R005871-080823 - Open Public Records Request

Request Created on Public Portal

Declaration of Christine Ruhl regarding November 8, 2022, election in Hopewell Township, Mercer County, NJ

I Christine Ruhl, under penalty of perjury declare that:

- 1. I am over the age of 18 and competent to make this declaration.
- 2. I am a citizen of the United States and New Jersey.
- 3. I reside in Hopewell Township, NJ
- 4. I functioned as a poll challenger for Jennifer DiDonato, candidate for Hopewell Township Committee, during the November 8th election cycle

Acting as a challenger, I observed the election and related incidents at the following times and places"

- November 8 from 8:30am to 3pm- I was a poll challenger in Hopewell Township districts 8 and 12 at the Hopewell Train Station at 2 Railroad Place in Mercer County, NJ
- November 14th from 1:15 to 3pm- inspection of voting machines at a warehouse at 1 North Johnston Avenue in Trenton.

Here are my significant observations regarding the overall integrity and chain of custody of the voting process:

November 8th from 8:30am to 3pm-- I was a poll challenger in Hopewell Township districts 8 and 12 at the Hopewell Train Station at 2 Railroad Place in Mercer County, NJ

- 1. I was a poll challenger for the 2022 election and I was stationed at the Hopewell Train Station in Mercer County, NJ on election day, November 8, 2022, from approximately 8:30am to 3pm.
- 2. As widely reported in local media and documented by Mercer County election officials, the Dominion scanners/tabulators in all of Mercer County were not working on election day and the ballots were manually dropped into the bins without being counted, tabulated, or scanned.
 - a. After Bungled Ballots Machines Malfunctioning Officials Calling for Overhaul of Mercer Elections Systems.pdf, see Exhibit A,
- 3. The ballots were pre-printed and the poll workers had a stack of blank ballots that they would give to the voter when the voter checked in. The voter would bubble in their selection with a sharpie marker and place the ballot into the bin.
- 4. At my polling location, voters were putting the ballots into the smaller emergency bin and then about halfway through the day, the poll worker opened the main bin, so there were ballots going into 2 different compartments on election day.
- 5. I also witnessed the poll workers using different processes for issuing the paper tickets that accompany the ballots. One of the poll workers handed out tickets to every voter and I witnessed another poll worker handing out tickets only to people who were issued paper ballots, not to those voters who were issued a provisional ballot. This worried me because there was no way to track how many ballots were supposed to be in the bins on election day.
- 6. I did not see any count of voters being completed at any point while I was at the polling location.

November 14th from 1:15 to 3pm- inspection of voting machines at a warehouse at 1 North Johnston Avenue in Trenton.

- I was asked by my candidate, Jennifer DiDonato, to join her on Monday 11/14/22 at 1 North Johnston Avenue in Trenton, which is a warehouse. The warehouse had no indication on it that it was used for election purposes and the name on the building said, "The Modern at Mill One". I was told by Jennifer to go to door "C" and someone would let me in.
- 2. Inside the warehouse were rows of boxes used to store election related items. The warehouse also contained the 600+ Dominion voting bins that ballots were dropped into on election day.
- 3. There were 4 election workers present, 3 females and one male, as well as Atlas Moving Company workers who would come and go. There were also at least 6 public observers/candidates who were watching what the elections workers were doing, including myself. These citizens include Patricia Johnson, Jennifer DiDonato, Stacey Bryne and Stacey's husband Mark and one other person whose names I did not get.
- 4. I witnessed bins being brought to the warehouse by an Atlas moving truck by men in Atlas uniforms.
- 5. The bins were offloaded and the election workers were checking them one by one to make sure there were no additional paper ballots left in there from election day. I observed Patricia Johnson making a record of every bin that she witnessed and wrote down if the bin contained any ballots.
- 6. The citizens were sitting across from the election workers and we were told we could not stand up, we had to be seated. When one of the citizens stood up to try to see the other side of the bin, one of the election workers said she felt threatened and asked him to sit down, stand being the table I was sitting at, or leave.
- 7. One of the election workers would check the bins and announce if it was secure or not and another worker was taking notes. The front of the bin indicated which municipality and district each bin was from. The election workers would open the bins and check them, but they made sure the bins were facing them and away from us. We were not able to see if anything was in the bin.
- 8. One of the public observers/citizens tried to stand up to observe the bin's contents and the poll worker got very angry and said that she felt threatened and asked him to sit down or she would have him escorted out of the building.
- 9. Each bin had a cover that went over top and each cover was supposed to be secured by a red locking device with an identification tag on it. The locking device looked like a zip tie.
- 10. After the cover was removed, the bins were also supposed to be secured, but I witnessed many covers and bins that were not secured. The election workers were taking note of each bin and whether it was secured. I also saw locking devices that were loose and laying on top of the bin, visible after the top cover was removed.

- 11. On November 14, 2022, I witnessed 40+ bins being checked and I saw 3 bins that still had ballots in them. The bins that still contained ballots were from Hamilton, Ewing, and East Windsor.
- 12. As reported in local media, at least 1,500 ballots were found in machines on Friday, November 11.
 - a. After Bungled Ballots Machines Malfunctioning Officials Calling for Overhaul of Mercer Elections Systems.pdf, see Exhibit A,
- 13. The election workers would take the ballots out of the bin and place them into a red bag.
- 14. Stacey and Patricia asked them to count the number of ballots they found, but they refused to.
- 15. When they finished checking all the bins, the 4 election workers at the warehouse placed the red bags into the trunk of one of the election workers cars and left the warehouse.
- 16. I was not told where they were going with the red bags filled with ballots.
- 17. I was not told where the bins came from before being brought to the warehouse. The bins (some of which were not secured) were being driven to the warehouse by Atlas workers. After the ballots were removed, they were placed in the car of one of the election workers without being counted.
- 18. I observed that there was no count of how many ballots were in the bins on election day, ballots could have been added or removed.

Summary

I am concerned about the chain of custody of the ballots that were left in the bins. I was not told where the bins came from before being brought to the warehouse. I would assume they were still at the voting location. The bins (some of which were not secured) were being driven to the warehouse by Atlas workers. After the ballots were removed, they were placed in the car of one of the election workers without being counted.

Since the chain of custody was broken with the ballots in the bin, it is reasonable to expect that the chain of custody could have been broken with the blank ballots. Anyone with a sharpie marker could fill in the blank ballots and put them into the unsecured bins after election day and since I observed that there was no count of how many ballots were in the bins on election day, ballots could be added or removed.

I declare under penalty of perjury that all of the above is true and corrected to the best of my knowledge.

Signed: Chris Rube

Christine Ruhl

24	forty-eight hours in advance of this meeting.
25	CHAIRWOMAN MELKER: Thank you.

1 The Mercer County Board of Commissioners has 2 requested to have a presentation this evening regarding 3 the voting process and the issues that were experienced 4 on Election Day.

5 We requested this to clarify the problems that 6 occurred and to discuss the issues in an open, 7 transparent and public process.

8 My hope is that this presentation will give the 9 public a clear picture as to what occurred so that the 10 election and its process can continue to have the 11 public's confidence in it.

12 The election process and voting are the 13 cornerstones of our democracy. And we must perform our 14 due diligence to ensure that we do not have this issue 15 that we have had in this past election ever occur 16 again.

After the presentation by the election officials After the presentation by the election officials and the vendors and involved parties, I have chosen to use the Chair's privilege to allow the public comment immediately following.

If you wish to comment, please fill out the designated sheet and return them to our staff and you will be called to the microphone.

I respectfully ask all hearing attendants to remain decorum. I certainly understand there's a level

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 7 of 127 Trans ID: LCV2024407856

1 of frustration, I, however, will not tolerate unruly 2 behavior as we proceed.

3 Do any of my colleagues have anything they would 4 like to say before I proceed?

5 Thank you.

8

25

I would like to ask the Mercer County Prosecutor7 Angelo Onofri to come to the podium with his report.

MR. ONOFRI: Angelo Onofri, O-N-O-F-R-I.

9 Chairperson Melker, members of the board, county 10 executives, thank you for having me here this evening. 11 And I just wanted to take a moment to introduce the 12 members of my office who participated in this 13 investigation.

We have officer in charge William Jet, Detective Sherry Johnson, Detective Michael Sedwick, and Detective Edward Hughes. They've worked tirelessly on this. They've conducted numerous interviews, reviewed numerous documents. And I'm extremely proud of the work that they've done.

The Mercer County Prosecutor's Office was asked to investigate the Election Day failure of voting machines and their failure to register votes to determine if there was any criminal conduct or tampering with the voting machines.

Our investigation revealed that the failure of the

1 machines was not the results of tampering or any 2 criminal conduct. Rather, the issue stems back to an 3 error of miscommunication concerning the coding on the 4 Election Day ballots and the voting machines. Because 5 the same codes were not used on the ballots and voting 6 machines, the machines did not register the votes on 7 Election Day.

8 We received a call from the county clerk on 9 Election Day. And she explained the issues that were 10 occurring with voting. Because of that, we then went 11 into an investigation, and on the next day we met with 12 the clerk.

She reported that the Dominion manufactured and coded voting machines purchased by the County didn't tabulate the ballots throughout the Mercer County's 243 voting districts on Election Day.

The failure forced each voting location to use name and placed in the emergency bin of the voting machines at each location to successfully count the citizens votes.

The ballots were then transported to the Mercer County Board of Elections where they were counted using separate high speed scanners.

24 The clerk had asked our office to determine 25 whether or not there was any criminal conduct or any

potential tampering with any of the voting machines. 1 2 We notified the Office of Public Integrity and Accountability of the Attorney General's office, as 3 will as Attorney General Platkin of the issues. 4 We 5 were informed that the Attorney General's office and 6 OPIA was aware of this due to the Deputy's Attorney General assigned to the Elections Division within the 7 State Government. 8

9 The Office of Public Integrity and Accountability 10 authorized us to continue the investigation and at that 11 point we continued and kept to update OPIA on any of 12 the issues that were occurring.

13 The detectives who I introduced were assigned to 14 this case, along with Supervising Assistant Prosecutor 15 Rachel Cooke.

During the 2022 general election, there were 243 Plection districts utilizing 199 voting machines. Our review was simply limited to whether there was any criminality and to determine what occurred.

20 CHAIRWOMAN MELKER: Excuse me, they're asking if 21 you can speak up because they can't hear you 22 downstairs. I apologize.

23 MS. ONOFRI: Okay. No problem.

On Veteran's Day, my office, including myself, met with the Superintendent of Elections, Nate Walker, Supervisor Paul Dombrowski, Deputy Attorney General Susan Scott from the Division of Elections was on the phone, and Anthony Pacone, the Deputy Director of OPIA was also informed of the meeting. I would also note that Walker Worthy was also with us, and extremely helpful during the process.

7 And, in fact, I might as well say that now, 8 everyone, Royal Printing, Dominion Voting Machines, the 9 Superintendent, the County Clerk, everyone was 10 incredibly cooperative and wanted to get to the bottom 11 of what occurred.

I think the best place to start is back in June or July of 2022. As the Commissioners may recall, there was a series of legislation that passed for voting reforms. And one of those reforms was that at the voting district level ballots had to be tabulated at the voting district level rather than by municipality.

Beginning with this 2022 General Election, mail-in ballots had to be done at the district level; however, provisional ballots, that requirement didn't kick in until 2023.

As the Commissioners are aware, election ballots As the Commissioners are aware, election ballots are printed by Royal Printing and the county ballots As the Commissioners are aware, election ballots As the Commissioners are aware, election ballots

25

The voting machines and the election software are

Renzi Legal Resources (609) 989-9199 www.RLResources.com 1 supplied by Dominion Voting Machine Systems, and the 2 machines are also programmed by Dominion.

The responsibilities to get the ballot printed are the clerk provides the content of the ballots. That's the ballot position, the names, the municipality, and as everyone is aware, the clerk determines through a draw what line position everyone gets.

8 Royal Printing created the design of the ballots 9 incorporating the content from the clerk, as well as 10 the electronic codes on the ballots or timing marks 11 which enable the machines to read the ballots.

Dominion created the coding for the ballots Through a program provided to Royal Printing and they code the voting machines to properly count the ballots.

The process requires naturally Dominion and Royal to coordinate the coding on the ballot with the coding on the machine so the ballots could be properly read and tabulated by the voting machine.

We're going to use the term "failure," but as we'll explain later, it actually was not a failure. The failure of the machines to read the ballots was due to a coding error and the miscommunication between Royal and Dominion.

Now, just a bit about the process. Royal will get the final approval to proceed with printing the ballots

from the clerk. Royal then runs the ballots through a 1 2 rendering tool that was provided by Dominion. That's 3 what creates the timing marks which allows the ballots to be counted by the voting machines. Royal adds the 4 5 timing marks to the ballot and then e-mails the completed coded ballots to Dominion. Dominion then 6 7 programs the voting machines using the coded ballots provided by Royal. And both Royal and Dominion have 8 agreed on this process as we've discussed during the 9 10 course of our interviews with the parties.

11 On October 4th, the final ballot forms were signed 12 off on by Sue Hanson from the Election Supervisor. And 13 on October 5th, there was a conference call held 14 between the clerk, Dominion, Royal, and the election 15 supervisor.

Coding by district was discussed in the creation of the Election Day ballots. Now, recall the coding by district was only required for the mail-in ballots for the 2022 general election.

A decision was made by the clerk that we would utilize the old system for provisional ballots and have 22 18 provisional ballot forms printed rather than 243. This was keeping it at the municipality level rather 24 than the voting district level.

25 The decision was later confirmed by a series of

1 communication between the parties. And by "the 2 parties," it's Royal, Dominion, and the clerk. All the 3 parties agree that the content of these communications 4 and the decision to utilize only 18 forms did take 5 place.

Now, if I could ask the Commissioners just to take a quick look at the document -- yes. Commissioner Cimino is holding up the 18 provisional voting districts. And what you will see there is two ballots from Election Day -- or one ballot from Election Day that is marked "spoiled." The other ballot doesn't have any markings on it because that was the actual test deck ballot that we utilized.

On the left -- and you'll note, these were all from the Trenton - South - District 6. If you notice on the right-hand side on the ballot marked "spoiled," the coding number is 462. And if you look at the la actual Election Day ballot, the coding number is 687. Exactly 225 off.

Also, if you put the two ballots next to each other, you'll notice that the timing marks are different. And the timing marks are those lines that are surrounding it, and you'll see that they're a little bit off.

25 Royal printed based on utilizing only the 18

1 provisional ballot forms. Dominion program based on 2 the 243 provisional ballot forms that will be required 3 by law next year. That's why the codes are off by 225 4 on each and every voting district ballot.

5 I would note that if you do the math, it's 243 6 minus 18 is 225. That is the difference. The 7 discrepancy caused the machines on Election Day not to 8 read the Election Day ballot.

9 But the reality is the machines from Dominion 10 worked as they should have worked. Because the timing 11 marks were off, it was picking up that this was a 12 fraudulent ballot. The timing marks have to match in 13 order for the scanner to work. Anything that doesn't 14 match up is considered to be fraudulent by the 15 tabulator machine. So clearly the machines worked as 16 they should have.

Just a couple notes about these machines. Initially they are not cloud based and they are not connected to the Internet. The elections employees cannot change or reprogram the ballots that are put into the voting machines. The election server isn't connected to the cloud or the Internet. There are two computers that can be used to program the SD or the SIM cards that are placed into the machines by the employees, but they cannot reprogram the machine. 1 The New Jersey Cyber Security and Communications 2 Integration Cell, commonly referred to as the New 3 Jersey Tech has tried to hack into these voting 4 machines. They have been unable to do so. And they 5 are among the top computer folks that we have here in 6 the State. So they are unable to do that.

7 I think the next thing to get into is that there 8 was some question raised about why did the voting 9 machines work properly during the inspection which took 10 place from October 21st to October 24th?

11 The answer is that that voting deck, that ballot 12 deck that was used that day was prepared by Dominion 13 based on the 243 voting districts. That deck worked as 14 it should have been because that's how the machines 15 were programmed. But it was this discrepancy that came 16 up later on that caused the -- and we'll use it in air 17 quotes "failure" of the voting machines on Election 18 Day.

19 There's been some information raised about ballots 20 from Robbinsville Township, as well as Princeton. The 21 Robbinsville ballots were actually at the Board of 22 Elections on election night. Our investigation 23 revealed that those ballots just weren't counted that 24 evening.

25

The ballots from Princeton, three empty voting

Renzi Legal Resources (609) 989-9199 www.RLResources.com

bags were delivered to the Board of Elections. 1 The 2 next day a Court Order was obtained by the Election's 3 personnel, those three machines were open and the ballots were located in the emergency bin where they 4 5 should have been. And there are anti-tampering devices on the voting machines. None of those were tampered 6 7 with. They were actually opened by the Election's personnel and we're confident that these ballots 8 9 weren't tampered with.

10 So with that, this really does come down to a 11 communication error on that part. And, again, we just 12 want to thank everyone for their cooperation, from the 13 clerk to Royal Printing to Dominion Voting Machines, 14 Superintendent Walker, we appreciated all of their 15 input in this.

So if any of the Commissioners have any questions, I'd be happy to answer those.

18 CHAIRWOMAN MELKER: Anyone?

19 COMMISSIONER WALTER: Thank you.

20 CHAIRWOMAN MELKER: Thank you very much.

21 COMMISSIONER CIMINO: Thank you, Prosecutor.

22 CHAIRWOMAN MELKER: I would now like to invite our 23 County Executive Brian Hughes to the podium.

24 MR. HUGHES: Thank you, Prosecutor. You're
25 leaving the room pretty quickly. You must not want to

1 stay for the 70 resolutions that we have.

We all are aware two weeks ago in-person voting in our general election was hammered by all sorts of problems. There were issues with scanners leading to slower than normal tallies. The good news is that we have paper ballots to count. But the mix-up brings us to larger issues in how we do our elections in Mercer 8 County and how we count our votes.

9 This is something that should never happen again. 10 And I think one of the issues is that we have an 11 election system brought upon us by the Government and 12 the State of New Jersey that has a County Clerk who's 13 elected, it's a constitutional office, but we also have 14 a Superintendent of Elections and we have a Board of 15 Elections. And those folks are brought to us through a 16 political means.

17 The Chairwoman of the Republican Party, Lisa 18 Richford, and the Chairwoman of the Democratic Party, 19 Ms. Mironov, are the ones that appoint the Directors of 20 the Elections Board. They also are involved in the 21 employment of the workers of the Election Board. And also have a hand in who the superintendent of election 22 23 is. That's something we cannot ignore and resolve. 24 But that's something -- those are three different 25 elements that have a hand in who decides what process

1 we have our elections in. And I think it's something 2 that our Board, your Board, Madam Chair, can do 3 something about.

4 Camden County and a few other counties just 5 recently changed their process to merge their 6 Superintendent Board with their Elections Board. So 7 you have a more professional, you have an executive 8 director, you have someone who is absolutely in charge 9 and dedicated to controlling and -- not controlling --10 into producing election results for the county that we 11 may need to take a look at. And I ask you all to take 12 a look at that.

13 COMMISSIONER CIMINO: County Executive?

14 MR. HUGHES: Yes. Go ahead.

15 COMMISSIONER CIMINO: In regards to the model in 16 Camden, is that Executive Director appointed? How do 17 they come to the Executive Director --

18 MR. HUGHES: Well, listen, I'd have to check in on 19 that with you, John.

20 COMMISSIONER CIMINO: Okay.

21 MR. HUGHES: But I think I don't want to have any 22 role, and I don't now have a role in how we --23 elections. That would bring a fourth finger in the 24 pot, which we don't need.

25 COMMISSIONER CIMINO: Okay.

1 MR. HUGHES: But I think to merge those three, 2 right now we have a superintendent who is appointed by 3 the governor with the chair's recommendation and 4 approved by the Senator. We have a Board of Elections 5 that are appointed by the two Chairs, the Democrat and 6 Republican party. And I think it's just too convoluted 7 to have the kind of elections that we have now.

8 We have drop-off ballots. We have mail-in 9 ballots. We have in-person ballots. You can vote 10 three weeks before the election and three weeks -- it 11 seems like three weeks after the election.

But we really need to take a look at who is in charge of our election process. It ought to be one person that we can go to and see what happens and what went wrong.

And I appreciate the Prosecutor. He said Dominion didn't make a mistake. Royal didn't make a mistake. The Clerk didn't make a mistake. The Superintendent and the Board didn't make any mistakes. Yet, we are one of 21 counties where our machines didn't work and we became a statewide, and I'll admit it, we became a statewide embarrassment, quite frankly. We weren't able to count our votes on Election Day, and that should never happen again. And what modifications we peed to make, we are here as the County, we will spend

> Renzi Legal Resources (609) 989-9199 www.RLResources.com

whatever money it takes. We will make whatever 1 2 modification it takes. But we will be behind this Board to work with you to make the changes that we need 3 4 to make. Thank you very much. 5 CHAIRWOMAN MELKER: Thank you. 6 I am now going to turn the presentation to the 7 election officials and the service vendors for any comments that they would like to share. 8 9 We invited you here to provide information and 10 also to allow you to hear the concerns of the public. 11 So I will open it up to whoever wants to come up to the 12 podium to share any additional information with us. 13 Madam Chair, Commissioners, members MR. WALKER: 14 of the public, my name is Nathaniel Walker, Mercer 15 County Superintendent of Elections. 16 County executives, I applaud this effort to 17 explain to the public what happened on Election Day. 18 I'm not going to testify on things that I don't have 19 any knowledge of. I can assure you that the machines, 20 as the prosecutor indicated, were passing the program 21 and did accept the test ballots. 22 That's about all I guess I can say at this point, 23 and I would like to ask the county clerk to come up. 24 And we do have a protocol that we've been 25 following, and the current protocol for testing the

> Renzi Legal Resources (609) 989-9199 www.RLResources.com

1 machines is a protocol that we used in 2021 for the 2 general election, and we also used that same protocol 3 in 2022 for the primary.

I've talked with Dominion, and we're going to institute new protocols to offset this current situation. I'm fortunate to say that Bob Giles is here from Dominion and he can explain that further.

8 Without further adieu, the County Clerk, Paula9 Covello.

MS. SOLLAMI COVELLO: Good evening, everyone.
Thank you so much County Commissioners for having this open forum tonight. It is wonderful to have an opportunity to tell the public exactly what happened.

And I want to thank very much, Prosecutor Onofri and their amazing team, for a very thorough investigation in which you really clearly explained exactly what happened in detail, and I think that made it much easier for all of us to come explain it onight. So, I thank you, I thought it brought forth integrity, transparency, and it really accurately explained what happened.

We are here to explain anything further if you'd We are here to explain anything further if you'd like to know, but I will tell you that the County Clerk's office did print the ballots exactly as requested. And they were properly, you know, sent over 1 and we have all kinds of evidence to show and proof of 2 e-mails, things of that nature, to show what we did to 3 make sure that they were sent properly.

Beyond that, there's nothing more I can say, sexcept that we always work hard and we make sure that everyone has an ability to have their vote cast, their vote counted, and we did that again in this election.

I think the fact that we had a paper trail, and we 8 have paper, it's an excellent investment that the 9 County made. Because if we would have had a breakdown 10 11 in equipment prior to this, there would not have been 12 an election. If the machines went down without a paper 13 trail, we could not have gone forward. But because you 14 had invested in buying these machines, we were able to 15 take that paper back, we were able to count the votes. 16 And as you know, we completed it on time. Today 17 all those ballots were certified to my office on time 18 because today is the State deadline, and in compliance 19 with the law. Some counties still are still counting, 20 but Mercer is done. We had completed our count on

21 time. And now I have until the 26th for us to create 22 the reports for us to certify to the State.

23 So I want to make sure that everybody knows that 24 that despite the setbacks, Mercer is in compliance, 25 everybody voted, and the election went forward.

> Renzi Legal Resources (609) 989-9199 www.RLResources.com

1 So I thank you so much again for having this, and 2 I thank you all. Thank you.

3 CHAIRWOMAN MELKER: Next speaker.

4 MR. GILES: Good evening, everyone. My name is
5 Bob Giles. I'm the Vice President of Certification and
6 Compliance for Dominion Voting Systems.

7 And just a quick little background, I started 8 there May 2nd. Prior to that, I was with the Ocean 9 County Board of Elections for 13 years. And I was the 10 State Election Director for New Jersey for the last 11 14 years, retiring May 1st.

I want to thank you for having us here to have the transparency to discuss what did occur, and how we are going to improve the process so that it never occurs again.

So, as the Prosecutor said, and Dominion agrees, that it's been determined that this was not a Dominion tabulation equipment issue, nor was it a printing error.

20 Royal Printing has always and continues to print 21 high quality ballots that meets Dominion's 22 requirements. This was entirely a process error that 23 relates to individual ballot ID as a result of a change 24 to the provisional ballots, as the Prosecutor 25 discussed. I'm going to walkthrough it quickly, and some of it will be repetitive, but I want to just make sure everybody understands how the process works and what ccurred for this election.

5 So setting up an election requires a partnership 6 between the County Clerk, Royal Printing and Dominion. 7 The County Clerk works with the printer to design and 8 layout the ballot for each town.

9 When that phase is completed, Dominion staff 10 verifies that the timing marks and the target areas, 11 the ovals, are correct. This was completed on 12 September 16th of this year.

13 The printer then assigns unique ballot IDs that 14 represent each towns individual wards and election 15 districts to the ballots. These unique ballot IDs --16 THE COURT REPORTER: Sir, can you slow it down a 17 little bit?

18 MR. GILES: I'm sorry.

When that phase is completed, Dominion staff When that the timing marks and target areas, the vals where you cast the votes, are correct. This was completed on September 16th.

The printer then assigns unique ballot IDs that represent each towns individual wards and election districts to the ballots. These unique ballot IDs are 1 what tells the system where to assign the votes cast on 2 the ballot. The election database cannot be created 3 without this information.

On October 5th at 11:33 a.m., Dominion received the files that contained this information. This is an individual file for vote by mail ballots, provisional ballots, Election Day ballots, and early voting ballots. There was a total of 974 individual ballot IDs in this first set of files. Dominion staff immediately began building the election database.

11 On that day, October 5th at roughly 2:00 p.m., 12 there was a phone call between the County Clerk, Royal 13 Printing and Dominion. During this call, a decision 14 was made not to produce provisional ballots by town, 15 ward and district, but rather just by town and ward. 16 This reduced the number of unique ballot IDs required 17 by 225.

On October 5th at 3:51 p.m., Dominion staff or received the updated set of files containing the change to the provisional ballot ID, removing the 225 unique provisional ballot IDs. This is where a miscommunication occurred.

The Dominion staff thought that only the provisional ballot IDs were changed, but in fact, the Election Day and early voting ballot IDs were also 1 adjusted to reflect the new numbering sequence of 225
2 less ballot IDs. As a result of this, Dominion staff
3 updated the database with the new ballot ID numbers for
4 the provisional ballots only.

5 On Election Day, when the ballots at the polling 6 sites were run through the tabulators, the tabulators 7 did not recognize the ballot IDs, and therefore would 8 not scan the ballots. This is how the tabulators are 9 certified to work.

Once it was determined what the issue was, Dominion and Royal Printing worked together to update the central tabulators, the high speed tabulators that the Prosecutor spoke of, so they would be able to read the Election Day ballots at the Board of Elections office.

Voters were instructed to vote as they would normally, and that their ballots would be counted at the Board of Elections office, as opposed to scanning locally.

Just so you're aware, and Paula spoke of, the County Clerk spoke of meeting the deadline to certify, over 94 percent of the ballots were counted by 4 p.m. the next day. So in less than twenty-four hours, 94 percent of the ballots were counted.

25 We have been working closely with Royal Printing

to define an updated change management system that 1 2 ensures this will never happen again. If the County needs to make any changes after the initial election 3 has been configured, the new process will not only call 4 5 out the specific changes that have been made, it will also explicitly define what hasn't changed. With this 6 7 process improvement, we are confident that all of this will never happen again. 8

9 And I just want to reference there was some talk 10 about the test deck, why it read properly and the 11 Superintendent's Office did exactly what they were 12 supposed to do. So we create test deck to make sure 13 the system is reading the ballots accurately.

The test deck has a complicated sequence of votes, votes cast resulting in over 5000 individual ballots. So just so you understand, what we look to do with this is, if there are five candidates, you want to make sure that each location is correct. So the first candidate has to get five votes, the second four, then three, then two, then one. This sequence has to occur. So in order to do that, it generates an incredible number of ballots.

Due to the size and complexity of the test deck that is generated from the election database and the PDFs are printed by Royal Printing. Since the test 1 deck was printed from the database, the tabulators 2 recognize the ballot IDs and scan the ballots during 3 L&N, during the logic and accuracy test. So because 4 the ballots were generated from the system which had 5 the original ballot ID numbers, that's why the system 6 and the tabulators recognized that.

7 So moving forward, for the tabulation, what we're going to do is not only have the ballots that are 8 9 generated from the system, we are also going to include 10 printed ballots from the printer so they get included 11 so if we had 5000 ballots, we will have an additional 12 243 ballots, one for each individual ballot ID. So 13 this way we will be certain that not only will the 14 patterns and the result expected come out, but also the 15 ballots printed by the printer will also be scanned. 16 Do you have any questions? 17 CHAIRWOMAN MELKER: Commissioner Cimino? 18 COMMISSIONER CIMINO: Thank you, Chairwoman. 19 Can you help me understand how much counties in 20 New Jersey are you in? 21 MR. GILES: We -- well, there's a bit of a mix 22 with old equipment and new equipment. 23 COMMISSIONER CIMINO: With this --24 MR. GILES: With this system, the only other 25 county that does exactly what you guys are currently

1 doing is Essex County, and they've been doing it since
2 2020.

3 THE COURT: And is Royal Printing also the printer 4 for Essex?

5 MR. GILES: No.

6 COMMISSIONER CIMINO: So, obviously there was no 7 issue in Essex that you're aware of?

8 MR. GILES: Yeah. That I'm aware of, no.

9 The issue, and we haven't had an issue with Royal 10 Printing. They've been a great partner. What happened 11 that is different is that we made a change, and after 12 the initial file was sent and --

13 COMMISSIONER CIMINO: Who's "we"?

14 MR. GILES: So that's what I was saying, so the 15 County Clerk, Dominion and Royal had a phone call and 16 the decision was made -- so in the initial file the 17 provisional ballots were down to the district level. 18 That's how we got to that 243. On that call -- and 19 that was what was in the original file that was sent. 20 But later in that day, 2 o'clock on that phone 21 call, a decision was made because it wasn't required by 22 law to have the provisional ballots by district, that 23 they would not produce them by individual election 24 district, they would only produce those by town and 25 So that was the difference. And that's the ward.

30

lesson learned when going into a change. 1 2 And this is only the second general election that 3 Mercer County is utilizing preprinted paper ballots. So it's a new process. And, unfortunately, sometimes 4 5 there are lessons learned and we get better from that, and that is what we intend to do. And as far as I 6 7 know, this is the first time we dealt with a change and that's where the issue arose from. 8 9 CHAIRWOMAN MELKER: Any other questions? 10 COMMISSIONER STOKES: I have one. 11 CHAIRWOMAN MELKER: Go ahead. 12 COMMISSIONER STOKES: When we talk about these 13 changes that occurred, right, typically that's followed 14 up and documented in an e-mail or some type of formal 15 formalized communication whereas it minimizes the 16 opportunities for those type of mistakes to happen. 17 Did that occur in this instance? Or did we took 18 what happened on a phone call and said, okay, this is 19 what's going to be the documented change that we're 20 going to do. 21 MR. GILES: So there was a follow-up e-mail that 22 said these are the new files. Where the 23 misunderstanding was the Dominion team member who was 24 on the call left the call thinking that it was only 25 going to be the provisional ballots that were changed.

1 So when the new files came over, the staff only updated 2 the provisional ballots. They did not update the 3 Election Day or early voting ballot files.

So the early voting ballots worked okay. 4 There 5 wasn't an issue with those because the early voting was conducted with the ballot marking devices. 6 So those recognized -- those were setup and programmed by 7 Dominion using the original database. Had you used 8 preprinted ballots for early voting, you would have had 9 10 the same problem. But because the early voting 11 machines were looking at the original database, that's 12 why the ballot on Dominion printers worked and the 13 scanners were able to accurately read those.

14 CHAIRWOMAN MELKER: Commissioner Walter?

15 COMMISSIONER WALTER: Just to follow-up on that. 16 So because in early voting, they must be able to 17 recognize all 243 districts, right? Because when I go 18 in, I can go to any early voting place.

19 MR. GILES: Yes.

20 COMMISSIONER WALTER: And so those were set to do 21 that original process?

22 MR. GILES: Correct.

23 COMMISSIONER WALTER: And it was the Election Day, 24 that's why early voting worked and Election --

25 MR. GILES: Early voting worked because we used

the ballot marking devices, exactly, which were 1 2 programmed based on the original database. 3 So had we used tabulators in early voting and preprinted those, we would have run in to the same 4 5 issue. 6 COMMISSIONER WALTER: Thank you. 7 COMMISSIONER STOKES: Just for clarification, the date for the test deck? 8 9 MR. GILES: The test deck? 10 COMMISSIONER STOKES: What was that date? 11 MR. GILES: So the ballots were received on 12 October 5th. The test deck was generated on 13 October 9th. And, again, I don't want to speak to the 14 Superintendents, but my understanding is --15 MR. WALKER: We received them on the 11th, 16 October 11th. 17 MR. GILES: So they received them on October 11th, 18 that's what I have. 19 And the other issue -- and early voting started on 20 October 29th. So as discussed, you know, with the 21 changes in legislation, and you know, last year we 22 started early voting, that cut the timeline down by ten 23 days to have your ballots ready. So we had a little 24 bit of a perfect storm this year where we have a very 25 compressed timeline and then there was a change made

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 33 of 127 Trans ID: LCV2024407856

and resulted in this unfortunate situation. 1 2 But like I said, we have a plan. We're working 3 closely with Royal Printing so it doesn't happen again. 4 COMMISSIONER WALTER: Sorry. Just for 5 clarification, and that call happened when? 6 MR. GILES: October 5th. 7 COMMISSIONER WALTER: October 5th. CHAIRWOMAN MELKER: Any other questions? 8 9 MR. GILES: Thank you. 10 MS. SOLLAMI COVELLO: I just wanted to clarify the 11 timeline. Paula Sollami Covello, County Clerk. Kevin 12 Passante from Royal Printing is going to speak. 13 But I just wanted to let you know that all of that 14 occurred on the same day. So at 11:30 in the morning 15 on October 5th, we had an e-mail with the ballot 16 styles. 17 We had a call at 2 p.m. where we said we didn't 18 want to have provisionals broken down by district 19 because that was going to create more time and money 20 for all of us. It costs money when you prepare a 21 ballot style. So instead of having 243 professional 22 styles, we decided to go by town to save money and save 23 time. 24 And then at 430, the same day, Royal Printing and 25 Dominion sent an acknowledgement that they had received

all of the updates from Dominion and that they were 1 2 going to implement and reprogram based on the call. So it all took place on the same day. And that's why, you 3 know, and they did acknowledge and they were willing to 4 5 accept that, they did acknowledge that they were going to change the ballot styles and they sent us the new 6 7 styles. So something just happened, a human error took place where somebody did not make the program changes 8 that they were sent. 9

MR. PASSANTE: Good evening. Kevin Passante,
P-A-S-S-A-N-T-E, from Royal Printing.

12 And I don't want to keep everybody all night with 13 repetitive, you know, retelling of the story --

MR. HERBERT: I apologize, Mr. Passante. Can you 15 state what your position is with Royal Printing?

16 MR. PASSANTE: Sure. I'm one of the owners of the 17 company. My brother and I are partners in the 18 business.

19 MR. HERBERT: Thank you.

20 MR. PASSANTE: You know, I don't want to restate I 21 guess a lot of the things that were said here. But to 22 give you a little bit of background on my company, 23 we've been printing ballots since 1992. We are 24 contracted with ten different counties in the State of 25 New Jersey to print ballots. And we print election 1 ballots using all different machine types and voting 2 machines, and we've adapted with the changes as the 3 changes have come. So I am very familiar with the 4 process. It's not that I'm not -- I heard some 5 comments before about Essex County and not, but we deal 6 with all different types of voting machines and 7 ballots.

8 Pretty much what everyone said up here is 9 accurate. I'm the one that discovered what the reason 10 was on Election Day when I heard that there were issues 11 that the machines weren't scanning. And, you know, we 12 were hearing all kinds of theories, you know, as to why 13 they weren't working. And I said, well, you know, 14 what's going on? And we figured out that the ballot 15 code numbers were off by 225. That rang in my head 16 very clearly. I said, you know, 225 is not a random 17 number. That's the difference between the 243 and the So I immediately knew it had to do with the change 18 18. 19 that was made on October the 5th when the ballots were approved by County Clerk Covello's office. 20

Protocol for my job and our process, I think it was stated a little bit earlier, we get the information from the county clerk's office. We set up and layout all of the ballots. We get the approval of the County Clerk, who has jurisdiction over the ballot layout and 1 what the ballot looks like based on what the drawing 2 results are. They then review them for content, go 3 through them and check to make sure everyone's name is 4 spelled correctly, dates and instructions are correct 5 on those ballots. And then from there, they sign off 6 on each of the versions and say, okay, you're okay to 7 print.

8 The new procedure with these new machines that 9 were put into place in Mercer County now, as Bob Giles 10 had said, required us to code the ballots by individual 11 district so that way the county is getting the most 12 accurate district specific results.

13 So that was done on the vote by mail ballots, 14 which are the first ballots that are done because those 15 are always the first ones you want to get in the mail, 16 and those ballots were numbered like 1 to 243. Hence, 17 those ballots wouldn't have been affected by pulling 18 out any numbers because they were the first ones that 19 were produced.

Any ballots that were produced after the provisional ballots where the error happened, where there were originally 243 and the County Clerk said I don't want to spend the money for 243 of those yet if we don't have to, let's go to 18, once we did that, any ballots that would have gone after that had to be resequenced, renumbered, so that included the Election
 Day ballots.

So we then, you know, were told by Dominion, you need to re-code the whole election whenever there's a change. So we re-coded all of the ballots on October the 5th when Paula Covello made the decision that we were not going to go with 243 versions of the provisional ballot, we're going to go with 18. We then pre-coded all of the ballots.

Now my process is I send those to Dominion and say, okay, here are the ballots. So they had been sent earlier in the day before the conference call and before the decision was made to go to only 18 provisional ballots.

15 And then the conference call took place a couple 16 hours later and Paula decided that we were only going 17 to go with only 18 versions, so we were instructed by 18 Dominion to re-code. Okay. You know you're going to 19 have to re-code, Kevin, and I said yes. And then we 20 re-coded and sent them to Dominion. Dominion 21 acknowledged that they did get them; however, when they 22 reprogrammed the machines, they didn't program the 23 machines thinking that the Election Day ballots have 24 also changed. And we had changed the Election Day 25 ballots because you want to keep all of the ballots in

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 38 of 127 Trans ID: LCV2024407856

sequential number order. That's my story. 1 2 If I can answer any questions for anybody, I'm 3 happy to do so. 4 UNIDENTIFIED SPEAKER: Can I ask a question? 5 MR. PASSANTE: Sure. 6 CHAIRWOMAN MELKER: No. No. I'm sorry. We don't 7 do that. 8 MR. PASSANTE: I was talking to the panel, okay. 9 Very good. Thank you. 10 CHAIRWOMAN MELKER: Is there anybody else from the 11 election officials or vendors that wanted to come up 12 and advise us? 13 No. I think we're going to do public comment now, 14 Wayne. I have to wait and then do other comment, okay. 15 Assemblyman, since you are an elected official, I 16 am going to allow you to speak. 17 MR. DeANGELO: Good evening, my name is Wayne 18 DeAngelo. I reside at 105 Limewood Drive in Hamilton, 19 New Jersey. I'm a representative of the 14 Legislative 20 District. 21 Madam Chair, Vice Chair, County Commissioners, 22 thank you for allowing me a few moments to discuss some 23 concerns that I have, and thank you again for having 24 this hearing. 25 Myself as well brought this to the attention of

1 the Legislature on potentially doing a hearing very
2 similar like you have, so that's why I'm standing in
3 the back trying to get as much information as I can.

So we've been entrusted by the residence of Mercer County to review their representatives and make sure that their voices are heard, whether it's legislation we're passing, whether it's the things we're doing, or their vote, all right.

9 We made changes to try to make things better to 10 try to open up to allow more people the opportunity to 11 vote, different time frames to vote, but that integrity 12 has been broken. Right. We all see that.

13 I think the room, and I think the residents need 14 to figure out where that problem was because we can 15 talk a lot, and we can hear from the vendors what's 16 going on, but I don't know if the residents are 17 comfortable with that. I don't know whether the 18 discussions that take place from whether was it the 19 marker that was used, or it going into a dumpster that 20 looks like where the scanners are, is it where are my 21 votes going? How come the super scanners -- I heard 22 the term "super scanners" work, but these don't work. 23 And I've heard the explanations by the vendors, and I 24 appreciate wholeheartedly the efforts on behalf of the 25 prosecutor's office for ensuring that the votes that

1 are there now have been counted, that everyone showed 2 up on Election Day and their vote has been heard, but 3 we have to do better.

I'm willing to work with the County and your Commissioners to make sure that we are -- that everybody's vote counts. It's scary. And I hate to ray it, we made national attention that day. When I get a phone call, hey dad, we're on national attention pright here in Mercer County and not necessarily for a good thing.

Thank you. I'm going to stand in the back here and hear some more concerns. And I appreciate reverything. Thank you very much for doing this. And when we do ours at the State, I want to ask that you guys come as well as representatives to kind of give me some more feedback -- and she's typing very quickly, and I'm trying not to talk too fast here -- and make sure that every voice is heard, so thank you.

19 CHAIRWOMAN MELKER: Commissioner Walter?

20 COMMISSIONER WALTER: Assemblyman, I want to thank 21 you for coming. And I do want to say that I hope as we 22 go into these hearings, there will be a dedicated 23 source of funding for counties because the legislative 24 changes and the compression of timelines has really 25 affected the county offices that deal with elections. And, you know, it's easy some times to pass the legislation and the legislation may be absolutely accurate, exactly what we need. But I think some times the timing was off and it put additional pressure on a system that already is a high pressure system.

6 So as you go back and they do these hearings, 7 perhaps that piece can be looked at too in helping the 8 counties to have the most open fairest election we 9 possibly can.

MR. DeANGELO: Thank you, Vice Chair. And some of the things that people have said to be as well is our federal government has given that voting autonomy to the individual states. And that we here in New Jersey have taken that and given it to the counties.

You know, people said how come there's not one voting system New Jersey wide? Why is everybody potentially doing something different? Depending on who the voters are, we all know as we get set in our ways as we get older, how come my polling location has changed? How come my voting is different this time? The last time I voted it was maybe five or six years ago, it's not the same as it was then.

23 You know, I think in disclosure, I think that we 24 do need to invest more on education and information 25 getting out to people because we all know that some

> Renzi Legal Resources (609) 989-9199 www.RLResources.com

1 times it takes more than one time for the information 2 to get out there.

3 So thank you very much, and I'll be looking 4 forward to listening in the back.

5 CHAIRWOMAN MELKER: Thank you, Assemblyman.

6 Before we go to public comment, I just wanted to 7 make sure that there was no other presentation we 8 needed from the vendors or any of our election 9 officials?

All right. So as I said, we're now going to move into the public comment. So I do want to let everybody know that the public comment will be limited to one session per person with a three minute time restriction. I will be holding everyone to their three minutes as it is our policy, and we want to allow everyone an opportunity to speak.

Any formal questions should be addressed to the Chair. And please note that the public comment is not considered to be a Q and A. Questions will be noted and will be responded to in due time, as appropriate. We do have a court stenographer here in attendance so that we will be able to record accurately all of the public comments and any questions.

24 So I will begin --

25 MR. HERBERT: Madam Chair, if I may?

Renzi Legal Resources (609) 989-9199 www.RLResources.com

43

1 CHAIRWOMAN MELKER: Certainly. 2 MR. HERBERT: If you feel an urge to call out, 3 please don't. This young lady hear is the most important person in the room. She's taking down 4 5 everything that's being said. If you call out, she cannot record who's making a statement up here. 6 You 7 know, anything like that, please try not to do that. We really would appreciate it. 8 9 Thank you. 10 Oh, yes. When you come up, name and address, and 11 please spell out your last time for the young lady 12 here. 13 CHAIRWOMAN MELKER: Okay. So the first person I 14 have is Patricia Johnson. 15 MS. JOHNSON: Hi, I'm Patricia Johnson. That's 16 P-A-T-R-I-C-I-A J-O-H-N-S-O-N at 285 Manor Boulevard 17 in Yardville, New Jersey. 18 I have many things that I want to say, but the 19 first things that I want to question is some things 20 that the prosecutor said. He stated that the tags were 21 on the bags when they counted them at the site. I was 22 there. They were not all on the bags when they pulled 23 them out of the voting machines. So I'm not sure who 24 gave them that information, but I was there for every 25 session.

1 The other thing I wanted to say was they said that 2 there were three bags they came in from Princeton, 3 Stephanie Reichardt, who is here, as well as myself were there that night. Three bags did not come in 4 5 empty. Two bags came in. One was full, one was partially full, and one was missing. He came in in an 6 Uber. He stated that the third bag was going to be 7 coming. We waited. We did not see it come. 8 That bag 9 -- so one bag was untagged, and one bag was tagged. 10 That's one thing.

And that leads me to saying that integrity is about doing the right thing regardless of circumstance and convenience of any alliance or party. When election integrity is compromised, voters who know their votes matter are disenfranchised out of fear that their votes will not be counted, and that is not what happened. This is not just about the machine, it is about the process that happened throughout.

I happened to decide to follow this election
because I'm going to be running the next time and I
wanted to see what the election went like. Well, I am
very, very upset with what I saw.

I happened to be at the voting sites when they went down. I saw it. I heard it. I spoke with Severn from Dominion early in the morning at 9:11 to be exact, 1 and he told me the machines would not be up the rest of 2 the day.

Now, I want to say something, Mary that works in Elections told Christopher Luca, he's a legislative aide, that the machines could have been up in the afternoon but that she made the decision that that wasn't going to happen. So I'm not sure where all this goes, but I know that that could have happened.

9 Now, in saying that, we have a lack of integrity 10 when you have machines that are opened during the day 11 and the tags are taken off and votes are put on the 12 floor, and we have pictures of that.

I was at the site when they brought bags in and there were 17 bags in total that were untagged. Some of them were brought in by one person. Some of them were brought in 45 minutes apart by two people from the same site and they were unopened. It's not appropriate. Where is the chain of custody?

This is all about the chain of custody. It's not about the machines alone. It's about everything that happened from beginning to end. And I happened to be at each and every one of those things to see it.

23 So I feel that there's so much more that you need 24 to discuss and that we need to think about because it's 25 not fair to the people. We -- I do not believe -- I am

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 46 of 127 Trans ID: LCV2024407856

somebody who believes in our election process, but I 1 2 believe in integrity. And if we don't show the people 3 in New Jersey --4 CHAIRWOMAN MELKER: Thank you. The time is up. Donald Ober? 5 6 MR. OBER: I'm her brother. 7 Donald Ober, 14 Englewood Boulevard, Hamilton Township, New Jersey. O-B-E-R. 8 9 With all due respect to everyone here, I think 10 those of us that are concerned about the integrity of 11 the election are chasing the wrong rabbit. 12 I don't even care about the machines at this 13 point. And with all due respect to the prosecutors, I 14 believe they probably did a very good job. 15 However, what happens after that is so important 16 for you to gain the trust of the public. When I go to 17 my polling booth and I see a democrat watcher there and a republican watcher there, I feel safe. 18 I feel my 19 vote matters. However, at the end of the night when I 20 hear that 17 bags left polling places untied in a car 21 that didn't have a republican and a democrat in charge 22 of them, the chain of custody no longer exists. 23 Anybody here that's worked in any kind of legal 24 proceedings knows that if you brought in evidence in a 25 criminal case and the chain of custody was broken, if

1 that evidence was sealed by the time it got to the 2 police station it was opened, it would not be 3 permissible. I do not understand why these votes were 4 allowed to continue and why this chain of custody --5 that's the main issue that we have -- that I have, I'm 6 sorry. I won't speak for anybody else. But that's the 7 main check I have.

8 Because from what I know, and before you get to it 9 I know one answer is going to be let's just say for 10 instance 500 votes went into the bag, 500 votes were 11 delivered. That does not mean the same 500 votes that 12 went in there are the same 500 votes that went out and 13 were tabulated because the chain of custody was broken 14 because the tags were broken. So you do not know 15 whether somebody pulled them out and put something else 16 in. You only know that you got the same exact number 17 of votes that supposedly went into the machine.

18 There's been a lot of talk this year about danger 19 to democracy, threat to democracy. Not trusting the 20 election system is the threat to democracy. And I 21 cannot trust this election.

22

CHAIRWOMAN MELKER: Lisa Richford?

MS. RICHFORD: Good evening. Lisa Richford, 37
Burnside Avenue, Hamilton, New Jersey. I am the Mercer
County Republican Chairwoman, and I've been a

1 challenger for 31 years. I've been Chair for ten 2 years.

3 So with that, I'm not an election theory 4 conspirator or an election denier. I'm here not as a 5 republican or a democrat. I'm here as a voter and 6 what's occurred at this election this time.

7 This should be -- and the single biggest issue 8 right now is corrupt elections. And we don't talk 9 about it. But they are corrupt here in Mercer County. 10 Mercer County made World News Tonight. Voluminous news 11 sources, articles, radio coverage. I mean, we were the 12 only place where every single machine went down. I had 13 fielded hundreds of calls.

I'm going to try to speak quicker because I know I've been -- the sheriffs were called on me before when I was here. On July 1st of 2021, we were asked to come to an emergency -- well, we weren't asked. We were surprised by an emergency meeting that was here to approve \$3.5 million. 2.5 million -- or you were asked, 2.5 million for Dominion and 1 million for Tenex. Is Tenex here? They received a million dollars.

And those were supposed to be questions about the process and procedures that never occurred that evening, process and procedures and safeguards, 1 protocols, best practices, none of that. It was pushed 2 through. We were shamed here. The republican party, 3 democrats, members of the voting community, we tried to 4 ask questions. We were not entertained to any 5 questions. We weren't allowed to ask any questions. 6 We were given the three minutes.

7 This is an unprecedented travesty this election. 8 And this was a part where there was definitely election 9 disenfranchisement, suppression of the voters, people 10 left. And as far as being asked, there was no 11 republican representation and the superintendent of 12 elections office.

I have to say with County Executive Hughes, there is a system. It's a tri-party system here, and most people don't understand it. And there is a Chair for the dem's and the republicans.

17 I have been trying for five years. The first 18 three trying to replace a holdover, a holdover 19 Superintendent of Elections, who when they're so 20 entrenched and in the pockets of the parties that 21 compromised employees, which I brought to the attention. Mr. Giles, before he became an employee of 22 23 Dominion, worked for the Director of the State of New 24 Jersey. And I've also brought these things to the 25 attention of also the DAG George Cohen. When I brought

election interference issues in they've been dismissed. 1 2 This is why there is no election interference -- I 3 know. I'm coming close. My time is for three minutes. CHAIRWOMAN MELKER: Yes. 4 I'm sorry. 5 MS. RICHFORD: There's so much more to talk to about here. But I'll tell you right now, there is no 6 7 republican representation for this election. It has been met with senatorial courtesy blockage, and we have 8 9 nobody in there with eyes --10 CHAIRWOMAN MELKER: I'm sorry. We do have a lot 11 of people --12 MS. RICHFORD: But there's no republicans there 13 pursuant to the statute. They're required. That 14 didn't happen, and there hasn't been anybody there for 15 a year. And I think the public should need to know 16 that. 17 CHAIRWOMAN MELKER: Thank you. 18 COMMISSIONER WALTER: Just for the public record, 19 I believe the person that was in holdover in the 20 superintendent election was appointed as a republican 21 and in that holdover position as a republican. 22 And I believe in the superintendent's office, we 23 had a resignation that occurred right before the 24 election, and that person was the Republican Chair of 25 the Board of Elections who resigned. I don't want to

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 51 of 127 Trans ID: LCV2024407856

get into a back and forth --1 2 MS. RICHFORD: Okay. Well, there's more to it 3 than that. There's much, much more to it than that. And I just wanted to make that clear. 4 5 MR. HERBERT: Thank you. Thank you. 6 MS. RICHFORD: But that has been blocked for 7 five years. That republican shouldn't have been in there. 8 9 MR. HERBERT: Ms. Richford, we have to allow other 10 people to speak. 11 MS. RICHFORD: And this administration knows that. 12 MR. HERBERT: Thank you, Ms. Richford. 13 CHAIRWOMAN MELKER: Don Staley? 14 MR. STALEY: Don Staley, S-T-A-L-E-Y. Good 15 evening. Thank you for the opportunity --16 MR. HERBERT: Sir, your address, please? 17 MR. STALEY: Oh, I'm sorry. It's 7 Valley View Court. That's in Hamilton. 18 19 MR. HERBERT: Thank you. 20 MR. STALEY: I just have a couple of questions, 21 and then I just have a comment. 22 So, just for the record, I'd like to find out how 23 can one find out or review who voted in the mail-in 24 ballots by municipality? 25 Number 2, the mail-in ballots were received by

1 whom? Whom actually received those ballots?
2 Number 3, who counted those ballots once they were
3 received?

4 Number 4, were both parties republican and 5 democrats, were they present when those ballots were 6 received and counted?

7 So I don't expect an answer now. I understand 8 that those will be forthcoming.

9 But I just have a comment, just listening to 10 Dominion and Royal Printing. I spent over 30 years in 11 technology sales. And I know that typically that every 12 contract that we had, there was always a provision 13 called a service level agreement, an SLA.

Because, typically, whenever something happens and it goes sideways, it doesn't work the way both parties expected, there's penalties that are paid.

And we never, in all the time that I've done this, we've never had a situation where both parties can say it wasn't our fault. We always looked at the situation. We did an analysis of the situation and came to an agreement that someone had to pay for the errors that were committed, whether it was technology, whether it was something that wasn't done properly. And I'm just saying that I'm hoping that the agreement that our county had entered into with

Dominion and Royal Printing, there was a SLA 1 2 incorporated into that contract. Because, quite honestly, as a taxpayer, I'm hoping that there's 3 something that we can go back and not only ensure that 4 5 this doesn't happen again, but to make sure that to 6 really help to bring back the voter confidence that we can say, you know, we're going to hold someone 7 accountable. You know, we used to call it "one throat 8 9 to choke," because we want to make sure that somebody 10 pays for what happened. Because like I said, in any 11 situation there's never been a time where people can 12 be, you know, held unaccountable.

13 So I just wanted to bring that forward and offer 14 my two cents based on my experience. And, again, I 15 want to thank you for the time to pose these questions 16 and give these comments.

17 Thank you very much.

18 CHAIRWOMAN MELKER: Thank you. Mark Byrne?

19 MR. BYRNE: Thank you all.

20 My name is Mark Byrne, B-Y-R-N-E. I reside at 251 21 Extonville Road, Allentown, New Jersey. I'm a Hamilton 22 resident.

And I want to thank everybody for being here
tonight. Assemblyman DeAngelo, who's a friend of mine,
I want to thank him for being here. I echo his words.

1 And so many people in this room, I echo exactly what 2 their concerns are and frustrations.

And as Don Staley said, you know, I'm in business for myself. And if I made a mistake on this magnitude, heads would roll. There would be penalties to be paid. And if the State is not going to hold Dominion accountable -- and what I'm hearing at the ground level with people and what's going on in the country with Dominion, Dominion has to go.

10 Their voting system stinks. We should go back to 11 the old lever style. You had the results right then 12 and there that night. There was no chain of custody to 13 worry about because everything was on the back of the 14 machine. When I was a kid, the local policeman took --15 MR. HERBERT: Sir, you cannot speak out. Please. 16 Thank you.

MR. BYRNE: So, in any event, the local policeman, I grew up in Hightstown, followed the ballots, you know, there was a chain of custody. And I'd have to say exactly what this young lady said, the chain of custody was broken in so many ways. Whether it was negligence, you know, neglect, corruption, I don't know.

But it really begs the question and people lose confidence. And I can tell you, people down on the 1 streets, people are not voting because they don't think
2 their vote counts. And you want to disenfranchise
3 voters, continue to let this happen and people will be
4 disenfranchised because we're losing faith.

5 One thing about Dominion that I think should be 6 brought up, and you know, there's a movie made about Big Pharma. It was Perdue Pharmaceutical. And they 7 8 had people in the FDA that were in cahoots with them 9 and people from the FDA went into Big Pharma. There 10 was a movie made of it, the opioid crisis. And they 11 harmed a lot of people because of it because they were 12 doing things illegally. That, in my opinion, is what 13 could happen with Dominion. They got to go. Dominion 14 is -- the gentleman that was a representative from 15 Dominion, he was a local politician. That's a conflict 16 of interest. Big conflict. Dominion has to go. I'm 17 telling you what people feel on the streets. It's sad.

And I trust people like Wayne DeAngelo in the back heaving because I know him. And I trust most of the people in this room are probably decent people. But what people perceive is what they -- that is their truth. And what people are perceiving is there's corruption. That's all. Thank you.

CHAIRWOMAN MELKER: Darius Mayfield?
MR. MAYFIELD: Hello. I'm Darius Mayfield. I was

Renzi Legal Resources (609) 989-9199 www.RLResources.com

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 56 of 127 Trans ID: LCV2024407856

actually the republican candidate for congress here in 1 2 the 12th Congressional District. 3 MR. HERBERT: Sir, your address? MR. MAYFIELD: Darius Mayfield, 28 River Road in 4 5 East Brunswick, New Jersey. 6 I have a question over here. How many people feel more confused --7 8 Sir --MR. HERBERT: 9 MR. MAYFIELD: -- about who's responsible for --10 MR. HERBERT: Sir --11 MR. MAYFIELD: -- this than they did when --12 MR. HERBERT: Sir --13 MR. MAYFIELD: -- they first got here? 14 MR. HERBERT: Mr. Mayfield? Mr. Mayfield? 15 MR. MAYFIELD: Does anybody feel more confused? 16 Mr. Mayfield, address the County MR. HERBERT: 17 Commissioners. 18 Well, so do I, all right. MR. MAYFIELD: So do I 19 because this was an embarrassment of epic proportions 20 in this district. And everybody's already said this 21 was a national embarrassment, not just a countywide 22 embarrassment here in Mercer County. 23 We still don't know who's responsible. Who's been 24 fired? Who's going to be held accountable for what 25 happened? As most people have said, if this happened

56

1 in my line of work or your line of work, heads would 2 roll. People would be responsible. So who is 3 responsible here?

You know, Mr. Hughes said something, and this was, this was a form of voter suppression. Especially in places like Trenton, New Jersey where me, personally, did a lot of work hear in Trenton, New Jersey, specifically in Trenton, New Jersey.

9 And this wasn't just about the machines. We 10 witnessed people campaigning within a 100 feet of 11 voting stations. We witnessed people working the 12 elections taking ballots out of machines and putting 13 them back in. As one person said, we have pictures of 14 the electors at these polling stations taking them out 15 and putting them on the floor. They are there. There 16 is real proof of this.

Over the last two years I've heard people, like people on this Board call people like myself and other constituents domestic terrorists, conspiracy theorists. And then all along for it to come back to this county here where I'm running for this to happen on the day of the election where every single voting machine in the entire county, the only county in the United States of America that this happened. And I know you got the smirks on your face, whatever it is, I'm used to it.

But, again, whose head is going to roll? Whose fault 1 2 is this? Where I come from in the automotive industry, in politics, and these things happen, mistakes happen, 3 somebody is held responsible. What we hear right now 4 5 is it's not Dominion's fault, right. It's not the county's fault. It's nobody's fault. 6 So whose fault is it that every single machine -- not one, not two. 7 It wasn't just that. We had the change of custody 8 9 broken at multiple places. In Robbinsville. Ιn 10 Princeton. We know these things. We had people 11 campaigning outside of voting stations. We had people 12 taking ballots out. I had to personally go to the 13 county clerk's office on the day of election and let 14 them know that in the Donnelly Homes in Trenton, New 15 Jersey they weren't allowing people in and sending them 16 Is that legal? Because they didn't think so. away. 17 They had to make a phone call up there to make sure 18 they reopened the doors.

I went into the project in Trenton, New Jersey. I
went into Plainfield, New Jersey and talked to these
people. And we noticed where we did a lot of these
things the voter turnout was much lower. Here in
Mercer County we're looking at a 17 percent voter
turnout right now. So this did more than just destroy
confidence. It completely destroyed our election.

This is embarrassing. Embarrassing. And an 1 2 embarrassment to epic proportions. And I really 3 implore you all to take this seriously because as you can see from the crowd here people are not happy. 4 Ι 5 don't care if they're republicans. I don't care if 6 they're democrats or independent. That's the message 7 right now. It doesn't matter what party you come from, there was clear negligence here. There was clear 8 9 incompetence here from the people that sit on this 10 board from the people who run our elections here in 11 Mercer County, and you need to get it together because 12 if you don't, we will for you. 13 CHAIRWOMAN MELKER: Commissioner Walter? 14 COMMISSIONER WALTER: Yes. As we said, we will 15 address the issues at a later date. 16 But there was a comment made that a member of this 17 board called you, sir, a domestic terrorist. I don't 18 19 MR. MAYFIELD: That's not what I said at all. 20 That was not actually what I said at all. And that 21 stuff is not what I said at all. And if you were 22 listening, you would have heard what I said and that 23 wasn't it.

24 MR. HERBERT: It's right on my notes right here.
25 MR. MAYFIELD: I said boards like yours have

Renzi Legal Resources (609) 989-9199 www.RLResources.com

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 60 of 127 Trans ID: LCV2024407856

called people domestic terrorists and called them 1 2 conspiracy -- boards like yours. Not --3 COMMISSIONER WALTER: Can you read back the line; 4 is it possible? 5 THE COURT REPORTER: It's going to take some time. COMMISSIONER WALTER: Oh, okay. No problem then. 6 7 MR. MAYFIELD: Please do. 8 COMMISSIONER WALTER: We will check the script. 9 MR. MAYFIELD: How convenient is that? How convenient is that? 10 11 COMMISSIONER WALTER: I'm not going to get into 12 that. But I'm hoping --13 MR. MAYFIELD: How convenient. Like every time, 14 how convenient. 15 MR. HERBERT: Sir? Sir, let her speak. COMMISSIONER WALTER: In this room --16 17 MR. MAYFIELD: Not if she's going to lie. Sir? 18 MR. HERBERT: 19 MR. MAYFIELD: Not if she's going to lie. 20 Sir, do you need to be escorted out? MR. HERBERT: 21 MR. MAYFIELD: Not if she's going to lie. 22 MR. HERBERT: Sir, stop --23 COMMISSIONER WALTER: In this room --24 MR. MAYFIELD: We have --25 MR. HERBERT: Stop.

1 UNIDENTIFIED SPEAKER: You tell him to stop. 2 MR. MAYFIELD: Exactly. 3 COMMISSIONER WALTER: In this room and this board at this table, we spend a lot of time trying to be 4 5 civil in our discourse. We try not to call names. 6 MR. MAYFIELD: I didn't. 7 COMMISSIONER WALTER: We try not to say things that in any way degrade the public. 8 9 MR. MAYFIELD: I didn't. 10 COMMISSIONER WALTER: And we hold open meetings 11 like this one even when the issues are not necessarily 12 those of this board. So I just would like to keep us 13 functioning at a civil level. 14 UNIDENTIFIED SPEAKER: He was civil. 15 MR. MAYFIELD: I thought I was pretty civil. COMMISSIONER WALTER: And not have it said that 16 17 "boards like this," implying this board, would use that 18 kind of name-calling. We simply don't do it here. 19 CHAIRWOMAN MELKER: Okay. Yamira Sin. I'm not 20 sure if I'm saying it right. I apologize. 21 MS. SIN: Good evening. Yamira, Y-A-M-I-R-A, Sin, 22 S-I-N. Actually, I'm a New York resident. 215 West 23 131st Street, New York, New York 10030. 24 So basically I just have a statement. Obviously I 25 can't vote out here in New Jersey. But as a die hard

> Renzi Legal Resources (609) 989-9199 www.RLResources.com

1 New Yorker, I ran Darius Mayfield's campaign,

2 regardless of party affiliation because I believed in 3 him and I followed him as we travelled, today all the 4 way from New York to be heard.

5 The only comment I have to say is I thought New 6 York had it bad. Jersey, I feel bad for you. And I 7 think thinking ahead of the next generation to come, 8 what are you going to do differently for the next 9 generations to come?

10 You know, I heard all the stories about mistakes 11 with technology, but people are the ones who truly vote 12 and their vote counts. So I hope, I hope that in the 13 next few elections, New Jersey gets it right.

And as for Darius Mayfield, he is the most hard working man that I know. I've known him for ten years outside of politics. This is my first time really following a political campaign. And integrity is everything. You heard it here tonight, and I hope that you will take action, and in the next election let's get it right. So thank you for hearing me.

21 CHAIRWOMEN MELKER: Thank you.

22 Mike Cipriano?

23 MR. CIPRIANO: Good evening, Commissioners. My 24 name is Mike Cipriano. That's C-I-P-R-I-A-N-O. 18 25 Hilltop Place, Robbinsville. I am the current Council 1 President in Robbinsville, and I'm here to make a 2 statement tonight on behalf of myself, Mayor David 3 Fried, and the rest of the Robbinsville Council.

It goes without saying that Election Day the past two years have not gone as planned for any of us. This is not the time in our country where we can afford any mishaps when it comes to the integrity of elections. And we've now endured these mishaps in back-to-back election cycles.

10 The reports we've received from poll workers have 11 not been encouraging, and serious questions about the 12 chain of custody of ballots have been raised in those 13 in the field that evening.

We have received unconfirmed reports about bags containing ballots arrived open, thus rising at least possibility of tampering. The whole idea of sealing the bags before they leave the polling station is so this does not happen.

Moreover, ballots being left inside the machines 20 is utterly unacceptable and shows a complete lack of 21 proper training.

We also find it highly embarrassing that because We also find it highly embarrassing that because of the large size of the ballots, almost everyone in the room paying any sort of attention can see a person's ballot choices as they walk over to put those 1 ballots into the scanner. The whole concept of voting 2 is that it's supposed to be private and secure. These 3 ballots are so large in size, even the election 4 challengers sitting in the room can possibly see who 5 someone voted for. For us, that is unacceptable.

6 The election process in Mercer County needs to be 7 open, transparent, and public training of poll workers 8 needs to be a priority. We certainly are not 9 suggesting that there were anything nefarious at work 10 here. But this is the second year in a row that Mercer 11 County has taken a hit on a day we can all agree is the 12 Superbowl of events on a government calendar.

As for communications, they were poor to say the least. The most honest communication we received was the one our clerk, Michelle Siegfried, received at approximately 4:30 p.m. from the County Clerk on Wednesday, November 9th, informing her via telephone that our District 5 ballots had gone missing.

Again, this goes back to deep concerns over chain 20 of custody. The ballots were obviously misplaced, but 21 not one person from the Board of Elections ever came 22 back and explained to us what happened, when or why.

Even worse, in none of the hardworking and diligent employees in our clerk's office or any of our elected officials received a call that our ballots were 1 located. Once we found out the ballots were misplaced, 2 we almost immediately informed our residents, just as 3 we did an hour after polls opened telling them very 4 early the process that there was a problem with either 5 the ballots or the machines.

6 Although we did not hear from the Board of 7 Elections, we did receive calls from other mayors 8 throughout the county that our ballots were found. How 9 could a handful of mayors find the time to call us, but 10 no one from the Board of Elections thought to extend 11 the basic courtesy.

12 We can even argue that it was a requirement 13 considering the circumstances. If you -- okay. Excuse 14 me. I don't want to take any more of your time. I got 15 a little bit more to go, but thank you for letting me speak tonight. And, again, I think chain of custody is 16 17 definitely one of the major issues. Thank you. Have a 18 great evening.

19 CHAIRWOMAN MELKER: Thank you.

20 Michael Shaffer, S-H-A-F-F-E-R? Are there people 21 that are downstairs that are coming up?

22 MR. HERBERT: We can hold that spot open and then 23 go to the next person. So we'll hold that open. 24 CHAIRWOMAN MELKER: Okay. Jeremy Whaley?

25 MR. WHALEY: All right. Hello everyone. Last

1 name, W-H-A-L-E-Y. 54 Western Avenue, Apartment 5, 2 Ewing, New Jersey. I am the Ewing Township Republican 3 Committee Chairman. And I'm just here to share what 4 many of our people felt there in Ewing.

5 We were gravely disappointed with the events of 6 this past election. It was an unmitigated disaster to 7 say the least. There were ballots missing for days 8 unaccounted for. Machines with ballots left in them, 9 and much more confusion over what was happening. And 10 some of these questions answered just today, weeks 11 after the election.

Every time a question was answered, more questions arose. What happened this past election, as many people have here said, has broken the confidence of all of the voters and has brought many more concerns forward.

17 This isn't a matter of democrats versus 18 republicans, but a matter of ensuring the backbone of 19 our society, of American society, remains intact.

20 Many people were frustrated and felt that their 21 votes didn't count. People were worried that their 22 ballots were lost or won't be counted. And they've 23 seen pictures or witnessed firsthand, ballots on the 24 floor. The poll workers organizing the ballots, okay, 25 well, you're District A, you're District B, separating 1 them just to find out that they don't need to separate
2 them. Again, unmitigated disaster.

Confidence was damaged. And we have to ask ourselves, are elections truly safe and secure, or do we have to worry about integrity every time we go to vote? And the answer is clear, election integrity matters. And we must demand more of our election officials so this doesn't happen again. There needs to be a restoration of trust in the process.

10 And, unfortunately, as many have said, again, 11 there isn't a clear, oh, well, this right here, that 12 right there. It's still not clear, not crystal clear. 13 And we have many, many different aspects to our 14 election that control it.

15 The Board of Elections, people were complaining, 16 challengers, that the board workers weren't trained 17 well enough to know what to do with emergency ballots.

I walk in around 6:30 in the morning. I have a regular ballot, but I have to fold it up and put it in a provisional ballot envelope. And that started the confusion at the very beginning of the day.

The Board of Elections run and lead by political appointees, which the blame was squarely placed on Democrat and Republican County Chairs if these people weren't doing their jobs.

1 The ballots were not printed right, which is under 2 the county clerk's purview, and outsourced to Royal 3 Printing, who spoke earlier today. The use of Dominion, which was a decision made by the County 4 Commissioners. So it's not easy to point just one 5 6 finger, you, you or you. It's a whole combination of 7 different factors. And we really do need to step back, reassess what we're doing, continue to have this open 8 9 dialogue and transparency. Reassess what we're doing. 10 And as I heard some people say, we might even need to, 11 in order to restore the trust, redo the election. 12 Thank you. Something to think about. 13 CHAIRWOMAN MELKER: Eva Kaplan? 14 MR. HERBERT: And if Michael Shaffer does come in 15 the room, just let us know. 16 CHAIRWOMAN MELKER: Okay. Is Joy Tozzi here? Ι 17 think she might have left, right? 18 Cherie Garrette? 19 MS. GARRETTE: Hi, Cherie Garrette, City of 20 Trenton. 21 MR. HERBERT: Ms. Garrette, if you can just spell 22 your last name and give us your address? 23 MS. GARRETTE: G-A-R-R-E-T-T-E, 1 Bruce Park 24 Drive, Trenton, New Jersey. 25 CHAIRWOMAN MELKER: Hold the time.

69

1 MR. HERBERT: Thank you.

MS. GARRETTE: This forum here probably should have happened some couple of weeks ago. I'm glad it is happening. But to restore confidence, I think in our election process here in Mercer County, I think it absolutely has to have a redo.

7 I feel that the reason for having this right now 8 is to say that we're doing something, we're 9 communicating with the Mercer County community and 10 residents and registered voters. But this is -- the 11 only way you're going to restore it is do a redo.

And I concur with most of all the other speakers that came up here. I did look into this a little bit, and from my understanding, in order to have a redo, even though some of the bags weren't sealed and secured, from my understanding, that's not enough to do a redo. So I guess that's one of the reasons why, you know, you're hearing this.

But one thing I can say, the reason it calls for a redo is that we don't even know if the super scanner as you spoke of earlier actually credited or applied the correct votes to the right candidates. That is really the main thing that's in question which is why I'm saying a redo.

25 A number of people had -- so many people that

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 70 of 127 Trans ID: LCV2024407856

1 endorsed them and backed them and wind up -- and I know 2 this is not a reason to have a redo, but they had more 3 support, voter support at the polls behind them, and 4 they didn't receive that support. And I say that for 5 myself as well.

6 So I think there has to be a redo because of that 7 fact. Because of the dysfunction with the scanners not 8 reading, the whole thing with the mistake with the 9 printer, and with Mercer County, that's on you, 10 December 13th, instead of just having a runoff, just 11 have a whole new election. That way you can restore 12 the confidence and do the right thing, if you want to 13 do the right thing.

14 CHAIRWOMAN MELKER: Jeff Hewitson?

MR. HEWITSON: Good evening, Chair, Vice Chair,
Commissioners. Jeff Hewitson, H-E-W-I-T-S-O-N.

MR. HERBERT: And, Jeff, if you could just give 18 your address?

MR. HEWITSON: 33 Sedona, S-E-D-O-N-A, Boulevard, 20 Hamilton, New Jersey 08691.

A lot of good comments tonight, a lot of goodspeakers. I can assure you I'm not one of them.

23 MR. HERBERT: You're a really good basketball ref,24 I know that.

25 MR. HEWITSON: But I want to make three points,

1 and one is a question. And I don't know if I'm going
2 to get an answer or not. But is it legal to harvest
3 ballots in New Jersey? That's question number one.

Number two, as far as whose responsibility it is,
the Mercer County Clerk, Royal Printing, or Dominion?
I think the County Clerk clearly did her job. I think
the printing -- it's my opinion, I think the printing I
think did their job.

9 The problem is with Dominion, and everyone that 10 runs a business or is working for anybody knows, you 11 got to have QC. You got to have quality control.

Where the quality control went wrong is the gentleman for Dominion who got word of the change, what he should of done was he should have e-mailed everybody that was involved in that process and asked for them to confirm that they got the e-mail. And if he or she, or whoever is in charge, done that, we probably wouldn't have this problem.

And the other thing I wanted to say, and it's been and the other thing I wanted to say, and it's been and so much so, ad nauseam, but you know, the chain of custody was nonexistent. I've seen so many things that went wrong in person. I was there with Pat Johnson. I and the go through everything else because it's been said already.

But I hope we get it right. I'm glad Assemblyman

25

DeAngelo came. I was really pleased what he said. 1 Ι 2 hope you people, in fact, I know you people will work with him to get it right. I'm looking forward to the 3 next election. But we still need to hold somebody 4 5 accountable for all the mistakes that happened in this election. Thank you. 6 7 CHAIRWOMAN MELKER: Taiwanda Terry-Wilson? MS. TERRY-WILSON: Good evening, everyone. 8 Μv name is Taiwanda Terry-Wilson, and I am here from the 9 10 great City of Trenton, New Jersey. I have three 11 questions --12 MR. HERBERT: Ma'am, if you can just spell your 13 last name for the young lady here? 14 MS. TERRY-WILSON: I can. It's T-E-R-R-Y-hyphenated-W-I-L-S-O-N. 15 16 MR. HERBERT: Thank you. And your address? 17 MS. TERRY-WILSON: 817 Revere Avenue, and that's 18 in Trenton, New Jersey. 19 MR. HERBERT: Thank you. 20 MS. TERRY-WILSON: So I have three questions. 21 The first question is, if the span was very narrow 22 between production and Election Day, why was the change 23 necessary? Was it a necessary change, or was it a 24 preference? 25 The second question is, since this was a "little

1 human mistake" that has a major impact on the lives of 2 many people, especially throughout the great City of 3 Trenton, what is our solution?

4 So when we start to talk about what we're going to 5 do in the future, what happens to this election that 6 just currently took place?

7 And I am not speaking as a candidate on the ballot 8 who lost. Because I lost an election before. I won my 9 general seat. I won my primary seat. I won my 10 committee seat. And I lost the running by five votes, 11 so I'm not a sorry sport.

I am here to speak about the things that I saw on Election Day. I, myself and my family went to go and vote. When I walked into my polling place at Trenton Central High School, there was only one person working for my district. She advised me that she did not have the machine, which was the keypad, to look and pull up so I went live and I left.

Because I don't like shirking my responsibilities, I didn't go far from the parking lot, but I came back in within the next half an hour, 45 minutes to see if there had been an update.

There was a person from the Board of Elections, I think he was a master board worker. And he was kind 1 enough to take my calls, and take my concerns, and he 2 did some background information and some searching. 3 And once he got his answer, he went to the poll worker, 4 he called me back over, and he pulled us over to the 5 machines that had been sitting there all morning.

6 The girl's laptop was inside the machine. It was 7 inside the bag. So what I'm saying is, have people 8 been trained? I know that we offer training. But are 9 they being properly trained? And then what is the 10 character, disposition and demeanor of the people who 11 are working there?

12 My son is disabled. He doesn't have thumbs. So 13 there was a poll worker there who was disabled. And 14 she almost got into a fisticuffs with my son-in-law and 15 my daughter. And the only thing they did was stand in 16 line to ask, you know, they were getting ready to vote, 17 and she asked for their name. But it wasn't how she 18 asked -- it wasn't what she asked, but it was how she 19 asked, and she became combative. We almost had a fight 20 there. We didn't have calm heads and people who were born with morals and values that know how to 21 22 deescalate. They would have turned away and not voted. 23 That was two people. I was the third person who almost 24 didn't vote.

And then I got word that at the end of the night

25

1 there were people who were taking bags back that were
2 not properly locked. You know, we just have too many
3 inconsistencies.

So I understand that we are looking to see what we can do in the future, but we need to find out and look into this.

7 And, lastly, Trenton hasn't been getting a lot of 8 coverage. I hear a lot about -- no disrespect --9 Princeton and Lawrenceville. But there were major 10 issues inside of Trenton. And what I would like to 11 know, as a at-large council person, I want to know if 12 the state law is going to prevail and we have, since no 13 one got 50 percent that won the vote, are we going to 14 go with the state law, or are we going to go with the 15 Faulkner Act that says you take the top three?

And, lastly, from everything I've worked in equal employment, state law always supercedes any policy because they must conform.

19 Thank you.

20 CHAIRWOMAN MELKER: Skye Gilmartin?

21 MR. HERBERT: Folks, if I can ask everyone a 22 favor, if you can allow the person to speak, hold your 23 clapping to the end if you want to clap for them. If 24 you do it during it, it makes the speech longer, and 25 she can't take down the words that they're saying. Thank you very much.

1

2 MS. GILMARTIN: Skye Gilmartin, S-K-Y-E
3 G-I-L-M-A-R-T-I-N. I live at 38 Powell Court in
4 Heightstown.

5 I want to follow-up on a lot of what the last 6 speaker said. My biggest concern that day was the poll 7 workers. They -- everybody here is having a bad time 8 with this election, but those people had the worst day 9 of their lives. And we have a shortage of poll 10 workers. We have a hard time getting people to do that 11 job. And they had an awful morning. And then at the 12 end of the day, they had an awful day.

I was at quite a few sites. From one site to the next, nobody knew what they were doing at the end of the day. They were all following different procedures. And that goes to the whole chain of custody issue. People had a hard time getting ahold of their clerks. Hey had a hard time getting ahold of their county. And people just did not know what they were doing from one end of the day to the next.

So I would like to know what their minimal training actually is, and if something is going to be remedied in the future to better prepare people to deal with the major malfunction like we had today.

25 That's all.

1 CHAIRWOMAN MELKER: Thank you. 2 Andrew Curcio? 3 MR. CURCIO: Hello. I'm Andrew Curcio. I reside at 3215 Nottingham Way, Hamilton, New Jersey 08619. 4 Ι 5 just have --Sir, if you could just spell your 6 MR. HERBERT: 7 last name? 8 Curcio, C-U-R-C-I-O. MR. CURCIO: 9 MR. HERBERT: Thank you. 10 MR. CURCIO: So it's not really a question -- but 11 it is for Dominion, or who was involved with this. But 12 my biggest question is why weren't the machines checked the night before? Where I come from, where I work, you 13 14 know, when you do something, something new, you 15 definitely check the machines the night before to see 16 if they're all working. 17 On other notes, when I know I went to vote I felt 18 like anyone could persuade me. Because where it was, 19 you were sitting out there, out in the open. Anyone 20 could come up to you and say, Hey, you know what, I 21 don't like that guy. I like this guy. I felt like we 22 had no privacy. 23 I don't know why this was changed at all. I would 24 like to know why the system was changed in any kind of

sense. I just felt like anybody could tamper with this

25

1 system because you're out there, out in the open. And 2 you got your republicans out there, you got your 3 democrats out there. Anything could happen.

I also feel like we should go back showing our licenses. Because when you show your license, you know who that individual is. If you don't show it, you know, I can go as John Smith or Dave Craig, and they would never know it. Even though I'm registered, but you never know. You can have somebody else going for you.

Also, with the things being voted, where we were they weren't scanning, you know, what's the percentage of human error? You know, how do I know that that person who was counting the votes was a democrat or republican? You know, I can say, oh, yeah -- an example, I don't like Trump, I'm going to throw him over here. I like this person, I'm going to put him here. Where was the modernization of it?

Also, the votes that were being counted, Dominion was in the room in front of the scanners with a computer on the table in front of him. Why was that? I also wanted to include that I have two people here they will confess under oath that the bags were open. They actually took the bags themselves to the Commissioner at the drop-offs. Besides that, thank you for your time. But we really should check those machines prior to Election Day. I think that's the big thing. Because if you don't, this will happen again. Thank you.

5 CHAIRWOMAN MELKER: Barbara Holstein?6 MS. HOLSTEIN: Hi, how are you? My name is

7 Barbara Holstein, and I'm from Montague, New Jersey.

8 MR. HERBERT: Can we have your address?

9 MS. HOLSTEIN: 127B Hemlock Hill. And I'm here 10 tonight because of my friend Darius. I've known Darius 11 for two and-a-half years now.

He started with a podcast called Not White, Not Black Americans. He's the hardest working person on an election trail, and I've been following elections now for two and-a-half years.

16 What happened to him and anybody else who was on 17 that ballot on your Election Day is just horrific. Ι 18 watched his face. I listened to his voice. All the 19 months, two years of work going through these streets 20 in Trenton, going where no other candidate will go 21 that's got the republican next to their name because 22 it's the democrat area. Darius went there. And not 23 only did he go there, but he made your community 24 better. He organized clean communities. He went in 25 and pulled people together. Brought people off of

1 porches. He did it here in Trenton. He did it in 2 Philadelphia. And he did it in Paterson. That's where 3 I met him, was in Paterson.

I'm disgusted in what happened in this county. 4 5 It's a little bit of, How could you? And I don't want to go off because I listened to Dominion. 6 So what happened here -- people are asking, how did this 7 happen? Because someone decided they didn't want to 8 9 spend money. They didn't want to spend the money so 10 they reordered the provisional ballot. That's what 11 happened. And then a chain of communication was 12 broken, just like the chain of custody has been broken. 13 People who called for redos on this, they demand a 14 redo. I would do nothing less than a redo. That's

15 what your due diligence is. I don't know how a redo is 16 done. But if it has anything to do with the people 17 sitting up in front of me, it's your due diligence to 18 do a redo for the people of Mercer County.

Election days, Dominion -- I want to go back to the long history. Sorry. I'm not comfortable with the fact that this guy is a politician and he's selling you guys a politician machine. Okay.

The name has gotten a bad connotation, but literally, he validated it sitting here. And, yeah, I couldn't keep my mouth quite. I was like, you got to

1 be kidding me. I know why you're running this machine 2 because you've been doing this for 11 years in all of 3 these places.

Then you want to talk about -- I've heard people talking about what's going on in the poll worker station. I come from a county where even in my own mall rural county people didn't know what to do.

8 I can't imagine being in an area where they told 9 you your ballot, your vote -- the ballot that you just 10 got isn't working, and you're not allowed to use it. 11 And you have to use a sharpie. And you have to do 12 this. All the things -- there's no consistency. 13 Again, the redo is what you have to do. The redo.

I have so many other notes here, obviously not watching the clock. This man deserves a redo. And every voter in this county deserves a redo.

17 CHAIRWOMAN MELKER: Jennifer DiDonato?

MS. DiDONATO: Hello there. My name is Jennifer
DiDonato, D-I-D-O-N-A-T-O.

20 MR. HERBERT: You're doing great. Your address?
21 MS. DiDONATO: 20 Old Washington Crossing Road.
22 MR. HERBERT: Thank you.
23 MS. DiDONATO: So I'm a candidate and a

24 challenger. I was at early voting multiple days. I 25 was at multiple polling locations throughout the day of 1 the election.

I was down at the Board of Election's office nearly everyday following. I also went to the warehouse when the ballot bins came in. So I've been been been the whole process.

As a candidate, I want to know what's going on. Luckily for me, I got this crazy blowout of an election to learn everything. But, you know, this is why I'm here just because I really want to learn and I want to understand things. I got some questions and comments.

I would like to verify this, has the county clerk filed a lawsuit against Dominion for this election?

Provisional ballots, this is number two, Provisional ballots were used in the morning. They caused a shortage of provisional ballots in the afternoon. Voters were disenfranchised. They were Voters were disenfranchised. They were told to come back. They said, We're sorry. We don't have these provisional ballots. You can come back, or you can wait here until supplies come in. So several voters left the building.

Also, on what Pat was talking about, we overheard an interview on the day after the Election Day where a board worker, a board employee said that there -- the voting scanners, some of them could have been turned on throughout the day. And she made the call to make sure 1 that they were all turned off.

But, to me that sounds like, it leads me to believe that it's not a problem with the timing marks on the ballots. But it's just a question. I don't really understand how that adds up.

6 How can you ensure that every vote was secure when 7 many of the seals and locks were broken? That's something I also observed, as many people have said. 8 9 Ballot bags when they came in were not locked. Τn 10 addition, many of the locks and seals were broken on 11 the ballot bins as they came into the warehouse. And 12 there were several bins that were opened with ballots 13 just falling out, not just in Robbinsville and 14 Hopewell. Ewing, Hopewell, Robbinsville, Princeton, 15 several of the areas.

So, yes, and to the point of Robbinsville, we were at a meeting, 4 o'clock on the day after the election and we were told by these workers that every single ballot bag was received. And they knew that because the numbers were counted, and they had all of these numbers accounted for. And less than 30 minutes later, there was an e-mail sent to Mayor Dave Fried saying that they lost a bag. So something fell apart there. don't know. I don't know. Just wanted to bring that p. And I think that's about it. Thank you so much

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 84 of 127 Trans ID: LCV2024407856

84

for your time. Have a good day. 1 2 CHAIRWOMAN MELKER: Thank you. 3 Joe Marchica? 4 MR. MARCHICA: Joe Marchica, 10 Sheffield Road, 5 Hamilton, New Jersey 08619. 6 MR. HERBERT: Can you just spell your last name 7 for the record? 8 MR. MARCHICA: Sure. M-A-R-C-H-I-C-A. 9 MR. HERBERT: Thank you. 10 MR. MARCHICA: I'll try to not go into any 11 over-the-top hysterics or anything. I think we got a 12 lot of those. And some cases warranted because this is 13 kind of a crazy election. 14 But the first thing I wanted to highlight, I can't 15 comment about the issue anywhere else, but it doesn't 16 seem like there was any malicious intent involved in 17 any of this. It seems like a problematic, serious, but 18 honest mistake. It does happen. 19 But I've noticed a bit of a pattern and behavior 20 from the Board of Elections at times throughout both 21 this past election and the one back in June at the 22 primary election where I ran for County Committee 23 myself. 24 And I want to specifically highlight that some of 25 the issues that I've run into had to do with board

1 workers. There not being enough board workers. There
2 not being enough poll workers. There not being enough
3 compensation for those in order to hire sufficient of
4 those workers and retain them.

5 I've heard multiple stories of folks working for 6 the Board of Election, being forced to work overtime 7 and not being compensated for working overtime. Or there not being enough workers present because they 8 9 have trouble retaining people because they don't pay 10 sufficiently to encourage them to stay or to encourage 11 hiring more workers. And I'd be happy to put folks on 12 this board to talk with someone who is a former board 13 worker who I've spoken to about this. And she said 14 she'd be happy to talk to you about this. That's the 15 first thing I want to put out there because I think 16 that's a key issue that needs to be addressed.

Especially given all of the changes that have happened with how we run elections. And that brings me to one of my other issues. Which has to do with the timeline of how ballots, mail-in ballots specifically, are received, accepted or rejected, and then cure letters are sent.

I requested a cure list because I was volunteering for multiple campaigns throughout this past election Source. And on that cure list it was marked that the 1 Board of Election had not sent cure letters to voters 2 whose ballots were rejected until the Monday after 3 election in some cases, which is the deadline to 4 receive those ballots. And November 16th, in at least 5 two other cases for the town I was looking at at the 6 time. I'm sure there are other examples of this.

7 The problem that I have with that is, by State 8 law, the Board of Elections is required to send those 9 letters in 24 hours of the rejection of the ballot.

10 And the other problem is, the deadline for voters 11 to get those cure forms back in there and have their 12 votes counted and not be disenfranchised is 48 hours 13 before the election is certified.

Now, the Board of Elections, when I asked them, hey told me first that the deadline was that Wednesday. Then that the deadline was that Thursday. And then they didn't certify the election until today, so the deadline wouldn't have been either of those days, it would have been Saturday.

How is someone who is being sent a cure letter to cure their ballot, make sure their vote could be counted, supposed to return there cure letter when it was only sent to them on the 16th and the deadline is the 16th, according to the Board at first. And they wouldn't take cure letters if I returned it to them

because there's been a pattern of behavior here, 1 2 including back in the primary --3 CHAIRWOMAN MELKER: Sorry. Your time is up. MR. MARCHICA: I'll wrap it up very quickly. 4 5 Including both in the primary and this past time when I was campaigning well outside of the election 6 7 area, a hundred feet buffer that's supposed to exist when your following state law. I had the cops called 8 on me each time by the Board of Elections. 9 10 CHAIRWOMAN MELKER: Please --11 MR. MARCHICA: I will wrap. But I would very much 12 like to see these issues looked into. 13 Stephanie Faughnan? CHAIRWOMAN MELKER: 14 MS. FAUGHNAN: Good evening. My name is Stephanie Faughnan. My address is 10 Tamarack Court, 15 16 T-A-M-A-R-A-C-K, in Barnegat, New Jersey. 17 Yes, I came quite a distance here and --18 MR. HERBERT: And if you could just spell your 19 last name for the record? 20 MS. FAUGHNAN: Sure. F-A-U-G-H-N-A-N. I am here 21 as a reporter. Just as your election is unprecedented, 22 it is unprecedented that I have taken to the 23 microphone, and I will tell you why I have done it. 24 As I mentioned to you, I live in Barnegat. And 25 I'm a freelance reporter. In this case I am covering

1 this story for Hamilton and Robbinsville, so you 2 understand why I am impacted by your election.

I am very disappointed. But first I would -- you know what, I'm going to tell you the good things. When you began to have a problem, I did contact three different, your three different -- I'm from Ocean County, we only have two. We don't have a Superintendent of Elections.

9 I did contact someone from all three, the Board of 10 Election, Superintendent of Election, and of course, 11 your County Clerk. Kudos to your County Clerk who 12 responded I would say in five minutes of me asking her 13 questions. Same thing, I was able to meet with someone 14 from the Superintendent of Elections.

Now, I say "meet," I wasn't planning on coming up here. It's a ride. I have a long ride home in the dark. I shouldn't have had to come up here to stop in here to stop in

19 Why did I come in to see your Board of Elections?
20 Because I sent three e-mails. None were responded to.
21 Not one, not two, three e-mails.

22 So, as a diligent reporter, I came here, showed up 23 in-person. Very lovely sheriff's office. Officer, one 24 of the gentleman at the county, and I probably got on 25 his nerves quite a bit. But the person who was charged, who has not spoken here tonight again, she didn't realize that I recognized her. There's pictures of everybody on the internet. It's wonderful.

5 I brought up the fact that I could not calculate 6 the vote by mail. Now, again, I mentioned I'm from 7 Ocean County. Ocean County, they do the statutory 8 thing. They count the vote by mails before the date of 9 election.

Maybe we wouldn't have had this mess here, but I would like answers for my readers to know why the vote by mails were not counted. And when I asked your Board of Elections, I said you have a password on there. How insulting to tell me to Google how to use Excel. I've taught Excel. I think that you need to look at the people you have running your Board of Elections because that is a great part of the problem here.

18 My time is up. Thank you. Unprecedented.

19 CHAIRWOMAN MELKER: Thank you.

20 Jeffrey Laurenti?

21 MR. LAURENTI: Good evening, Commissioners. My 22 name is Jeff Laurenti. I live at 464 Hamilton Avenue, 23 Chambersburg, Trenton. Obviously there are major 24 concerns that we have all faced --

25 MR. HERBERT: Mr. Laurenti, if you could just

spell your last name for the record? We all know it, 1 2 but --3 MR. LAURENTI: Laurenti, L-A-U-R-E-N-T-I. 4 MR. HERBERT: Thank you. 5 MR. LAURENTI: The botched administration of the election led to such delays in counting ballots for 6 7 Trenton's municipal election that we had to delay our runoff by a week. And I didn't know until Tai gave her 8 9 final result today being five votes short of election 10 that we have been able to avoid a city-wide runoff for 11 at large. 12 This is a huge problem, and there has been some

13 cause for accountability of who's responsible and that 14 is quite fair. We both had a good deal of partisan 15 rhetoric. At least we haven't heard about Italian 16 satellites switching votes or Jewish space lasers 17 affecting the machines. But there's been a certain 18 excess, I would think.

We had four districts voting at Trenton High School, which is my own polling place where I'm democratic committeeman for East or District 7, but there were only three scanning machines there.

And as Tai pointed out, there was no poll book for that fourth district either for three hours. So people who came in had to vote provisionally. Well, they all 1 voted, but provisionally. And that's an inconvenience 2 for voters. It's like three extra pages of what you 3 have to right.

The master board worker who came to Trenton High School, whom Tai had mentioned, after 8:00 p.m. directed that the ballots that have been fed because both East 7 and East 8 were being fed into the same scanning machine, directed that the ballots be separated for the two districts.

I think that's the source of the story that our republican friends have been repeating multiple times about poll workers sitting on the floor separating the ballots. And then they were told after they had done so laboriously that they didn't need to because the central scanning machines would distinguish between the two districts since you have printed at the top of each ballot what election district you were in and they la could read them even if our voters didn't always read them. But no one but poll workers had touched those ballots.

Tai also pointed out, and this is important not for the question of what caused the confusion and the printer's error or whatever. But East 8 only had one poll worker, and it's the largest in the four districts voting there. East 7 only had two. The issues that perhaps Assemblyman DeAngelo's inquiry should also look at is how we can recruit an adequate number of trained poll workers. So thank you. CHAIRWOMAN MELKER: Your time is up. Mark Cubberley?

6 MR. CUBBERLEY: Good evening, Madam Chair, members 7 of the Commission, everyone else present. And I want 8 to thank all the residents and the elected officials 9 and officials who have come out tonight that help us 10 understand what's transpired.

My name is Mark Cubberley, C-U-B-B-E-R-L-E-Y. 282
Main Street, Hamilton, New Jersey. District 31 in
Hamilton.

I'm going to try not to repeat everything that I've heard, but I would like to endorse much of what I've heard. I tried to vote in my district at 6:01 a.m. because I've been actively involved with a Rampaign in the South Ward of Trenton. I wanted to get I to Trenton as soon as I could.

At 6:01 I was told I have to come back because the machines were down. The poll workers did not realize that voters shouldn't leave the polls. That there was an alternative method with emergency ballots and/or provisional ballots.

25 I had to give them the Board of Election's number

1 to have them call, and I made calls of my own to try to 2 maintain voters in my district. I watched four of them 3 walk right out the door. I knew immediately there was 4 a problem. I had to vote provisionally myself.

5 I then drove to the closest poll in the South Ward 6 at St. Bartholomew's School. What I observed there was 7 an utter disaster. People had ballots outside of the 8 building because they were given ballots and they were 9 told they could come back and vote.

I called the Trenton City Clerk who has been maligned by many on social media. He should not be maligned. The guy was there within seven minutes trying to help resolve the problem.

The issues that were countywide were dramatic. They were unprecedented. I for one want to make sure I say, I don't blame the poll workers. This was an unprecedented problem that has never before occurred.

Many of them, because of the COVID transition the 19 last couple of years, were new. I don't think that all 20 of them in the county could have been probably trained 21 to deal with the problem. I don't think it's their 22 problem. I think it's an administrative problem.

And for those of you who don't know, and I'm sure And for those of you who don't know, and I'm sure the most of the members of the Board know, I'm a democrat. I'm glad I'm a democrat. I've been a democrat my whole 1 life. I love the democratic party. But, we the 2 democrats, we need to look in the mirror. We had a 3 huge problem this day and the response has not been 4 adequate. But I don't mean this Board, I congratulate 5 you for holding this hearing. This is the beginning, 6 and I'm excited that you did that.

I too, because I was a challenger and active in a campaign in the south, contacted the Board of Elections, the County Clerk and the Superintendent. No of the three were very responsive. County Clerk, immediate responses to my requests. The Superintendent of Elections came out. The Deputy Superintendent came out and addressed my concerns. The Board of Elections, to this day, has not addressed a single concern that I've expressed to them, and I've been there virtually everyday since the election.

17 There were eight machines in the South Ward that 18 had ballots left in them that we found at the 19 warehouse. To this day, I don't know what happened to 20 them. I'm hoping they were counted. By the numbers 21 don't add up. The issues are huge. Please address all 22 of them. Thank you.

23 CHAIRWOMAN MELKER: All right. Thank you.

24 Natalia Armstrong?

25 All right. We will go to the next one.

Stephanie Reichardt?

1

MS. REICHARDT: Stephanie Reichardt,
3 R-E-I-C-H-A-R-D-T, 60 Pinewood Drive, Hamilton.

I just want you guys to hear from yet another person who was there the night when the bags were brought in. And, again, we observed no tags, no seals on all the bags, which obviously was already said tonight. I personally made a list of all those bags. J have the number to all of those.

10 While I was keeping that list of bags, I was told 11 at one point that seals don't matter. That the poll 12 workers weren't told that they needed to seal the bags, 13 which is obviously a huge concern. So obviously there 14 was some sort of mixed communication there.

15 Another thing I want to point out, there was 16 actually a Dominion -- a person from Dominion in the 17 room where the ballots were being counted, which is I 18 believe a breach in integrity. I believe only the 19 co-workers were supposed to be back there. That was 20 something that me and a few other people had observed. 21 I'm the Mercer County's Young Republican Chair. 22 We spent a lot of time fundraising and backing our 23 candidates and knocking doors. And it really all just 24 feels like time wasted because we can't trust the

25 results of this election, and I saw it personally.

```
And I'm also a forensic chemist. I'm responsible
1
2
  for chain of custody. I've testified to it in Court.
3
  I'm not sure if the people that were working the polls
  are prepared to testify in Court for their actions.
 4
5
  I'm honestly just appalled at what I saw and how
  unorganized the whole thing was.
 6
7
       And I just have one last question. Since so much
8
  money was spent on this election, I believe what,
                                                      2
 9
  million, and the county totally blew it, are we the
10
  people of Mercer County going to be reimbursed for
  that?
11
12
       MR. MAYFIELD:
                      Good question.
13
       CHAIRWOMAN MELKER:
                            All right.
14
       I don't know if Natalia Armstrong -- did they
15
  locate her.
16
       UNIDENTIFIED SPEAKER:
                               She left.
17
       CHAIRWOMAN MELKER:
                            She left.
                                      Okay.
18
                    I do believe that was all the names,
       All right.
19
  unless anybody wasn't called?
20
       All right. So we're going to go on with the rest
  of our meeting. We're going to take a two-minute
21
22
  break.
23
        (Time noted:
                      8:09 p.m.)
24
25
```

Declaration of Jennifer Strano

I, Jennifer Strano, hereby declare as follows under penalty of perjury:

- 1. I am over the age of 18 and competent to make this declaration.
- 2. I am a citizen of the United States and the State of New Jersey.
- 3. I reside in Hamilton Township, Mercer County, New Jersey.
- 4. I functioned as a poll worker during the November 8, 2022, election.

Morgan Elementary School

- 5. On November 7, 2022, at 1 P.M. I picked up the two black supply bags that would be necessary to open and run the polls for Districts 58 and 32 from the Hamilton Golf Center, 5 Justice Samuel A Alito Jr Way, Hamilton, NJ. I transported the bags to my home, where I stored them until 5 A.M, November 8,2022. I transported both bags to Morgan Elementary School, 38 Stamford Rd, Mercerville, NJ, for the opening of the polls.
- 6. There was no Master Board present at the time of opening,
- I proceeded to set up the wifi hotspot, then opened and started the tabulator machine without issue. The E-poll books were also activated without issue. There were 400 ballots for District 58 and 400 ballots for District 32 upon opening the bags they were sent in.
- 8. Polls were opened at 6 A.M. at which time we encountered our first voters. They were checked in on the E-poll book and given a ballot and a black sharpie. When the voters tried to feed the ballot into the tabulator the ballot was rejected. The voters thought it was bleeding through from the sharpie. We spoiled the ballots and issued new ones. One of the voters decided to try completing her ballot in pen, but it was also rejected. We halted distribution of any more ballots and called the clerk's office. We were informed there was an unknown problem throughout Mercer County and to have the voters fill out provisional ballots. At approximately 8 A.M we were instructed to provide Election Day ballots and sharpies again but to not have the voter scan the ballots into the tabulator but have them insert their ballot into a locked slot on the tabulator machine.
- 9. At approximately 1pm two men, whom I was informed were from Dominion, came to remove the scanner from the tabulator machine to allow room for collection of ballots. This created a hole on the top of the tabulator for voters to insert their ballots. Many refused to vote provisionally or with the Election Day paper ballot and sharpie and left without voting. Several people returned multiple times throughout the day to see if the tabulator was up and working, some decided to vote provisionally, some decided not to vote and left.

- 10. The Master Board worker was present only three times throughout the day. No longer than thirty minutes each visit. He left me in charge, even at the end of the night for the closing of the polls. There were no tally numbers or print outs to show the number of ballots cast into the machine. Normally, at the end of the election the tabulator prints out a record of the number of votes for each candidate and a vote cast number. The ballots were removed from the bottom of the tabulator and placed into the red bag and sealed to be returned to the Board of Elections. The ballots from the tabulator were not counted. Of the 400 election day ballots in District 58, there were exactly 12 left. Of the 400 election day ballots in District 32, approximately 25 were left. I do not recall how many provisional ballots we started with, nor how many were left. No emergency ballots were used.
- 11. That evening I returned the supply bags to the Hamilton Golf Center.
- 12. The Election Day ballots, and E-poll books were returned to the Board of Elections by a fellow poll worker.
- 13. I am unaware of when the tabulator was removed from Morgan Elementary School.

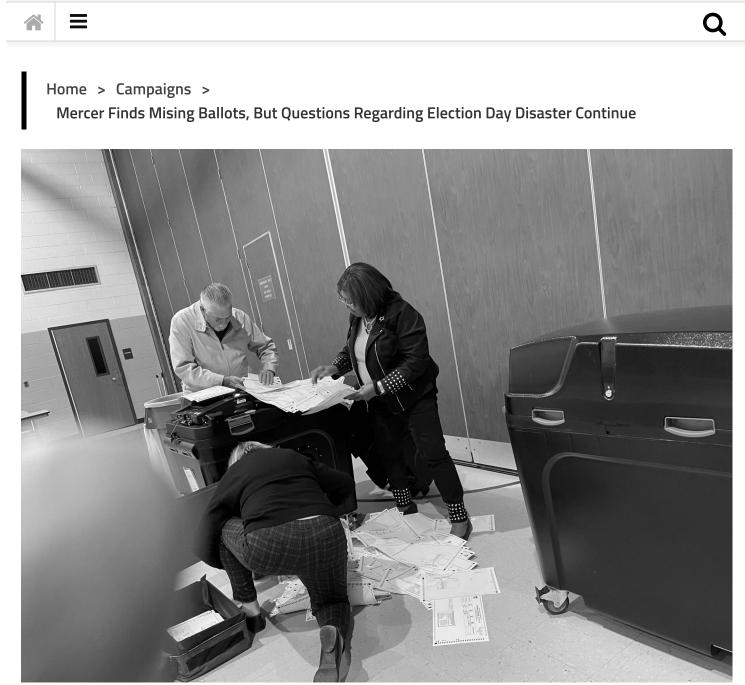

I declare under penalty of perjury that the above is true and correct.

Signed: Jennifer Strano

Mercer finds mising ballots, but questions regarding Election Day disaster continue

By David Wildstein, November 10 2022 8:54 pm

The missing ballots from three voting districts in Princeton and one in Robbinsville were found today at the Mercer County Board of Elections, where they had been since Election Day, the New Jersey Globe has confirmed.

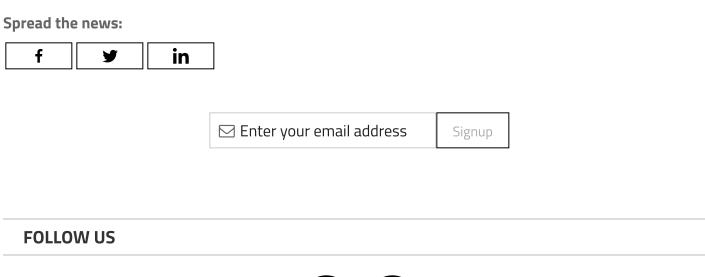

This is just one problem in a disastrous Election Day operation that started with every polling location in Mercer County. County Clerk Paula Sollami Covello has asked the Mercer County Prosecutor to launch an investigation.

The Robbinsville ballots were counted today and the Princeton ballots are set to be counted on Friday.

A small number of additional ballots were found inside voting machines when they were opened today. Superior Court Judge William Anklowitz signed an order this morning authorizing the machines to be opened.

Voters across the Mercer County were told to vote using paper ballots on Election Day after a programming glitch rendered the Dominion optical scanner as unusable. The ballots were dropped into the machine's storage bin and collected by a team of one Democrat and one Republican.

Mercer County Superintendent of Elections Nathaniel Walker will keep his office open on Friday, a state holiday, and this weekend, to continue counting ballots.

DECLARATION BY MARK AND STACEY BYRNE

This declaration is being made by Mark and Stacy Byrne. We hereby declare as true under penalty of perjury the following what we witnessed.

- 1. We are citizens of the United States
- 2. We are both over the age of 18
- 3. We are both residents of Hamilton Township.
- 4. We were observers/challengers (Stacy Byrne was a candidate for school board) on November 8,2022 at Groveville fire house 4201 Crosswicks-Hamilton Sq rd Hamilton NJ 08691-Mercer County NJ.

Groveville Fire House

- 5. We witnessed citizens not being able to vote -they were told they were not on registry (my daughter Anne Byrne in particular-who has voted in past elections without issue) had to vote by provisional ballots. From what we have since found it seems that most of our household is not on the registry.
- 6. We witnessed machines not tabulating and ballots having to be filled out with sharpies and placed in machines.
- 7. We witnessed confusion and chaos.
- 8. We witnessed on the evening of 11/8/22 after the polls closed more confusion, ballots being pulled from machines and spilled out onto the floor, placed in bags and bags did not have seals (seals had to be delivered).
- 9. There was confusion as to how the bags would be transported. We were told they were being transported to Mercer County Board of Elections office in Trenton NJ by one individual and we were not allowed to follow.
- 10. We questioned this and a gentleman called the sheriff's office on us and asked us to leave.

TAP Into (Hamilton/Robbinsville)

Commented [MD1]: We can get separate declaration

11.On November 9 2022 TAP into (Hamilton/Robbinsville) online news letter posted 5:12 pm by Elizabeth A Meyers had declared Stacy Byrne and Monica Quaste as the top vote-getters and that they had won the election.

North Johnston Ave Hamilton Township Warehouse

- 12.On November 11, 2022 At approximately 1 pm we were present at 1 North Johnston Ave Hamilton township warehouse that all voting machines were being delivered to be inspected after someone (this is disturbing-someone opened a machine and found ballots that we're supposed to have been removed election night-how and why someone did this breaks all protocols-machines we're supposed to be sealed the night of election after ballots removed).
- 13. We witnessed the machines being delivered in moving company trucks without any chain of custody, and as the machines were being brought off the truck
- 14. We witnessed seals on machines having been already cut/removed. Once machines were unloaded, we witnessed the opening of machines and ballots being removed that were in such perfect order and conditions-it was as if they were pulled from a Staples packaging box and other machines they were mangled/folded and in disorder.
- 15. We were not able to get to see if ballots were filled out-we were told emphatically to stand back.
- 16. In closing what we witnessed was despicable and a violation of of basic American citizens rights. There was no transparency, chain of custody, and voter's protection necessary for a free and fair election.
- 17. We also witnessed being treated with indifference and sometimes disdain from election officials for questioning the obvious violation in what was clearly a bungled/botched election.
- 18. I, Mark Byrne, witnessed an election official at polling location we were challengers at -when I questioned him (because of all the problems and potential for criminality that we witnessed) if this was a free and fair election-his answer emphatically was "No"

Commented [MD2]: This was at Groveville Firestation. We have video/ pictures to support this statement.

Declaration of John R. Muka regarding November 8 , 2022 Election in Hamilton Township, Mercer County, NJ

I, John R. Muka, under penalty of perjury, declare that:

- 1. I am over the age of 18 and competent to make this declaration
- 2. I am a citizen of the United States and New Jersey
- 3. I reside in Hamilton Township, NJ
- 4. I functioned as a Challenger during the November 8 Election cycle

Acting as a Challenger, I observed the Election and Counting processing at the following times and places:

November 8 from 8:15 till 9:00pm – District 6,13 Voting location at Project Freedom, Kuser Rd. November 8 from 9:30pm till 11:00 pm – Mercer County Elections Central Processing Location on Spruce Street

November 9 from 4pm to 5pm at the Board of Elections Meeting at the Mercer County Central Processing Location on Spruce Street

November 10 from 11:00am till 1:30pm – inspection of voting Machines at the Warehouse on Johnston Avenue in Hamilton

November 16 from 1pm to 2pm at the Mercer County Elections Central Processing Location on Spruce Street

Here are my significant observations regarding the overall integrity and chain of custody of the voting process:

At District 6, 13 Polling Location at Project Freedom after the Polls closed:

- No Supervisor present. Was told she left at 1pm out of frustration for the way the ballots were being handled.
- Remaining Poll workers struggled to determine what should be returned to the Hamilton Clerk vs. sent to the Mercer Central Counting Location
- One person, alone, transported the red bags of ballots to the Mercer Central Counting Location.

At the Mercer County Central Processing on Spruce Street: Election Evening, Nov. 8 from 9:30pm to 11:00pm – observation

• was limited to standing behind a barrier 30 feet away from the computers and other tabulation equipment. Unable to determine anything at all about the process being used.

- Noted a high degree of frustration among the working staff. Observed someone else ask: "What exactly is going on in that room behind the glass windows?" with the reply from the worked "You don't want to know!".
- Observed Patricia Johnson on multiple occasions voicing specific complaints about violations of chain of custody with no resolutions offered.

At the Mercer County Central Processing on Spruce Street: - November 10 meeting of the Board of Elections Commissioners:

• Someone asked: "How long will it take to count the mail-in votes and how many mail-in votes have been received?" Commissioner answered "We don't know how many mail-in votes have been received. We won't know that till after they are all counted."

November 10 from 11:00am till 1:30pm – inspection of voting Machines at the Warehouse on Johnston Avenue in Hamilton:

- Placed in a position where it was impossible to tell what condition ballots being removed from the machines in this warehouse were actually in.
- I attempted to ask Commissioner Mary Corrigan this question: "If the Poll workers filled out their own count of total ballots cast, and the tabulators also have their number of ballots scanned, why inspect every machine instead of starting out where there was a discrepancy between the two counts?" I received no answer because Sherry, the supervising Elections Staff member rudely told me I was not allowed to stand in that location. When I indicated I was asking the Commissioner a question, Sherry then stated: "I feel threatened by you. If you do not move I will have you escorted out of the building."
- During the "inspections" I noted the following discrepancies in Hamilton Machines called out by Sherry:
 - 1. Machine 447: found 1 ballot
 - 2. Machines: 456, 445, 446, 411, 412, 423, 463, 424, 429, 463, 464, 468, 475 all "Door not Sealed"
 - Machine 459 contained at least 60 ballots in a condition I could not determine from 10 feet away – whether they were blank or voted I could not tell.

November 16 from 1pm to 2pm at the Mercer County Elections Central Processing Location on Spruce Street: Processing of Mail-In Ballots:

• Upon arrival I was told to "Sit in that chair" in a position 10 or more feet from the nearest of about 6 people, apparently volunteers or temps, who were removing the identifying labels from the mail-in ballots.

- More than 30 feet away, behind the glass windows, several people appeared to be looking a computer screens.
- From my "assigned seat" I asked the nearest of the "temps" to just explain what they
 were doing. Immediately, the Security Guard stood next to me and said that I was not
 allowed to talk to anyone and if I continued to, I would be removed from the building. I
 replied that in order to function as a Challenger I needed to know what exactly I was
 looking at. The Security Guard told me he would get someone I could talk to and in the
 meantime I was to remain silent.
- Shortly thereafter, Chuck Farina, a Commissioner appeared. The first thing he said was "You are not allowed to talk to anyone. If you do, I'll have to ask you to leave." I replied "I need to understand what I'm looking at!" Chuck said, word for word "I'm not sure what I'm allowed to tell you. I'll get someone else to answer your questions".
- Several minutes later, Commissioner Jill Moyer entered the room carrying boxes of ballots for the "temps" to work on. As she passed by, I asked "Are the one who can answer my questions?" She indicated that she was busy at the moment but would answer my questions soon.
- A few minutes later Commissioner Jill said "What do you want to know?". I asked her to explain what the "Temps" were doing and she confirmed what I had already observed and then started to walk away. I said "I have a few more questions". She said "Later. I have work to do here."
- A short time later I indicated I needed to ask her a question. She said "Now what?" And I said: "Behind the glass in the other room are three people seated adjacent to each other looking at computer screens. What exactly are they doing?" One of the three was the same Commissioner Chuck Farina, who earlier had told me he could not answer any questions. Jill said "They are adjudicating ballots" and started to walk away. I asked a second question "Are all three looking at the same ballot image at the same time?" She said "No. Each is adjudicating a separate ballot, individually". I attempted to ask how that could be proper and Jill said "I have work to do". And walked away.

Summary:

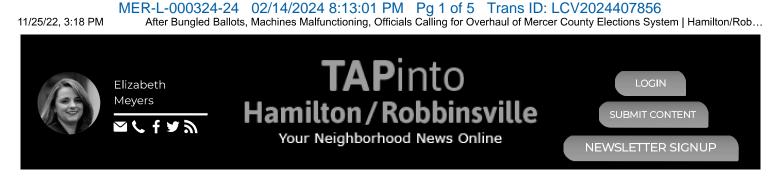

Acting as a Challenger for two of the School Board Candidates, I observed on these multiple occasions an election process easily open to tampering, lack of chain of custody, and questionable procedures for insuring that every legal vote was properly counted. In the case of candidate Monica Quaste, these weaknesses could have easily resulted in a mistaken count, or worse, a recording and counting process deliberately tampered with, in violation of any sense of proper election integrity. I strongly advocate for a complete in depth investigation and appropriate actions to correct any resulting errors in this close election before allowing the seating of a new Hamilton School Board in 2023.

I declare under penalty of perjury that all of the above I true and correct to the best of my knowledge.

Signed: John Mulsa

John R. Muka

After Bungled Ballots, Machines Malfunctioning, Officials Calling for Overhaul of Mercer County Elections System

Voters stood in line to cast their ballots on paper after digital machines failed to scan them Elizabeth A Meyers

By ELIZABETH A MEYERS Published November 13, 2022 at 1:16 PM Last Updated November 13, 2022 at 1:59 PM

MERCER COUNTY, NJ -- With ballots still needing to be counted from the November 8 general election, officials are now calling for an overhaul of and investigation into the Mercer County elections system. The push to restructure the countywide elections apparatus comes days after voting machines in <u>every Mercer County town</u> <u>malfunctioned making it impossible for ballots to be digitally scanned</u> <u>at polling place</u>.

Mercer County Executive Brian M. Hughes, who has no official role overseeing the elections process, is calling for a thorough public review of what went wrong and a comprehensive overhaul of the elections process in Mercer County.

"After issues in the last two elections, I have come to the conclusion that we must fundamentally change the management of the election process in Mercer County because it is clearly not working," the County Executive said. "There are legal limits to what I can do as County Executive but rest assured that I will do everything within my power to ensure the integrity of elections in Mercer County and will tolerate nothing less."

There are three separate entities -- the Board of Elections, the Superintendent of Elections, and the Office of the County Clerk -- who each play a part in elections. The Superintendent of Elections is an appointee of the Governor who oversees voting machines and voter registration. Board of Elections commissioners are appointed by the respective County Chairs of the Republican and Democratic Parties. They oversee the poll workers and places as well as counting ballots.

Hughes says a special meeting of the Commissioner Board should be convened to bring together the Clerk, Superintendent and Election Board Chair explain to the public what went wrong. He also is calling for simplifying the countywide election process by merging and unifying the Office of the Superintendent and the Board into one, and having an experienced Executive Director oversee our elections.

Finally, he said he will commit "any county resources needed to ensure every vote is counted and help get to the bottom of what went wrong hasten and conclude investigation."

"I pledge to you that we will get to the bottom of this and that every vote will be counted," Hughes said. "I have listened to the people of Mercer County and have spoken with election officials, and we are committed to finding out how we can improve the election process and to prevent future incidents as the one on Election Day." The Mercer County Clerk is chosen through a countywide election every five years. The clerk is responsible for accepting the petitions of candidates to be placed on a ballot, the printing of election materials including ballots, and certifying the votes once tallied.

Hughes lent his support to Mercer County Clerk Paula Sollami-Covello who requested that the County Prosecutor look into the election. He added, however, that "a more thorough and public review. We've got too many people in control and the quality of our elections has suffered as a result, undermining peoples' faith in the democratic process,"

Assemblyman Wayne DeAngelo told TAPinto that on Election Day morning, he had already gotten a call by 6:30a.m -- just a half hour after polling places opened -- that machines were malfunctioning.

The state lawmaker is working to hold hearings in the State Legislature to call in county officials "to get to the bottom of the Mercer County voting debacle." DeAngelo says. He is hoping the hearings begin within the next couple of weeks.

Robbinsville Township Mayor Dave Fried says that all of the Mercer County mayors should be part of any investigations since they "have to live first-hand with the outcomes of the elections and speak directly to voters in the community."

"All of us need to be working together to ensure that there is a fair process in place that restores the trust of the public in elections," added Fried.

Fried says that after decades of hearing that changes to the countywide election oversight would be forthcoming, the systemic problems this year is clear that "it's high time that changes are put in place for a new election process."

Mercer County, in which all elected countywide seats are held by democrats, also is taking criticism from the Mercer County Democratic Chairperson Janice Mironov, The chairperson, who also serves as the mayor of East Windsor Township, said the voting machine failures "was a highly serious matter, raising questions and concerns throughout the County, and requires full and expeditious review and remedy."

In the Novermber 9 letter from obtained by TAPinto, Mironov called for an "expeditious investigation by Mercer County and all elections offices into the countywide malfunction of the voting machines, and the preparation and issuance of a detailed public report explaining how and why this occurred." She said a subsequent reports should include ways to prevent such problems in the future.

The failure of voting machines throughout Mercer County obviously, as I expect we would all agree, was a highly serious matter, raising questions and concerns throughout the County, and requires full and expeditious review and remedy. I am hereby seeking an expeditious investigation by Mercer County and all elections offices into the countywide malfunction of the voting machines, and the preparation and issuance of a detailed public report explaining how and why this occurred. The explanation and report should further address the actions being undertaken to best ensure that there is no repeat of what occurred in Mercer County

Mironov added that "notwithstanding this countywide malfunction, everyone who wished to vote got to vote, was able to go to their polling sites and to cast their votes on the standard ballot and deposit it, albeit untabulated, into the voting machine."

On Election Day, <u>Mercer County Superintendent of Elections Nathaniel</u> <u>Walker issued a statement mid-day on Election Day assuring voters</u> <u>that their ballots will be tallied in the election results.</u>

"Every ballot that has been cast will be counted, no voter will be disenfranchised, and the integrity of the election is intact and secure," said Walker.

However, as previously reported by TAPinto<u>, it was discovered that</u> <u>ballots were still in voting machines after an initial count was done</u>. On Thursday, Superior Court Judge William Anklowitz directed the Board of Elections to open the voting machines using two staff members from different political party affiliations.

Those machines were opened on Friday and discovered at least 1,500 additional county-wide ballots that were included in tallies made publicly available between Thursday, November 10 and Friday, November 11.

TAPinto has inquired as to how many ballots need to be counted but did not receive an answer from the Superintendent of Elections. Thus far, with the additional votes counted by Friday, there has been no change to the outcome of the Hamilton or Robbinsville Boards of Education races.

Fried also noted this on Friday saying in a statement that congratulated the local board of education winners that "I have no reason to believe, even with ballots that may or may not still be out there, that our local results will change"

TAPinto will to closely monitor any election results as they develop.

Attempts to contact the Mercer Superintendent of Elections were not returned by the time this story was published.

RE: PUBLIC RECORDS REQUEST of December 20, 2022, Reference # R005239-122022

Dear Sir/Madam:

This office serves as the custodian of records for the County of Mercer under the New Jersey Open Public Records Act (OPRA). We are in receipt of your recent request for government records pertaining to the above subject. Please accept the following response to same.

This title is from 2013, Well before the ballot boxes we know today. This was in reference to the ballot boxes that would have been at the polls on election day many years ago. This no longer applies.

Yours truly,

Paul R. Adezio

Mercer County Counsel

Thank you for your interest in open public records of Mercer County Open Public Records Center. Your request has been received and is being processed in accordance with the Open Public Records Act (OPRA). Your request was received in this office on 12/20/2022 and given the reference number R005239-122022 for tracking purposes.

Records Requested: Title 19:18-3 - Municipal clerk's office open until all ballot boxes delivered; record of

times of delivery

This statute states:

"The clerk of the municipality or his subordinate whom he may have appointed to act in his stead shall enter in a book to be kept for that purpose the exact time when each ballot box may be delivered at such office, the district whence it was brought, names of the members of the district board delivering it, and the name of the police officer or other witness who may accompany them, and any other particulars he may deem important; such book shall be filed in the office of the municipal clerk and be preserved by him for two years."

We are requesting any and all logs of the chain of custody of ballots, ballot bags, and ballot boxes that were signed between any Mercer County district poll workers, municipal clerks, and Board of Elections officials, in the November 8, 2022 general election, between election day, and through at least November 15, when such materials were still being received at the County warehouse.

Your request will be forwarded to the relevant County department(s) to locate the information you seek and to determine the volume and any costs associated with satisfying your request. DECLARATION OF MARK DEMO

I, Mark Demo, being of full age and sound mind do hereby swear and affirm:

- 1. I have personal knowledge of myself, my activities, and my intentions.
- 2. If called on to testify I would competently testify as to the matters stated herein and concerning me and my activities in this Declaration.
- 3. I verify under penalty of perjury under the laws of the United States of America that the factual statements contained herein are true and correct.
- I was asked to review and reconcile the November 2022 General Election data by a friend who sued Mercer County to contest the outcome of her school board election.
- 5. I personally reviewed and analyzed the data provided by Mercer County pursuant to Open Public Records Act requests submitted by myself and others. These November 2022 General Election datasets and documents included:

a. **Cast Vote Record** - the Cast Vote Record is a report generated automatically by the tabulation software that has been installed on the scanner. It accounts for every ballot that has been scanned during the tabulation process, regardless of ballot type.

b. Ballot Images - scanned image of ballot cast

c. Tabulator Status Report - summary of ballots counted by Tabulator, polling location and ballot type (Early Voting, Election Day, Mail-In, Federal and Provisional)

d. **Poll Book Logs** – the Pollbook is an electronic device (like an i-pad or a laptop computer) that is used by poll workers to "check-in" inperson voters at a polling place for an election by accessing the list of registered voters and verifying their eligibility to vote. The Poll Book logs reflect all the activity recorded by the device during voter "checkin".

e. **System Logs** – the System Logs reflect all the activity of each individual tabulator that was used to scan and count ballots during an election. This includes date and time, ballot id, batch and ballot number.

f. General Election Certification – all of the documentation that comprises attestation of the Board of County Canvassers and the Clerk of the Board of the County Canvassers as to the accuracy and completeness of an election.

g. List of all Provisional Ballots Received – a simple spreadsheet list of all provisional ballots received during an election.

h. List of all Provisional Rejects – a simple spreadsheet list of all provisional ballots received and rejected during an election.

i. **December 2nd, 2022 State Voter History file** - the NJ Secretary of State Election Division maintains the State Voter History file. Each county provides its own updates to the state post-election and on a regular basis thereafter.

j. December 2nd, 2022 State Vote By Mail file - the NJ Secretary of State Election Division maintains the State Vote by Mail file for each election. Each county provides its own updates to the state vote by mail file on a regular basis before and after an election. The file includes among other items the Voter id of individuals and the associated dates when each individual requested a vote by mail application, when the individual was mailed a vote by mail ballot for a specific election, the date when the voter returned the vote by mail ballot and whether the vote by mail ballot was accepted or rejected.

6. To perform my analysis, I frequently used the VLOOKUP function available in Excel. VLOOKUP stands for Vertical Lookup. This Function is among many standard analytical tools included in every copy of Microsoft's Excel spreadsheet software. This function will quickly compare a list of values in column A to a list of values in another column (B) within the same spreadsheet or a different spreadsheet to determine if the values in column A exist in column B.

- System logs provided pursuant to Open Public Records Act request Number R005144-112022 evidence no testing on any Image Cast Precinct tabulators (the ones in the polling locations) prior to Election Day.
- System logs show that Image Cast Center Tabulators numbered 1009, 1018, 1019, 1020 and 1021 did undergo Logic and Accuracy ("LAT") testing on October 13, 2022.
- 9. I analyzed the Election Day system logs and ballot images for the November 8, 2022 General Election. The system logs and ballot images show the day and time that each ballot was counted. The system logs and ballot images show that Election Day ballots were counted over a period of 13 days. The County counted 26,660 ballots on Tuesday, November 8th Election Day and 30,314 on Wednesday, November 9th. The rest were counted on Thursday, November 11th (280), Friday, November 12th (1,460), Monday, November 14th (1,702), Wednesday, November 16th (5), Saturday, November 19th (56) and Sunday November 20th (250).
- 10. The ballot images confirm which tabulators the election day ballots were counted on. I personally examined the ballot images. They show that the election day ballots were tabulated on tabulators 10000, 10001, 10002,

10003 and 10004. The system logs from these tabulators, except for 10003 as it was not provided, show that they underwent LAT testing on October 13, 2022, which was before it was known that Dominion had programmed the machines to read different ballot numbers than the County had requested, and ultimately received, from Royal Printing.

- 11. The system logs show LAT testing on tabulators 10000, 10001, 10002, and10004 on November 8th at around 5:00pm to 6:10pm.
- 12. The County has refused to provide the system logs for Tabulator 10003.
- 13. I personally examined the 2022 ballot images. They show that the County scanned 60,727 Election Day ballots using 243 unique ballot styles (264 through 506) on Image Cast Central tabulators 10000, 10001, 10002, 10003, and 10004. Ballots scanned on each tabulator were 11,022, 13,189, 14,487, 12,505 and 9,524 respectively.
- 14. I personally examined the 2022 ballot tabulator system logs. They show that the County scanned 48,222 Election Day ballots using 243 unique ballot styles (264 through 506) on Image Cast Central tabulators 10000, 10001, 10002, and 10004. Ballots scanned on each tabulator were 11,022, 13,189, 14,487 and 9,524 respectively. The difference between the total number of ballots from the images (60,727) and ballots from the tabulator system logs

(48,222) is exactly 12,505 which matches the total number of ballot images scanned on tabulator 10003.

- 15. The Official Tabulator Status report prepared by the County and provided in response to Open Public Records Act request number R005169-112922 represents that Election Day ballots were counted on tabulators 1009, 1018, 1019, 1020 and 1021. The report represents that Ballots scanned on each tabulator were 27,316, 14,993, 9,044, 9,374 and 0 respectively. *See* Exhibit O to Complaint (Mercer County Tabulator Status 2022 General Election Official Report dated December 5, 2022).
- 16. The total number of Election Day ballots reported on the Mercer County Tabulator Status 2022 General Election Official Report (60,727) equals the total number of Election Day ballots scanned from ballot image and system log records (60,727). However, the number of ballots reportedly scanned on the reported tabulators does not correspond to any of tabulators actually used.
- 17. I personally examined the November 2022 General Election Certification and the NJ State Voter History File on December 2, 2022. These records show that, while the County certified that it counted 60,727 Election Day ballots, as of November 23, 2022, the County only reported 55,878 ballots to the NJ State Voter History File. There is a 4,849 vote discrepancy

between the number of in-person ballots the County reported to the public and the number of in-person ballots the County reported to the state. This relates only to Election Day Ballots. Early voting ballots appear to be properly accounted for in the state voter file history.

- 18. The Mercer County electronic poll book logs indicate that 1,420 individuals checked in to vote during the first hour that the polls were open (6:00am to 7:00am). I know this from filtering on the CheckInDate column for 11/08/2022 and filtering on the CheckInTime column for all Times between 6:00:00 AM and 6:59:00AM.
- 19. 1,091 of these 1,420 individuals were checked into the electronic poll books in the first hour without issue, meaning these individuals were eligible to vote with a regular ballot. To determine this, I filtered the electronic poll book by CheckInDate to select for voters who checked in on 11/08/2022 and then filtered the CheckInTime for all Times between 6:00:00 AM and 6:59:00AM. Finally, I filtered the Provisional column for the value N. The provisional ballot column is either "Y" for voted by provisional ballot or "N" for did not vote by provisional ballot. 1,091 of the 1,420 voters checked in between 6:00am and 6:59am were checked in as *not* provisional, meaning they were checked-in by the District Board worker as qualified to vote by regular ballot at the time of check-in.

- 20. 518 of the 1,091 individuals who successfully checked in to vote during the first hour of voting were, however, required to vote by Provisional ballot anyway and had their Provisional ballot rejected because they had "voted by machine." I identified these voters by filtering the electronic poll book by date and time, as described above in paragraph 19 and then filtered the provisional column to identify non-provisional voters (1,091). Then using the VLOOKUP function in excel, I compared the 1,091 voter ids in the poll book to the voter id column in the provisional reject report provided by the County. This allowed me to identify those voters whose provisional ballots were rejected by the County because they had "voted by machine" (518).
- 21. 2,416 people were told they had to vote provisionally because they had requested a vote-by-mail ballot. However, according to data provided by Mercer County in response to an OPRA request, at least 83 of those people were not sent a mail-in ballot. I reached this number by filtering the November 2022 electronic poll book through the prov/challenge reason column for Mail-in Ballot requested. This filtered the voters who were required to vote provisionally because "mail in ballot requested." There were 2,438 voter Ids with this reason noted as for why they were required to vote provisionally. Then, I eliminated duplicate voter Ids, which brough the number to 2,416. Then, using the VLOOKUP function in excel, I compared

the 2,416 voter ids who were required to vote provisionally because they were identified as having requested a mail-in ballot to the voters in the December 2, 2022 State Vote By Mail file data to determine if all 2,416 voters were recorded in the state voter history files as having requested a mail-in ballot. I then filtered on the VBM_mailed date column for blanks (no date entered for the day the voter supposedly requested to vote by mail). 83 individuals are identified as not having applied for, nor having been sent, a mail-in ballot.

22. An additional 639 voters were told they must vote provisionally because they had already voted by mail. However, data provided by Mercer County shows that 533 of those voters had not voted by mail. To get this number, I used the November 2022 general election poll book data provided by the County. I filtered on the prov/challenge reason column for Mail-in ballot. This showed 647 voters who were required by the County to vote provisionally for this reason. I eliminated duplicate voter ids, which brought the number to 639. Then, using the VLOOKUP function in excel, I compared the 639 voter ids who were required to vote provisionally because they were identified as having already voted by mail to the voter ids in the State Vote by Mail file data to determine if all 639 voters were recorded as having voted by mail. I then filtered on the VBM_counted date column for

blank (no date recorded as having received a vote by mail ballot from that voter id). 533 of the individuals are identified as not having returned a mailin ballot.

- 23. 19 voters from the group of 106 who had voted by mail and who also voted provisionally do not appear on the provisional reject list.
- 24. In addition, the sum of the accepted Provisional Ballots from the County Certification documents (3,862) and the rejected Provisional ballots (1,288) from the November 29, 2022 Provisional Reject Report is 5,150. Comparing this to the County's full list of Provisional ballots received (5,528), shows that there are 378 provisional votes that were recorded by the County as received, but not certified as either accepted or rejected.
- 25.According to the system logs from the tabulators and the ballot image data, the County scanned 25,512 Mail-In ballots using 243 unique ballot styles (1 through 243) on tabulators 1000, 1001, 1002, 1003 and 1012.
- 26. The County certified to the public that 2,528 fewer Mail-In ballots were received (25,512) versus what they reported as received and accepted to the NJ State Voter History file (28,040).
- 27. The NJ State Board of Elections reported to the Federal Election Administration Commission that Mercer County received and accepted

27,890 Mail-In ballots, which does not match the certified total of mail in

ballots or the mail-in ballots reported as received to the state.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Dated: ___2/14/2024___

Mark Demo

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 1 of 26 Trans ID: LCV2024407856

WE DO HEREBY CERTIFY that the foregoing is a true, full and correct statement of the results of the GENERAL ELECTION held on November 8, 2022, as the same is exhibited by the statements produced and laid before the board of county canvassers according to law, and that the same exhibits the number of the names in the signature copy registers and the registers of voters, the number of names of the voters in the poll books of the election districts, respectively, and of the ballots rejected, the whole number of the names in the signature copy registers of voters, the whole number of names of the voters in the poll books of the several election districts, the name of each person for whom any vote or votes were cast, the number of votes cast for each person for each office designated, and also specifies each public question voted upon and the number of votes cast thereupon in each election districts as they appear by the statements so produced and laid before the said Board.

	IN WITNESS WHEREOF	, we have hereunto set our hands this	23'a	day of November, 2022.

STATE OF NEW JERSEY STATEMENT OF COUNTY CANVASSERS*

A Statement of the Results of An Election held in the

COUNTY OF MERCER

on the 8th Day of November Two Thousand And Twenty-Two

to elect

County Officers

*THIS STATEMENT IS TO BE MADE IN QUADRUPLICATE; ONE TO BE FILED WITH THE SECRETARY OF STATE, TRENTON, NEW JERSEY, ONE WITH THE COUNTY CLERK, ONE WITH THE CHAIRPERSON OF THE DEMOCRATIC STATE COMMITTEE AND ONE WITH THE CHAIRPERSON OF THE REPUBLICAN STATE COMMITTEE.

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 14 of 26 Trans ID: LCV2024407856

WE DO HEREBY CERTIFY that the foregoing is a true, full and correct statement of the results of the GENERAL ELECTION held on November 8, 2022, as the same is exhibited by the statements produced and laid before the board of county canvassers according to law, and that the same exhibits the number of the names in the signature copy registers and the registers of voters, the number of names of the voters in the poll books of the election districts, respectively, and of the ballots rejected, the whole number of the names in the signature copy registers of voters, the whole number of names of the voters in the poll books of the several election districts, the name of each person for whom any vote or votes were cast, the number of votes cast for each person in each election district, and the whole number of votes cast for each person for each office designated, and also specifies each public question voted upon and the number of votes cast thereupon in each election districts as they appear by the statements so produced and laid before the said Board.

IN WITNESS WHEREOF, we have hereunto set our hands this 23rd day of November, 2022.

Mary Corrigan, Chairperson, Board of County Canvassers

Jill Moyer, Member, Board of County Canvassers

Martin J. Jennings, Jr., Member, Board of County Canvassers

Charles Farina, Member, Board of County Canvassers

ATTEST:

Paula Sollami Covello, Clerk of the Board of County Canvassers

A STATEMENT of the determination of the Board of County Canvassers, relative to an election held in the County of Mercer on the Eighth day of November, two thousand and twenty-two, for the election of:

MERCER COUNTY COMMISSIONERS

I DO HEREBY CERTIFY that the foregoing is a true, full and correct statement of the determination of the Board of Canvassers therein mentioned.

IN WITNESS WHEREOF, I have hereunto set my hand this ______ day of November, 2022.

Mary Corrigan, Chairperson, Board of County Canvassers

ATTEST:

Paula Sollami Covello, Clerk of the Board of County Canvassers

12th Cong. - Ewing, Hopewell Boro, Hopewell Twp. Pennington, Princeton, Trenton, West Windsor - 770

Mary Corrigan, Chairwoman

Declaration of David S. Lee

I, David S. Lee, hereby declare as follows under penalty of perjury:

- 1. I am over the age of 18 and competent to make this declaration.
- 2. I am a citizen of the United States and the State of New Jersey.
- 3. I reside at 22 Old Foundry Dr, Pennington, New Jersey.
- I was a CHALLENGER in the General Election on November 7, 2023 at district(s) 10 and 11
 Project Freedom from 6:00am ET through 10:00pm ET.
- 5. District 10 had 3 poll workers to start the day. 1 had previous experience. 1 was new and no experience. 1 had limited experience at another municipality. A Master Poll worker was present to assist both Districts 10 and 11 for the start of voting.
- 6. At 6am ET voters were unable to vote due to epoll books not connected to internet, so not ready to accept voters for District 10. One person waiting, one left.
- 7. Shortly after, epoll books working, voting started. The first voter was able to complete voting ok.
- 8. However, the next voters were unable to scan their printed ballots into the tabulator (#494 for District 10) and were forced to vote provisionally. This continued for two hours impacting dozens of voters. This included a first-time young voter who was accompanied by his father and eager to vote in-person for his first voting experience.
- 9. Inexperienced poll workers needed to be assisted by Master Poll worker step by step through the provisional voting process. It was observed that there was inadequate training of poll workers for managing provisional voting. This was also noted by the poll workers themselves.
- 10. The inoperable tabulator and need to vote provisionally caused confusion, frustration and delays with epoll book registering, use of ballot marking devices.
- 11. As a result, many voters, at least a half dozen+ could not wait and left before they could vote. Some left before registering in at epoll books. Some left after registering with epoll books but unable to wait to access ballot marking devices. They just left their receipts and access card at the poll worker desk.
- 12. At one point, voters were told by poll workers to come back another time.

- 13. Multiple voters left with their printed ballots (not yet scanned into tabulator) in hand before they could (provisionally) vote.
- A new tabulator (#615) was finally delivered. A technician arrived to install the new machine.
 The tabulator became operational shortly after 8am ET, 2 hours after the start period of voting.
- About this time one of the two ballot marking machines became inoperable for District 10.
 This caused further delays for people coming in to vote in District 10.
- 16. Master poll worker present but would not allow voters to use District 11 ballot marking devices and tabulator.
- 17. The master poll worker was corrected and after 10am ET allowed District 10 voters to use District 11 ballot marking machines and tabulator.
- Kristin McLaughlin (a Mercer County Commissioner) visited polling location with a candidate (Kuchinski). She talked to a few poll workers.
- 19. Shortly after 11:00am ET, a poll worker using epoll book (#350) for District 10 realized power strip not on so epoll book needed to be recharged, so not operational. From this point on, this epoll book would work inconsistently.
- During this hour a technician arrived to setup two new ballot marking machines. By 11:30am
 ET these 2 machines are operational.
- 21. At ~12:30pm, two women, that did not provide credentials, nor their names told District 10 poll workers to shutdown the inoperable ballot marking device and some instructions with the broken tabulator to pull out and store the memory card in a plastic bag they provided. But the poll workers were too busy nor did they have adequate training to perform the instructions. A District 11 poll worker attempted to shutdown ballot marking machine but stopped when unsure how to handle on-screen messages. The master poll worker was not present. When master poll worker came back, was unaware of who these women are and asked for their names too. The two women returned later in afternoon. They were asked their names by Challenger and poll worker and said they were from BOE and said some inaudible names and left.
- 22. At about 1:00pm ET the poll worker with most experience for District 10 was told to go to another district and would leave shortly after that. She would not return. She was the poll worker populating the "2-hour public counter". From this point forward the 2 hr sheet was NOT updated fully nor properly, since the remaining poll workers did not know how to attain

the counts, nor have the time with the delays. I reminded the poll workers and master poll worker to populate the sheet but was ignored. Due to the inexperience of poll workers, the provisional count was not tracked as well. Therefore, the final provisional count placed on the sheet at end of voting is an inaccurate fictitious number.

- 23. District 11 has had 3 experienced poll workers entire morning with little traffic, yet they pull the most experienced poll worker from District 10 (which is by far the largest Hopewell district) to leave.
- 24. From 1:00pm through 5:00pm ET the new District 10 tabulator (#615) is still working inconsistently. It was hit or miss with dozens of voters unable to scan their printed ballots into the tabulator their first try, then forced to have poll worker "spoil" their ballot and re-do the entire voting process) with accepting scanned ballots from the 3 of 4 ballot marking machines.
- 25. There is a line (10+ people) during this entire time and delay in voting. Many voters need to re-do voting, since the first attempt using tabulator would fail. The poll worker would "spoil" ballot and the voter is asked to start over again. For some the re-do would work ok. For other voters the re-do would fail and they are asked to re-do a third time. Some voters leave without voting. This inefficient process compounds the long line near the time when the after-work crowd arrives. The line doubles (the 5pm after-work lines are 20+ people) and delays even longer.
- 26. Near 4:00pm ET, epoll book #350 totally inoperable.
- 27. At 5:00pm ET all 4 District 10 ballot marking machines are deemed inoperable. Voters asked to use District 11 ones.
- 28. A technician arrives to fix District 10 ballot marking machines; they are back operational before 6:00pm ET.
- 29. Another technician arrives to fix epoll book #350.
- 30. District 10 tabulator is still working inconsistently after 5:00pm ET. Still see voters voting provisionally.
- 31. A voter who attempted to vote in the morning returns at night to vote. At epoll book the voter is told she has already voted. She is upset and the master poll worker has her vote provisionally.
- 32. District 11: during the entire voting period 6am through 8pm ET, all of their epoll books, ballot marking devices and tabulator operate without problems. While for District 10

MER-L-000324-24 02/14/2024 8:13:01 PM Pg 4 of 4 Trans ID: LCV2024407856

machines, EVERY machine was inoperable at some point during the voting period (except epoll book #349).

- 33. At end of voting: I needed to request the 2-hour public counts from the two District 10 epoll books. The 2 inexperienced poll workers did not know how to attain, so we needed to work with District 11 poll worker to attain.
- 34. District 10 2 inexperienced poll worker had no clue how to close-out. Needed to wait until master poll worker arrived, which was not until 1+ hours after close.
- 35. Due to the inefficient processing by the tabulator, District 10 was provided a second yellow provisional bag. Both bags were in use.
- 36. When the master poll worker arrived, she asked why I was still there. I said I was waiting for the bags to be properly sealed.
- 37. As time passed on with closing activities, I asked again for the bags to be sealed.
- 38. When the main yellow provisional bag was sealed, the bag that was filled with most of the provisional ballots for District 10, the master poll worker sealed it with blue painters tape, then applied the red seal. Finding this unusual, I asked why the blue tape, and she said the bag was frayed. But it was not.
- The red ballot bag and yellow provisional bags were finally sealed using red seals near10:00pm ET.

I declare under penalty of perjury the above statements are true and correct.

Signed: DSCen

Declaration of Beth Scheuerlein

I, Beth Scheuerlein, hereby declare as follows under penalty of perjury:

- 1. I am over the age of 18 and competent to make this declaration.
- 2. I am a citizen of the United States and the State of New Jersey.
- 3. I reside in Pennington, New Jersey.
- I was a challenger in the General Election on November 7, 2023, at districts 4 at the Pennington Town Hall from 8:15 am to 2:30, at district 5 & 8 at the Pennington Senior Center from 3:00 to 6:05 and at districts 2 & 3 at the Union Fire House from 6:30 to 8:30pm.

District 4 – Pennington Town Hall

- 5. I arrived at Pennington Town Hall in the capacity of a challenger around 8:15am.
- 6. One of the two Hopewell side Ballot Marking Devices was not working.
- 7. The poll workers were confused about the procedure for recording the provisional ballots. There was no count form in the front of the bag. A poll worker eventually found the form around 8:45am. About an hour later, the same poll worker mentioned she had forgotten to keep count of provisional ballots.
- 8. All morning one of the two smartcard encoders for district 4 was not working properly. The poll worker had to keep unplugging it from the pollbook to get it to work.
- 9. At 10am a reminder to take a vote count popped up on the pollbook which disrupted the check in process for 2 voters (husband and wife) who were signing in simultaneously. This caused their status to change to ineligible. When the poll worker tried to encode the smartcard again, it said they had already voted (which they had not). One voter was able to complete the provisional voting process. For the other voter, the poll worker was not able to get the smart card encoder to load to enable him to vote provisionally because her screen went black, so he was not able to vote.
- 10. The gentleman who was unable to vote asked for a voter complaint form and the poll worker said she didn't have one and instructed him to come back later. About noon time, after the voter left, another poll worker found the form in a binder. The first poll worker said not to give a complaint form to a voter unless they asked for it because it was quote "too much".
- 11. At 12:00 noon the pop-up message caused another voter registration to be interrupted thus listing her as ineligible. This time the poll worker spoiled the ballot but chose "don't reissue" in error. The voter was forced to vote provisionally.
- 12. One smartcard encoder had an error message and stopped working. The poll worker eventually rebooted the pollbook and it started working again.

- 13. A father & son who lived at the same location came to the precinct to vote. Upon check-in, the son was listed as living in district 4 and was able to vote. However, the father was listed as living in district 5 so he had to vote at a different poll location.
- 14. Many elderly people were confused by the process of voting on the new Ballot Marking Devices and poll workers often had to accompany the voter inside the voting booth to assist them. Many individuals thought they had voted after they chose their candidates and pulled the smartcard prior to printing the ballot. They didn't understand that they had not yet cast their ballots.

Districts 5 & 8 – Pennington Senior Center

- 15. The poll workers were working with as low as a 2 % charge on their pollbooks. The chargers weren't working properly. The poll worker with 2% charge had to remove the encoder and plug in his cell phone charger to the pollbook while registering voters, replace the phone charger with the encoder to load the smartcard and then when finished with the voter check in, plug the phone charger back in, in order to enable him to check in voters without running out of power.
- 16. A first-time voter who had registered in August when he got his license was not found on the voter roll when he checked into the pollbook around 4:30pm. He was turned away without being able to vote.

Districts 2 & 3 – Union Fire House

- 17. When I arrived at about 6:30pm the only working tabulator at this location had stopped working due to a paper jam.
- 18. The line was so long the precinct had run out of smartcards to process voters.
- 19. One of the districts had also run out of paper for the ATV printer.
- 20. Two men from the warehouse came to fix the tabulator but were unsuccessful.
- 21. A Dominion employee also came to the location to fix the problem but was also unsuccessful.
- 22. Many voters left without voting due to the long wait time.
- 23. After an hour and a half wait, at about 7:40pm the master poll worker announced that the people waiting in line could spoil their ballot and vote provisionally if they wanted. A few voters decided to spoil their ballot and redo as a provisional ballot.
- 24. At 7:50pm Sherry Henderson called and instructed the master poll worker to open the emergency shoot to collect the ballots.
- 25. One man, who was the next voter in line when the scanner jammed, left to get something to eat and returned at 8:01. He was not able to cast his ballot.

I declare under penalty of perjury the above statements are true and correct.

Signed: ________ Date: ______/2/6/202

Declaration of John Hart

I, John Hart, hereby declare as follows under penalty of perjury:

- 1. I am over the age of 18 and competent to make this declaration.
- 2. I am a citizen of the United States and the State of New Jersey.
- 3. I reside in Pennington, New Jersey.
- I was a Challenger in the General Election on November 7, 2023 at district(s) 5&8 at the Senior Center from 8:30-10:30 am, districts 10&11 at Liberty Freedom Center from 11:00 am – 12:30 pm, districts 2&3 at the Union Fire House from 1:00 – 4:00 pm.

District 10 – Liberty Freedom Center

- 5. I arrived at the Liberty Freedom Center at approximately 11:00 am.
- 6. There was a very long line of people waiting to cast their ballots, approximately 15.
- 7. The tabulator for district 10 was not working.
- 8. The poll master would not let the working tabulator for district 11 be used by district 10 voters.
- 9. Some people left without voting because the tabulator was down.

District 2 & 3 – Union fire House

- 10. I arrived at the firehouse at approximately 1:00 pm.
- 11. The poll was extremely short staffed. The lines were very long, about 20 people the whole time. Many people left without voting. Others were rolling up the ballot while waiting to cast their vote.
- 12. One of the poll workers left for lunch leaving just 2 poll workers for both districts. A poll worker had to leave the registration table for district 2 in order to assist voters with using the ballot marking devise and the tabulator.
- After casting their ballots, voters were leaving the smart card on the unmanned table for district
 The smartcards were not being collected by a poll worker.
- 14. A few people were told they voted already and had to vote provisionally.
- 15. The two hour public counter was not being posted on a timely basis.

I declare under penalty of perjury the above statements are true and correct.
